**DIRECTIONS FOR USE:** This is a violation of Federal law to use this product in a manner inconsistent with its labeling. **READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.**

**WHY YOU SHOULD USE THIS PRODUCT:** This is a highly effective, multi-purpose product that sanitizes, clarifies, prevents algae and shock treats your pool. It is convenient, easy to use and won't oversaturate your pool. For crystal clear pool water, follow our 4 step pool care guide: Step 1: Test and adjust pool water balance, Step 2: Chlorinate and clarify, Step 3: Shock your pool at least once a week, and Step 4: Add algicide regularly where needed.

**Additional shocking to keep water clear and clean is recommended after rain and heavy winds; high number of swimmers; increased water temperature; and/or increased frequency of pool usage.**

**HOW TO USE:** Use entire contents when opened. Add the recommended dosage of this product during evening hours while the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. If any granules settle to the bottom of the pool, use a pool vacuum to remove them. Use the Swim Pool Care Products to make adjustments to your pool. Do not enter pool until the free available chlorine residual is 1-4 ppm for each of the below noted treatment applications.

OPENING YOUR POOL: For best results, see the “WATER BALANCE” section above before treatment. Always adjust and maintain the pH in the 7.2 to 7.6 range. Follow “SHOCK TREATMENT” directions on this package. Allow 30 minutes for product to dissipate. Test free available chlorine residual with a pool-test kit. Repeat treatment as needed.

SHOCK TREATMENT / SUPERCHLORINATION: For best results, use “WATER BALANCE” and “HOW TO USE” sections above before treatment. Every 7 days, or as necessary to prevent pool problems, shock treat / superchlorinate the pool by adding one bag of this product per 10,000 gallons of water to provide 5 to 10 ppm available chlorine. Additional shock treatments may be required to correct problems which are caused by visible algae. High-bathing loads, heavy wind and rainstorms. Additional shock treatments may also be required to correct problems such as unpleasant odors and eye irritation. Obtain the available chlorine with a suitable test kit.

ALGAE CONTROL: Follow “SHOCK TREATMENT” directions on this label. Add this product to a pool you may have any algae on the sides or bottom of the pool. If necessary, repeat the treatment, to prevent possible staining or blighting, take action immediately after treatment. Thoroughly clean pool by brushing surface of algae growth, vacuum the pool, and circle through after. **PRECAUTIONARY STATEMENTS:**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS:**

**DANGER:** Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Irritating to skin and eyes. Protect eyes and skin.

**Open in a well ventilated area. Avoid breathing dust and fumes.**
