PRECAUTIONARY STATEMENTS

32

Hazards to Humans and Domestic Animals: Caution. Harmful if swallowed or absorbed through the skin. Harmful if inhaled. Do not breathe the dust, fumes, mists, vapors, spray or aerosol. See caution statement. This product contains reducer! Keep away from oxidizing agents! This product contains reducer! Keep away from oxidizing agents! This product when used as directed will prevent growth of most algae during the off-season winter months when pools are not in use. This non-foaming algae preventative works to prevent algae growth when the pool is not being used due to freeze damage or change in water chemistry. Spas containing heavy growth of algae must be cleaned prior to using this product. Spas, whirlpools, or hot tubs should be cleaned of all algae. Algae may grow back if following directions for use are not followed. Use long-lasting shock to bleach heavy algae growth. This product is not designed to be used for heavy algae growth. Use in conjunction with shock chlorination. To reduce algae to an acceptable level, use algae-clear®. This non-foaming product is used to control the growth of algae in spas, whirlpools, and hot tubs.
