SO0859 HIT SQUAD™ INDUSTRIAL INSECTICIDE
DO NOT USE THIS PRODUCT IN OR AROUND ELECTRICAL EQUIPMENT DUE TO THE POSSIBILITY OF SHOCK HAZARD.

DIRECTIONS FOR USE. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Application within and without food areas, food contact surfaces, and food processing and handling establishments, including, but not limited to: restaurants, grocery stores, bakeries, food manufacturing and processing establishments, and food warehousing establishments. Do not use in feed handling establishments or in feed stock feed vehicles. Keep out of doors after use. Hold contain- er upright. Apply in short bursts.

FOR SPOT TREATMENT. To kill ants, black widow spiders, carpet beetles, centipedes, cockroaches, crickets, fleas, lice, millipedes, powdered millipedes, termites, silverfish, sowbugs, spiders and water bugs. Spray areas where these insects are found or may hide, including dark corners of rooms and closets, cracks and crevices in walls, along baseboards and door and window frames; beneath and behind sinks, stoves, refrigerators, and cabinets; and around garbage cans, plumbing and other utility installations. Pest shows out of hiding places should be sprayed directly. For ants, spray ant trails and around doors and windows, and wherever else these pests may enter.

For crack and crevice treatment. To kill ants, black widow spiders, brown dog ticks, cockroaches, crickets, fleas, lice, and silverfish and sowbugs. Apply in small amounts directly into cracks and crevices. Equipment capable of delivering a pin stream should be used in points between different elements at construction between equipment and floors, opening leading to voids or spaces in walls, equipment legs and bases where these pests hide. Care should be taken to avoid depositing the product embossed surfaces. Avoid contamination of food or food handling surfaces.

To kill brown dog ticks and fleas. Thoroughly apply as a spot treatment to infected areas such as pet beds and resting quarters, mainly cracks and crevices, and along behind baseboards, windows and door frames, and localized areas of floor and floor coverings where these pests may be present. Pets old bedding should be removed and replaced with clean fresh bedding after treatment. Do not seed pets with this product. Pets should be treated with a registered flea and tick control product prior to reentering treated areas.

INFECTICIDES

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed, inhaled or absorbed through skin. Causes moderate eye irritation. Avoid inhaling vapors or spray mist. Avoid contact with eyes, skin or clothing.
