Wash thoroughly with soap and water after handling.

IN CASE OF EMERGENCY CALL: 1-800-654-6911.

DIRECTIONS FOR USE:

WINTERIZING:

If pool has slight visible algae growth, treat with one maintenance dose as directed. If visible algae are still present or re-appear, repeat this treatment as necessary. When pool is free of visible algae, use the maintenance dose more frequently. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently. If pool has slight visible algae growth, treat with one maintenance dose as directed. If visible algae are still present or re-appear, repeat this treatment as necessary. When pool is free of visible algae, use the maintenance dose more frequently. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

MAINTENANCE DOSE:

Step 1: Sanitize.

Step 2: Sanitize.

Step 3: Dechlorinate.

Step 4: Algae Management.

IN CASE OF EMERGENCY CALL: 1-800-654-6911.
HTH® pool care products. For crystal clear pool water, follow our 4 step algae guard® process. This product when used regularly will kill and control the growth of algae for complete pool enjoyment. For best results, use with other common pool chemicals, but should not be mixed with any foreign material other water treatment chemicals. This product works best when added in several places to the pool with the pump or circulation system running. Wait 15 minutes before entering the pool or spa. Pools with heavy growth of algae should be cleaned prior to using this product.

**WHY YOU SHOULD USE THIS PRODUCT:**

- Protects against algae growth
- Non-foaming formula
- Protects against algae growth
- Formula not espumante

**DIRECTIONS FOR USE:**

1. **Balance:** The pH of the pool water should be maintained between 7.2 and 7.6. Then add 1 gallon of this product to 50,000 gallons of pool water. This dose helps provide a measure of control of algae growth during the winter months and helps the servicing of the pool before it is returned to use the following season. Continue to keep a residual of this product in the pool water to prevent algae growth.

2. **Sanitize:** Add algaecide as directed.

3. **Shock:** For a thorough treatment with a pump or circulation system, add 16 ounces of this product to 25,000 gallons of pool water at 3–5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently. If above. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment as necessary. When pool is free of visible algae, use the Maintenance Dose.

4. **Maintenance Dose:** Add 64 ounces of this product to 25,000 gallons of pool water. This product works best when added in several places to the pool with the pump or circulation system running. Wait 15 minutes before entering the pool or spa. Pools with heavy growth of algae should be cleaned prior to using this product.

**ENVIRONMENTAL HAZARDS:**

- This pesticide is toxic to fish and aquatic organisms.
- Harmful if swallowed. Wash thoroughly with soap and water before eating, drinking, smoking, or going to bed.

**STORAGE AND DISPOSAL:**

- Keep this product in its tightly closed container when not in use. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment.

**LABELING STATEMENTS:**

- **FIRST AID:** IF IN EYES: Rinse eyes immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice.
- **IF ON SKIN OR CLOTHING:** Rinse skin immediately with plenty of water for 15–20 minutes. Remove contact lenses, if present, after first rinse. Wash thoroughly with soap and water for 15–20 minutes. Call a poison control center or doctor for treatment advice.
- **IF SWALLOWED:** Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor.
- **IN CASE OF EMERGENCY CALL:** 1-800-654-6911.
- **PRODUCT USE IN POPULATED AREAS:** When swimming season is over, adjust the pH to be between 7.2 and 7.6. Then add 1 gallon of this product to 50,000 gallons of pool water. This dose helps provide a measure of control of algae growth during the winter months and helps the servicing of the pool before it is returned to use the following season. Continue to keep a residual of this product in the pool water to prevent algae growth.
- **OTHER INGREDIENTS:** 90.00%
- Methyl benzyl ammonium chlorides (60% C14, 30% C16, 5% C12, 5% C18) 0.04%
- n-Dialkyl benzyl ammonium chlorides (60% C14, 30% C16, 5% C12, 5% C18) 9.96%
- n-Alkyl active ingredient(s):
- Methyl benzyl ammonium chlorides (60% C14, 30% C16, 5% C12, 5% C18) 0.04%
- n-Dialkyl benzyl ammonium chlorides (60% C14, 30% C16, 5% C12, 5% C18) 9.96%

**KEEP OUT OF REACH OF CHILDREN:**
