FIRST AID: IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes. Then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call a poison control center or doctor immmediately for treatment advice. Have person take several swigs of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information call the National Poison Control Information Center at 1-800-222-1222.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING:
May be fatal if absorbed through skin. Causes skin irritation. Harmful if swallowed. Causes moderate eye but temporary eye irritation. Harmful if inhaled. Do not get in eyes, on skin, or on clothing. Avoid breathing vapor or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco or using the toilet. Wear protective eyewear (goggles, safety glasses or face shield), protective clothing and rubber gloves. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment (PPE): Applicators and other handlers must wear the following: Coveralls over short-sleeved shirt and shorts, chemical-resistant gloves and chemical-resistant boots made of any waterproof material. Follow manufacturer’s instructions for cleaning/maintaining PPE. If such instructions are not available, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product concentrate. Do not reuse them.

User Safety Recommendations: Users should wash hands thoroughly with soap and water before eating, drinking, using tobacco or using the toilet. Users should remove clothing/ PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. As soon as possible wash thoroughly and remove all contaminated clothing. Wash hands before eating, drinking, using tobacco or using the toilet.

ENVIRONMENTAL HAZARD: This pesticide is toxic to aquatic and atmospheric invertebrates and may contaminate water through runoff. For terrestrial uses, do not apply directly to water. Do not contaminate water sources when disposing of equipment washwater or rinsates.

PHYSICAL OR CHEMICAL HAZARDS: Do not mix with soap, acrylates, detergents or oxidizers.

WARRANTY STATEMENT: BIODEX LABORATORIES warrants that this product conforms to the chemical description on the label and is reasonably fit for purposes stated on this label only when used in accordance with directions and under use conditions. It is impossible to eliminate all risks inherently associated with use of this product. Indications or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application. All of which are beyond the control of BIODEX LABORATORIES. To the extent permitted by applicable law, BIODEX LABORATORIES shall not be liable for consequential, special or indirect damages resulting from the use or handling of this product. To the extent permitted by applicable law, BIODEX LABORATORIES shall not assume any responsibility for loss of crops or for any other property damage or personal injury, including death, caused by this product.

ACTIVE INGREDIENTS:

Copper sulfate pentahydrate† ........................ 28.029%
Al2O3 (60%) C16 30% C16 5% C18 5% C18
_dimethyl benzyll ammonium chloride† ............... 0.625%
Alky (68%) C14 32% C14 dimethyl ethylbenzyl
_dimethyl ammonium chloride† ....................... 0.625%

INERT INGREDIENTS ........................................ 70.721%
TOTAL ...................................................... 100.000%
*Contains 71% elemental copper

CONTENT: 1 QT. (32 FL. OZ.) (.964 LITERS)

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Please read entire label and use strictly in accordance with precautionary statements and directions. Do not apply this product in a manner that will contaminate aquatic organisms or pets, other domestic animals, or property. Primarily designed for use as an additional treatment for treating swimming pool water. The correct use dilution may be added directly to the pool in any spot or added to the water circulation equipment. This product works the best when added by itself directly to pool water. This product is compatible with most chemicals normally used in swimming pool maintenance; however, if it is combined with high concentrations of chlorine or any other oxidizers. Do NOT MIX THIS PRODUCT AND CHLORINE OR ANY OTHER OXIDIZER TOGETHER before adding to the pool. These chemicals should be handled separately. This product is not a stand-alone product. It must be used with halogen based pool sanitizers.

Initial Dose: When pool has visible algae growth, add 1 quart (32 oz.) of Aqua Pure Algaicide per 20,000 gallons of pool water by distributing around pool perimer. One half hour (30 minutes) after adding algaeicide, add chlorine (3 gal.) liquid chlorine per 10,000 gallons of water, or 2 lbs. dry chlorine per 10,000 gallons of water, or 2 lbs. dry chlorine (Calcium Hypochlorite) or equivalent other types dry chlorine, per 10,000 gallons water. Add Aqua Pure Algaicide to water by itself, do not mix or premix with other pool chemicals. Aqua Pure is non-corrosive at use dilutions to laminate surfaces.

Discontinue swimming until chlorine residual is 1 ppm. Keep filter system operating continuously for 48 hours after treatment. Backwash filter as required and brush pool daily. Vacuum pool before and after algae treatment.

Maintenance dose (pool is free of visible algae): Add 4 oz. Aqua Pure Algaicide per 20,000 gallons of pool water every two weeks during the swimming season. Maintain pH of pool water in the range of 7.2 to 7.6 and maintain correct chlorine residual. Each graduation of side of bottle represents approximately 2 ounces.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE: Store in original containers and place in locked storage area. Keep from freezing, SPILLS OR LEAK PROCEDURES: Small spill may be mopped up and flushed away with water or absorbed on some absorbent material and incinerated. PESTICIDE DISPOSAL: Pesticide wastes are heavily hazardous. Improper disposal of pesticides or any of its products may cause severe harm or death. Federal Law: If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Region Office for guidance. CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse as follows: Empty the remaining contents into a mix tank and drain for 10 seconds after the flow begins to drop. Fill the container 1/4 full with water and recap. Shake for 10 seconds, then rinse for 10 seconds. Drain for 10 seconds after the flow begins to drop. Repeat the process twice. Other methods of available, or puncture and dispose in a sanitary landfill, or by incineration, or as allowed by state and local authorities, by burning, if burned, stay out of smoke.
