KEEP OUT OF REACH OF CHILDREN
DANGER

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive. Causes severe eye damage. Has no smell, taste or odor. Dust, fumes or mists may irritate or absorb through skin. Do not get in eyes, on skin, or on clothing. Do not inhale dust, fumes, or spray mist. Dust may be harmful if inhaled. Fumes may be harmful if inhaled. Dust may be harmful if inhaled. Fumes may be harmful if inhaled. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS
STORAGE GUIDELINES: Store in cool, dry areas away from direct sunlight. Contamination with moisture, dirt, organic matter or other chemicals or any other factor which may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. Avoid contact with skin, eyes, clothing and any flammable or combustible materials. Such use or storage may cause fire or explosion.

ENVIRONMENTAL HAZARDS
This product contains the following hazardous ingredients:

- Oxidizing material. Keep away from sparks, flames and other sources of ignitability.
- Strong oxidizing agent: Use only dry, clean utensils. Mix only into water. Contamination with moisture, dirt, organic matter or other chemicals may result in a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion.

EMERGENCY HANDLING

In case of contamination or decomposition do not re-seal container. If possible, isolate container in open, well-ventilated area. Do not mix with other chemicals, contaminate water, dispose of contaminated material in approved landfill area. Oxidizing material. Keep away from sparks, flames and other sources of ignitability. Avoid contact with skin, eyes, clothing and any flammable or combustible materials. Such use or storage may cause fire or explosion.

FOR EMERGENCY MEDICAL INFORMATION, CALL TOLL-FREE 1-800-328-0026

IF INHALED:
Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison center or doctor for further treatment advice.

IF IN EYES:
Rinse thoroughly with large volumes of water for at least 15 minutes. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING:
Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED:
Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth if person is unconscious.

NOTE TO PHYSICIAN:
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IF SWALLOWED: Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth if person is unconscious.

DANGER:
Probable mucosal damage may contraindicate the use of gastric lavage.

In case of fire: Wet down burning material with water or appropriate extinguishing agent. Combustion may produce toxic fumes. Do not use water. If necessary, use resistant foam or carbon dioxide. Do not put out a fire if it threatens life or health.

If product is frozen, never should it be used while still frozen. In case of freezing, the product should be allowed to thaw before use. Product should be used only in the manner for which it is intended. This product is sold, delivered, and used as a chemical for the storage or destruction of insects and other arthropods. This product contains flavoring agents of food, drug and cosmetic origin.

PRECAUTIONARY STATEMENTS
DANGER:
READ LABEL AND INSTRUCTIONS CAREFULLY BEFORE USING.

See below for Precautionary Statements and First Aid.

DIRECTIONS FOR USE
SANITIZATION OF NON-POROUS FOOD CONTACT SURFACES
- Add the product to the final rinse water of the automatic dish machine at a concentration between 50 and 100 ppm available chlorine. Air dry. To insure that available chlorine concentration does not fall below 50 ppm, periodically test the rinse solution with a suitable test kit and adjust the dispensing rate accordingly. Consult your local Ecolab Specialist for technical assistance and further information on sanitizing tableware in warewashing machines.
