A BROAD SPECTRUM, CONTACT FOLIAR FUNGICIDE, FOR
CONTROL OF A VARIETY OF DISEASES ON AGRICULTURAL
CROPS, TERRESTRIAL AND ORNAMENTAL PLANTS,
GREENHOUSE AND NURSERY CROPS AND TURF

ACTIVE INGREDIENT:
Potassium Bicarbonate .......................... 85.00%
OTHER INGREDIENTS ............................... 15.00%
TOTAL ............................................. 100.00%

PROXY: 110158
Manufactured For
HELENA CHEMICAL COMPANY
225 SCHILLING BOULEVARD, SUITE 300 • COLLIERVILLE, TENNESSEE 38017

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Applicators and other handlers must wear:
• Long-sleeved shirt and long pants
• Shoes plus socks
Follow manufacturer’s instructions for cleaning and maintaining PPE. If no such
instructions for washables exist, use detergent and hot water. Keep and wash
PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS
Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco or using
the toilet.
• Remove clothing immediately if pesticide gets inside. Then wash thor-
oughly and put on clean clothing.

ENVIRONMENTAL HAZARDS
Do not apply directly to water, or to areas where surface water is present or to
intertidal areas below the mean high water mark. Do not contaminate water
when cleaning equipment or disposing of equipment washwaters.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with
its labeling.
Do not apply this product in a way that will contact workers or other persons,
either directly or through drift. Only protected handlers may be in the area
during application. For any requirements specific to your State or Tribe, consult
the agency responsible for pesticide regulation.

USER SAFETY RECOMMENDATIONS
Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco or using
the toilet.
• Remove clothing immediately if pesticide gets inside. Then wash thor-
oughly and put on clean clothing.

FIRST AID
IF SWALLOWED:
• Call poison control center or doctor immediately for
treatment advice.
• Have person drink several glasses of water.
• Do not induce vomiting.
• Do not give anything by mouth to an unconscious
person.
IF IN EYES:
• Hold eye open and rinse slowly and gently with
water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5
minutes, then continue rinsing eye.
• Call a poison control center or doctor immediately
for advice.

HOT LINE NUMBER
Have the product container or label with you when calling a poison control
center or doctor, or going for treatment. You may also contact 1-800-424-
9300 for emergency medical treatment information.

KEEP OUT OF REACH OF CHILDREN
CAUTION
Harmful if swallowed. Causes moderate eye irritation. Avoid contact with
eyes or clothing. Wash thoroughly with soap and water after handling.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
CAUTION
Harmful if swallowed. Causes moderate eye irritation. Avoid contact with
eyes or clothing. Wash thoroughly with soap and water after handling.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.
PESTICIDE STORAGE: Store in original container in a cool, dry place.
Prevent exposure to moisture. Keep container tightly closed and out of the
reach of children. Avoid contamination with other pesticides or fertilizers.
PESTICIDE SPILL PROCEDURE: In case of a spill, carefully sweep up the
material to avoid generating dust. Store in a labeled container for disposal.
PESTICIDE DISPOSAL: Wastes resulting from use of this product may be
disposed of on site or at an approved waste disposal facility.
CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this
container. Offer for recycling, if available. Completely empty bag into appli-
cation equipment. Then dispose of empty bag in a sanitary landfill or by
incineration, or, if allowed by State and local authorities, by burning. If
burned, stay out of smoke.

AD 070110
EPA Reg. No. 5905-541
EPA Est. No.: First letters of product batch code indicate producing estab-
ishment: 5905-AR-001=W; 5905-GA-001=CG; 5905-IA-001=D; 5905-
CA-001=KC

NET WEIGHT: 5 Lbs. (2.27 kg)
PERSONAL PROTECTIVE EQUIPMENT (PPE)
Applicators and other handlers must wear:
- Long-sleeved shirt and long pants
- Shoes plus socks

Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users should:
- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard. Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 4 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: coveralls, waterproof gloves, shoes plus socks.

NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses. Keep unprotected persons out of treated areas until sprays have dried.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in original container in a cool, dry place. Prevent exposure to moisture. Keep container tightly closed.

PESTICIDE SPILL PROCEDURE: In case of a spill, carefully sweep up the material to avoid generating dust. Store in a labeled container for disposal.

PESTICIDE DISPOSAL: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

GENERAL INFORMATION

ECO-MATE® ARMICARB® “O” IS A BROAD SPECTRUM, CONTACT FOLIAR FUNGICIDE, FOR CONTROL OF A VARIETY OF DISEASES ON AGRICULTURAL CROPS, TERRESTRIAL AND ORNAMENTAL PLANTS, GREENHOUSE AND NURSERY CROPS AND TURF.

ECO-MATE® ARMICARB® “O” is applied using a suitable sprayer. Final spray solution should not be below 7.0 pH.

SPRAY APPLICATION METHOD: Do not apply this product with equipment that has ever been used to apply or store any kind of herbicide, insecticide, or other pesticide. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

IMPORTANT: Read the entire label before using as a guide to safe use. Refer to the Extension Service Specialist for additional information.

MIXING INSTRUCTIONS

ECO-MATE® ARMICARB® “O” must be diluted with water or product as directed on label.

1. Fill tank with 1/2 to 3/4 of the selected volume of water or hydraulic agitation.
2. Slowly add the required amount of ECO-MATE® ARMICARB® “O”.
3. Continue to fill the tank with water to the desired volume.

Some tank mixes may produce spray mixes that are injurious to any pesticide, the addition of spray adjuvants is not recommended.

PHYTOTOXICITY TO THE FOLIAGE AND/OR FRUIT

Spray solution should be applied within 4 hours after dilution in a field system.

GREENHOUSE APPLICATION: Mix at a rate of 2.5 to 5 pounds of ECO-MATE® ARMICARB® “O” per 100 gallons of water. The spray solution should be applied within 12 hours.

TURF APPLICATION: Mix at a rate of 2.5 to 5 pounds of ECO-MATE® ARMICARB® “O” per 100 gallons of water. The spray solution should be applied within 12 hours.

ORNAMENTAL APPLICATIONS: Mix at a rate of 2.5 to 5 pounds of ECO-MATE® ARMICARB® “O” per 100 gallons of water. The spray solution should be applied within 12 hours.

Start application at first sign of disease. For best protection, disease development. Shorten the interval during wet periods to control disease pressure.

For appropriate crops, ECO-MATE® ARMICARB® “O” is recommended for use as an inoculant.

FIELD APPLICATION: (California registered uses are listed on the label.) Mix at a rate of 2.5 to 5 pounds of ECO-MATE® ARMICARB® “O” per 100 gallons of water. Use a minimum of 10 – 20 gallons of water per 1/10 acre. Use the mixes that are not within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). Mix at a rate of 2.5 to 5 pounds of ECO-MATE® ARMICARB® “O” per 100 gallons of water. The spray solution should be applied within 12 hours.

Spray solution should be applied within 12 hours.
**ECO-MATE® ARMICARB® “O”** is applied using a sufficient volume of water to insure complete coverage of all stems and foliage. Final spray solution should not be below 7.0 pH.

**SPRAY APPLICATION METHOD:** Do not apply this product through any type of irrigation system. For best results, use a properly calibrated sprayer and check the calibration frequently.

**IMPORTANT:** Read the entire label before using **ECO-MATE® ARMICARB® “O”**. Consult your State Agricultural Experiment Station or Extension Service Specialist for additional information on timing of applications, rates, and any additional requirements or restrictions.

### MIXING INSTRUCTIONS

**ECO-MATE® ARMICARB® “O”** must be diluted with water before applying. Carefully measure and mix the recommended amounts of product and water.

1. Fill tank with 1/2 to 3/4 of the selected volume of water prior to the addition of **ECO-MATE® ARMICARB® “O”**. Start mechanical or hydraulic agitation.
2. Slowly add the required amount of **ECO-MATE® ARMICARB® “O”** to the tank.
3. Continue to fill the tank with the desired volume while agitation to promote uniform distribution and prevent settling.

Some tank mixes may produce spray mixes that are incompatible. A “jar test” is recommended for unfamiliar tank mixes. AS WITH ANY PESTICIDE, THE ADDITION OF SPRAY ADJUVANTS AND OTHER PESTICIDES TO THE SPRAY TANK MAY CAUSE PHYTOXICITY TO THE FOLIAGE AND/OR FRUIT OF SUSCEPTIBLE CROPS AND PLANTS.

### APPLICATION TIMING

Start application at first sign of disease. For best protection, repeat at one- to two-week intervals until conditions are no longer favorable for disease development. Shorten the interval during rainy weather or during periods of high relative humidity.

For appropriate crops, **ECO-MATE® ARMICARB® “O”** may also be applied post-harvest to remaining foliage to decrease overwintering inoculum.

**FIELD APPLICATION:** (California registered uses are listed in a separate section.)

Mix at a rate of 2.5 to 5.0 pounds of **ECO-MATE® ARMICARB® “O”** in 100 gallons of water. Apply mixed spray solution to thoroughly wet stems and foliage of plants. Apply a minimum of 20 gallons of mixed spray solution per acre. Spray volume per acre of treatment can vary depending upon plant type and stage of development. Concentration of spray solution and frequency of application will depend upon disease pressure. Repeat application at 10- to 14-day intervals or as needed. Increase frequency of application to every 5-7 days during periods of weather favorable to fungal growth. DO NOT EXCEED A MIX RATE OF 5 POUNDS OF **ECO-MATE® ARMICARB® “O”** PER 100 GALLONS OF WATER. Do not store unused spray solution. Dispose of unused spray solution on site. Spray solution should be applied within 12 hours of preparation.

**GREENHOUSE APPLICATION:** (California registered uses are listed in a separate section.)

Mix at a rate of 2.5 to 5 pounds of **ECO-MATE® ARMICARB® “O”** in 100 gallons of water. Apply mixed spray solution to thoroughly wet stems and foliage of plants. Apply a minimum of 20 gallons of mixed spray solution per acre. Use minimum of 10-20 gallons of water per 1/10 acre or 4,350 sq. ft. Concentration of spray solution and frequency of application will depend upon disease pressure. Repeat application at 10- to 14-day intervals or as needed. Increase frequency of application to every 5-7 days during periods of weather favorable to fungal growth. DO NOT EXCEED A MIX RATE OF 5 POUNDS OF **ECO-MATE® ARMICARB® “O”** PER 100 GALLONS OF WATER. Do not store unused spray solution. Dispose of unused spray solution on site. Spray solution should be applied within 12 hours of preparation.

**TURF APPLICATION:** (California registered uses are listed in a separate section.)

Mix at a rate of 0.92 oz. to 1.84 oz. in 2.5 gallons of water. Apply mixed spray solution at a rate of 2.5 gallons per 1,000 sq. ft., or 109 gallons per acre. Uniform and complete coverage of the foliage is essential for the most effective results. Concentration of spray solution and frequency of application will depend upon disease pressure. Repeat applications at 10- to 14-day intervals or as needed. Increase frequency of applications every 5-7 days during periods of weather favorable to fungal growth. DO NOT EXCEED A MIX RATE OF 1.84 OZ. **ECO-MATE® ARMICARB® “O”** PER 2.5 GALLONS OF WATER. Do not store unused spray solution. Dispose of unused spray solution on site. Spray solution should be applied within 12 hours of preparation.

**ORNAMENTAL APPLICATIONS:** (California registered uses are listed in a separate section.)

**ECO-MATE® ARMICARB® “O”** is recommended for use in the following use sites: Greenhouse, Lathhouse, Shadehouse, Commercial and Residential Landscapes, Interiorscapes, Nursery, Container Production and Field Applications. If **Ornamentals** are produced in a field system: Mix at a rate of 2.5 to 5 pounds of **ECO-MATE® ARMICARB® “O”** in 100 gallons of water. Apply mixed spray solution to thoroughly wet stems and foliage of plants. Apply a minimum of 20 gallons of mixed spray solution per acre. If **Ornamentals** are produced in a greenhouse system: Mix at a rate of 2.5 to 5 pounds of **ECO-MATE® ARMICARB® “O”** in 100 gallons of water. Use a minimum of 10–20 gallons of mixed spray solution per 4,350 sq. ft. or 1/10 acre. In both production systems, spray volume per acre/sq. ft. of treatment may vary depending upon plant type and stage of development. Concentration and frequency of application will depend upon disease pressure. Repeat application at 10- to 14-day intervals or as needed.

Increase frequency of applications to every 5-7 days. The following table shows the Pesticide Use Kit (PPE) and restricted-entry section.

### AGRICULTURAL APPLICATIONS:

- **Alfalfa**
  - **Control**
  - Phoma (Ascochyta)
  - Colletotrichum
  - Pythium
  - Botrytis (Alternaria)
  - Erysiphe (Sphaerotheca)
- **Almonds**
  - **Control**
  - Glomerella
  - Alternaria
  - Podosphaera
  - Botrytis (Alternaria)
  - Erysiphe (Sphaerotheca)
  - Monilinia (Sclerotinia)
- **Apples**
  - **Control**
  - Neofahras
  - Glomerella
  - Alternaria
  - Podosphaera
  - Phoma (Alternaria)
  - Botrytis (Alternaria)
  - Erysiphe (Sphaerotheca)
- **Apricots**
  - **Control**
  - Alternaria
  - Colletotrichum
  - Podosphaera
  - Monilinia (Sclerotinia)
- **Avocado**
  - **Control**
  - Alternaria
  - Sphaerella
  - Glomerella
- **Barley**
  - **Control**
  - Erysiphe (Sphaerotheca)
- **Beans (Asparagus, Dry Beans, Kidney Beans, Lima Beans, Snap Beans, Scarlet Runner)**
  - **Control**
  - Erysiphe (Sphaerotheca)
  - Colletotrichum
  - Podosphaera
  - Botrytis (Alternaria)
  - Alternaria
  - Erysiphe (Sphaerotheca)
  - Sphaerella

**FOR USE ON:**

- House and Nursery
- Turf
- Field
- Greenhouse
- Ornamentals
- Ornamentals
- Ornamentals
- Ornamentals
- Ornamentals

### PHI: Preharvest Interval

**Zero (0) days required**
Increase frequency of applications to every 5-7 days during conditions favorable to fungal growth. DO NOT EXCEED A MIX RATE OF 5 POUNDS OF ECO-MATE® ARMICARB® “O” PER 100 GALLONS OF WATER. Do not store unused spray solution. Dispose of unused spray solution on site. Spray solution should be applied within 12 hours of preparation.

AGRICULTURAL APPLICATIONS: (California registered uses are listed in a separate section.)

ECO-MATE® ARMICARB® “O” is recommended for use in the following use sites: Greenhouse, Orchard, Nursery, and Field Applications.

PHI: Preharvest Interval zero (0) days required on the following crops.

TURF APPLICATION: (California registered uses are listed in a separate section.)
ECO-MATE® ARMICARB® “O” is recommended for use in the following use sites: Commercial and residential lawns, golf course, and other commercial turf grass sites.

PHI: Preharvest Interval zero (0) days required

FOR USE ON:
- Bentgrass
- Bermudagrass
- Bluegrass, Kentucky, annual
- Centipedegrass
- Fescue, fine, tall, chewings, red
- Ryegrass, perennial, annual
- Zoysiagrass

DISEASES CONTROLLED
- Alternaria leaf spot
- Anthracnose
- Ascochyta blight
- Downy mildew
- Helminthosporium leaf spot
- Powdery mildew
- Septoria leaf spot

ORNAMENTAL APPLICATIONS: (California registered uses are listed in a separate section.)
PHI: Preharvest Interval zero (0) days required for the following plant types.

PLANT TYPES
- Annual and perennial flowers
- Woody and ornamental shade trees
- Woody and herbaceous ornamentals
- Ornamental nut and fruit trees

FOR USE ON:
- Ageratum
- Ajuga
- Almond-Ornamental
- Alyssum
- Andromeda
- Aphanandra
- Apple-Ornamental
- Apricot-Ornamental
- Artemisia
- Aster
- Azalea
- Boxwood
- Calendula
- Carnation
- Centaurea montana
- Cherry-Ornamental
- Chrysanthemum
- Cineraria
- Citrus
- Coleus
- Columbine
- Coral Bells
- (Heuchera)

DISEASES CONTROLLED
- Alternaria blight
- Anthracnose
- Ascochyta blight
- Black Spot
- Botrytis blight
- Botrytis gray mold
- Corynespora leaf spot
- Didymella leaf spot
- Dipodia tip blight
- Entomosporium leaf spot
- Fusarium
- Helminthosporium leaf spot

ORNAMENTAL APPLICATIONS: (California registered uses are listed in a separate section.)

CONDITIONS OF SALE – LIMITED WARRANTY
AND LIMITATIONS OF LIABILITY AND REMEDIES
Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded.
The directions on this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Helena Chemical Company (the “Company”) or seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law.
The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Helena Chemical Company’s election, one of the following:
1. Refund of the purchase price paid by buyer or user for product bought, or
2. Replacement of the product used
To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company and the seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
