UCARCIDE™ 50 Antimicrobial

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

INDUSTRIAL OR COMMERCIAL COOLING WATER SYSTEMS
Not registered for this use in the State of California

SERVICE WATER AND AUXILIARY SYSTEMS
Add 100 to 500 ppm to the water in the system depending upon severity of contamination. Required as needed to maintain control. Badly fouled systems must be cleaned and reconditioned before treatment.

WATER MISTING SYSTEMS
Add product to misting systems or any other point of uniform misting. Add 40 to 200 ppm product to the water in the system depending upon severity of contamination. Required as needed to maintain control. Badly fouled systems must be cleaned and reconditioned before treatment.

FIRE PROTECTION SYSTEMS
Add product to fire protection systems or any other point of uniform misting. Add 40 to 200 ppm product to the water in the system depending upon severity of contamination. Required as needed to maintain control. Badly fouled systems must be cleaned and reconditioned before treatment.

GENERAL PRESERVATIVE USE
Add product to metering device for continuous feed. Add 20 to 200 ppm per day of product to the water in the system depending upon severity of contamination. Repeat as needed to maintain control. Badly fouled systems must be cleaned and reconditioned before treatment.

WATER FLOODS AND ENHANCED OIL RECOVERY FLUIDS
Add 100 to 5,000 ppm product at any point in the production or application of the fracturing fluid to reduce bacterial growth. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.

NOTICE TO PHYSICIAN
Inhalation, ingestion or aspiration may cause lung or heart damage. Probable mucosal damage may contaminate the use of gastic lavage. Eye burns may require extended irrigation. No antidote or specific treatment. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.

DISPOSAL AND STORAGE
Do not contaminate water, soil, or food by allowing container to enter sewers or waterways.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or residue is a violation of Federal law. If these wastes cannot be disposed of by physical or chemical means, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for disposal instructions.

CONTAINER DISPOSAL
Option — label as non-refillable rigid container of any size

Refillable container: Refill this container with pesticide only. Do not use to store or transport other substances. This container, when empty, is reusable by refilling or repurposing. Air-valve systems, register, metering devices, and the like are not normally part of the container when empty.

Produced For (when used manufactured by contract manufacturer)

The Dow Chemical Company
Midland, Michigan 48674
