- Do not mix with any other products, except as directed on the label.
- Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark.
- Do not contaminate water, food, or feed by storage or disposal.

**STORAGE AND DISPOSAL**

- **Shipment:** Do not ship to or store where temperatures are below the mean high water mark.
- **Concentration:** Do not concentrate. Do not contaminate water, food, or feed by storage or disposal.

- **For Indoor Use:**
  - Use in and around Farms: Including Dairy, Beef, Hog, Horse, and Poultry Operations.

**ACTIVE INGREDIENTS:**

**Insect Repellents:**

- Pyrethrins.............................................0.50%
- Piperonyl Butoxide*.................................4.00%
- Other INGREDIENTS:..................................95.50%
- TOTAL................................................100.00%

*Equivalent to 3.2% (Butylcarbityl) (6-Propylpiperonylether and 0.8% related compounds.

**USE IN AND AROUND FARMS: INCLUDING DAIRY, BEEF, HOG, HORSE, AND POULTRY OPERATIONS**

**DAIRY FARM USE:**

For the milking parlor and milk room: Close all windows and doors. Direct this product upward and in all directions at a rate of 1 to 3 seconds per 1,000 cubic feet. Keep area closed for 15 minutes following application. Open and ventilate before reoccupying. Cover milking utensils and milk to prevent contamination from spray and dead falling insects.

**ANIMAL USE (Do not spray sick animals):**

From an approximately 2-foot distance, thoroughly spray this product over the entire animal as it is being released to pasture. Do not spray directly toward animal’s eyes. Spot treat withers, shoulders, back, and where saliva accumulates from head- tossing.

**STANCHION BARN USE:**

Walk behind animals and direct spray over animals’ backs allowing 1 second per animal. For most effective results, apply this product each morning.

**BEEF CATTLE OPERATIONS:**

In barns, close all windows and doors. Spray this product at the rate of 1 to 2 seconds per 1,000 cubic feet. Keep area closed for 15 minutes following application. Ventilate area after treatment is complete. If area cannot be closed, double the dosage. Repeat application daily or as necessary.

**HORSE BARN OR STABLES:**

Close all windows and doors. Spray this product at the rate of 1 to 2 seconds per 1,000 cubic feet. Keep area closed for 15 minutes following application. Ventilate area after treatment is complete. If area cannot be closed, double the dosage. Repeat application daily or as necessary.

**POULTRY OPERATIONS:**

Use only in empty poultry houses (when birds are not present). Close all windows and doors. Spray this product at the rate of 1 to 2 seconds per 1,000 cubic feet. Keep area closed for 15 minutes following application. Ventilate area after treatment is complete. If area cannot be closed, double the dosage. Repeat application daily or as necessary.

**STARCH/SEED AND WAVE NESTS:**

Spray this product must directly on insects and their nests from an approximately 2-foot distance. Contacted insects will fly away from fog. Applications should be made in late evening when insects are at rest. Spray into hinging and breeding places, contact as many insects as possible.

**FLIES:**

General Volumetric Treatment: Hold aerosol 36” above floor and direct spray toward floor and lower walls at a rate of 10 seconds per 100 square feet, making sure that all floor areas are contacted. Change litter before application. Keep area closed for 15 minutes. Remove animals before spraying. Open and ventilate before reoccupying. Repeat application after 7 days or as necessary.

**KENNELS AND CATTERIES:**

Remove animals before spraying. Ventilate after treatment is completed.

**PESTICIDE STORAGE:**

- Do not contaminate water, food, or feed by storage or disposal.
- gamma-toluuidine, a white or off-white powder, may be inhaled or ingested.
- gamma-toluuidine, a white or off-white powder, may be inhaled or ingested.
- gamma-toluuidine, a white or off-white powder, may be inhaled or ingested.
- gamma-toluuidine, a white or off-white powder, may be inhaled or ingested.
