FOR CONTROL OF HORN FLIES, LICE, TICKS & KEDS
AND TO AID IN CONTROL OF FACE FLIES, STABLE FLIES,
AND OTHER NUISANCE FLIES ON LACTATING
AND NON-LACTATING DAIRY CATTLE, BEEF CATTLE,
SHEEP, GOATS AND HORSES

Active Ingredients
Zeta-cypermethrin
S-Cyano (3-phenoxophenyl) methyl (±) cis/trans 3-(2,2-dichloroethyl)-
2,2 dimethylcyclopropane-carboxylate* ........................................... 0.075%
Piperonyl Butoxide, Technical
Min. 80% (butylcarbaryl)(6-propylpiperonyl) ether and Max. 20% related compounds .... 0.150%
Inert Ingredients .............................................................................. 99.775%
Total ............................................................................................ 100.000%

*±cis/trans ratio: Max. 55% (±) cis and Min. 45% (±) trans

NET CONTENTS:
2 - 12.5 lb. (5.67 kg) BAGS OF PYthon® DUST

EPA Reg. No. 39039-9 EPA Est. No. 39578-TX-1

KEEP OUT OF REACH OF CHILDREN CAUTION

See inside container label for additional precautionary statements
PRECAUTIONARY STATEMENTS
Read all labels before application.

CAUTION
Harmful if swallowed through skin. Avoid contact with eyes, mouth, and mucous membranes. Wash hands after handling.

Environmental Hazards
This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. To protect the environment, direct spraying or dusting must be done under conditions minimizing drift and runoff into streams, ditches, quivers or surface waters. Applying this product in calm weather when wind is not predicted for the next 24 hours. Do not apply during or following rain. Do not apply on days with hot, dry weather or high wind. Do not allow drift or splash to contaminate surface waters.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Applicants and other persons must wear:
- Long-sleeved shirt and long pants
- Water-resistant, non-permeable gloves made of any waterproof material, and
- Shoes and socks.

USER SAFETY REQUIREMENTS
- Follow manufactures instructions for cleaning and maintaining PPE. If not used, instructions for washable, waterproof, impervious clothing and PPE separately from other laundry.
- Discard clothing and other absorbent materials that have come in contact with the product or the product concentrate. Do not reuse them.

User Safety Recommendations
Use should wash hands before eating, drinking, smoking, using the toilet, or using any other personal care products. Wash hands with soap and water, or use an alcohol-based hand rub, immediately after using this product. Wash any contaminated clothing and bedding according to label directions. If not possible, launder contaminated clothing and bedding as soon as possible. Wash hands thoroughly and change contaminated clothing.

KEEP OUT OF REACH OF CHILDREN
CAUTION
See back panel for additional precautionary information.

NOTE OF WARRANTY
The term "warranty" as used in this warranty refers to the warranty of MERCHANTABILITY and FITNESS FOR ANY PURPOSE. THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES IS NOT APPLICABLE TO THIS WARRANTY. THE LIABILITY OF Y-Tex Corporation for breach of any express or implied warranty is limited to the repair or replacement of the product or the refund of the purchase price. The above warranty applies only to products purchased and used in the United States and Canada. In all other countries, the warranty is determined by the applicable law of that country. For more information, contact Y-Tex Corporation.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For Beef and Dairy Cattle, Sheep, Goats and Horses:
Can be applied by dust bag, shaker can, dusting glove and mechanical dust applicator. Do not use concurrently with insecticide ear tags containing a-cypermethrin or cypermethrin. Do not apply with power duster equipment. Do not enter or allow others to enter until dusts have settled.

Self-Treating Dust Bag Forced Use—horn flies, lice and face flies
Place dust bag in a daily forced use situation. Do not allow free choice use of dust bag. Place contents of package in any commercially available dust bag. Suspend bag in gateways or lanes through which the animals must pass daily for water, feed or minerals. For dairy cows, bags may be suspended in the exit through which the cows leave the milking barn. The bags should hang four (4) to six (6) inches below the backline of the cattle. For reduction of face flies, bags must be located so animals will be forced to use them daily and hung at a height so that the face is dusted.

Horn flies, lice, face flies, stable flies, ticks and keds (direct application):
Apply up to 2 oz (6 tablespoons) of dust per animal evenly into the hair over the head, ears, neck, shoulders, back and tailhead. For sensitive ear tags, apply approximately 1/2 ounce (1 tablespoon) inside each ear. For stable flies, apply also to legs. Repeat as necessary but not more than once in 3 days.

NET WEIGHT: 12.5 POUNDS (5.67 kg)
