CAUTION:

Digestible fats and oils may increase absorption and so should be avoided.

EXCEPTION: If the product is soil-injected or soil-incorporated, the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on or near where the product is field applied. This product is designed for use on ornamental plants as described in the label directions, and is not approved for use on food crops or in food processing areas.

Users Should:

- Remove PPE immediately after handling this product. Wash the outside of gloves before wearing. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Place removed clothing in a holding container. Remove shoes and socks. Wash thoroughly before wearing clean shoes and socks.

ENVIRONMENTAL HAZARDS

Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or applying any other skin or eye irritants. Remove contaminated clothing and shoes.

Avoid inhalation of dust or mist. Avoid contact with the eyes, skin, or clothing. Keep container closed and properly labeled.

Drift. Only protected handlers may be in the area during application. For any requirements specific to the drift, use proper protective clothing.

PESTICIDE DISPOSAL:

Cover to prevent dispersal. Place damaged package in a holding container. Completely empty bag into application equipment. Offer for recycling if available. Then dispose of the empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

PESTICIDE STORAGE:

Store in a cool, dry place and avoid excess heat. Carefully open containers. After partial use, secure container for future use by sealing tightly.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

PESTICIDE WORKER PROTECTION:

Restricted Entry Interval (REI): 15 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on or near where the product is field applied. This product is designed for use on ornamental plants as described in the label directions, and is not approved for use on food crops or in food processing areas.
