PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive. Causes irreversible eye damage. Do not get in eyes, on skin or on clothing. May be fatal if inhaled. Do not breathe vapor or spray mist. Harmful if swallowed. Harmful if absorbed through the skin. Causes skin irritation. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear protective eyewear (goggles, or face shield). Wear long-sleeved shirt, long pants, socks, shoes, and chemical-resistant gloves (such as or slab out of any water/proof materials).

User Safety Requirements: Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product’s concentrate. Do not reuse them.

User Safety Recommendations: Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

PHYSICAL AND CHEMICAL HAZARDS: Keep away from strong oxidizers.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for further treatment advice.

If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

In case of emergency, for additional information call 1-800-654-6911.

PROXEL TN PRESERVATIVE

A PRESERVATIVE FOR USE IN THE MANUFACTURE OF LATICES, PAINTS AND STAINS, OIL-IN-WATER EMULSIONS, ADHESIVES, TAPE JOINT COMPOUNDS, AQUEOUS MINERAL SLURRIES, INK AND DYES, AND PIGMENT DISPERSIONS

ACTIVE INGREDIENTS:
Hexahydro-1,3,5-tris (2-hydroxyethyl)-s-triazine........55.0%
1,2-benzisothiazolin-3-one........................................4.5%
Inert Ingredients..................................................40.5%
Total........................................................................100.0%

KEEP OUT OF REACH OF CHILDREN

MANUFACTURED FOR:

ARCH Chemicals, Inc.

5660 New Northside Drive, Suite 1100
Atlanta, GA 30328

Made in China, formulated in the UK.

PROXEL® is a registered trademark of Arch UK Biocides, Ltd.

EPA Reg. No. 1258-1246
EPA Est. No. 44616-MO-2

Net Wt. 55 Gallons
**STORAGE AND DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal.

**PESTICIDE STORAGE:** Protect from frost. If frozen, allow to thaw and stir well before use.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Triple rinse as follows: Empty remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over on its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

**CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. Triple rinse container promptly after emptying. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewers systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**DIRECTIONS FOR USE:** It is a violation of federal law to use this product in a manner inconsistent with its labeling. This product is an effective preservative in most aqueous compositions. Typical applications, and the suggested range of concentrations on which trials can be based are:

| Latices: | Natural and synthetic latices based on acrylate, butadiene, PVA, styrene and other monomers, for use in various applications, e.g., wax, paint, floor polishes, add 0.05 - 0.20 % of this product (based on total weight of product). |
| Paints and Stains: | For in-can preservation, add 0.15 - 0.20% of this product (based on total weight of product). |
| Oil-in-water emulsions: | Metalworking fluids of the soluble oil, semi-synthetic synthetic type, for use in various applications, e.g., cutting, grinding, and rolling fluids, add 0.025 - 0.20% (based on total weight of product). |
| Adhesives: | Carboxymethylcellulose (CMC) and derivatives, animal glues, adhesives based on gelatins and latex, add 0.10 - 0.20% of this product (based on total weight of product). |
| Tape joint compounds: | Wallboard, spackling and drywall joint products, add 0.05 - 0.30% of this product (based on total weight of product). |
| Inks and dyes: | Water based inks, ink concentrates, and fountain solutions, add 0.025 - 0.15% of this product (based on total weight of product). |
| Pigment dispersions: | Pigment dispersions and pigment cakes, add 0.05 - 0.30% of this product (based on total weight of product). |
| Specialty products and household products: | Add 0.05 - 0.30% of this product (based on total weight of product). |
| Laundry additives: | Liquid laundry detergents, fabric softeners, stain removers, add 0.05 - 0.20% of this product (based on total weight of product). |
| Home cleaning products: | Floor cleaners, floor waxes and polishes, hard surface cleaners, window cleaners, dish detergents, add 0.05 - 0.15% of this product (based on total weight of product). |
| Car care products: | Car washing products - surfactants/detergent solutions, silicone emulsions, add 0.05 - 0.30% of this product (based on total weight of product). |

Not for use in preserving aqueous compositions which may come in contact with food.

**General Recommendations:** The concentration required to give protection depends on several factors. These include the susceptibility of the system to microbiological degradation, the extent to which microorganisms can gain access, the species involved, pH, temperature, and length of time for which protection is required. For protection against bacterial and fungal attack, a concentration within the range of 0.01 - 0.30% of this product is considered sufficient.
PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive. Causes irreversible eye damage. Do not get in eyes, on skin or on clothing. May be fatal if inhaled. Do not breathe vapor or spray mist. Harmful if swallowed. Harmful if absorbed through the skin. Causes skin irritation. Prolonged or frequent repeated skin contact may cause allergic reactions in some individuals. Wear protective eyewear (goggles, or face shield), long-sleeved EHS long pants, socks, shoes, and chemical-resistant gloves (such as nitrile out of any waterproof materials).

User Safety Requirements: Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Cleaned clothing and other garments with water that has been stressed or heavily contaminated with this product’s concentrate. Do not reuse them.

User Safety Recommendations: Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outsides of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

PHYSICAL AND CHEMICAL HAZARDS: Keep away from strong oxidizers.

If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

If On Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for further treatment advice.

If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a Poison Control Center or doctor, or for going for treatment.

NOTE TO PHYSICIAN: Probable mucous damage may contaminate the use of gastric lavage.

In case of emergency, for additional information call 1-800-654-6911.

Net Wt. 55 Gallons

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Protect from frost. If frozen, allow to thaw and stir well before use.

PESTICIDE DISPOSAL: Pesticide wastes are currently hazardous. Improper disposal of excess pesticide, spray mixture, or rinse is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Triple rinse as follows: Empty remaining contents into application equipment or a mix tank, Fill the container 1/4 full with water. Replace and tighten closures. To container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinse into application equipment or a mix tank or store rinse container for later use or disposal. Repeat this procedure two more times.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. Triple rinse container promptly after emptying. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not dispose of effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling. This product is an effective preservative in most aqueous compositions. Typical applications, and the suggested range of concentrations, which limits can be based are:

Latices: Natural and synthetic latices based on acrylate, butadiene, PVA, styrene and other monomers, for use in various applications, e.g., wax, paint, floor polishes, add 0.05 - 0.20% of this product (based on total weight of product). Paints and Stains: For m-cresol preservative, add 0.05 - 0.20% of this product (based on total weight of product). Oleo-water emulsions: Metal-sparing fluids of the soluble oil, semi-anionic or synthetic type, for use in various applications, e.g., cutting, grinding, and finishing fluids, add 0.02 - 0.20% (based on total weight of product).

Adhesives: Carbohydrate and derivatives, animal glues, adhesives based on gelatin and latex, add 0.10 - 0.20% of this product (based on total weight of product).

Aqueous mineral slurries: Titanium dioxide, calcium carbonate, clay, add 0.01 - 0.2% of this product (based on total weight of product). Tape joint compounds: Wallboard, speculating and drywall joint products, add 0.02 - 0.30% of this product (based on total weight of product). Inks and dyes: Water based inks, dyes concentrates, and lacquers, add 0.05 - 0.10% of this product (based on total weight of product).

Specialty products and household products: Add 0.05 - 0.20% of this product (based on total weight of product).

Laundry additives: Liquid laundry detergents, fabric softeners, stain removers, add 0.05 - 0.20% of this product (based on total weight of product).

Home cleaning products: Floor cleaners, floor waxes and polishes, hard surface cleaners, window cleaners, toilet deodorizers, and 0.05 - 0.15% of this product (based on total weight of product).

Car care products: Car washing products - surfactants/detergent solutions, silicone emulsions, add 0.05 - 0.20% of this product (based on total weight of product).

Not for use in preserving aqueous compositions which may come in contact with food.

General Recommendations: The concentration required to give protection depends on several factors. These include the susceptibility of the system to microbiological degradation, the extent to which microorganisms can gain access, the species involved, pH, temperature, and length of time for which protection is required. For protection against bacterial and fungal attack, a concentration within the range of 0.01 – 0.20% of this product is considered sufficient.
