**Pool Breeze®**

**Pool Breeze® Pool Care System**

---

**WHAT THIS PRODUCT IS FOR:**

This pool chlorinating 7 oz tablet is designed to provide a source of available chlorine (up to one week) for complete control of pool bacteria and destroy organic contaminants. Reentry into treated water is safe and normal swimming enjoyment continues.

**WHY YOU SHOULD USE THIS PRODUCT:**

It provides a convenient means of adding the proper amount of chlorine to the pool water. It is a violation of Federal law to use swimming pool products in any manner not in accordance with its directions and precautions.

**HOW TO USE:**

Maintain water as stated in WATER BALANCE.

**ROUTINE CHLORINATION:**

For best results, see “WATER BALANCE” section above before treatment. Add one 7 ounce tablet per 15,000 gallons of pool water every week or as often as needed to maintain a chlorine residual at 1 - 4 ppm. Follow directions as stated in WATER BALANCE section to adjust pH and alkalinity of pool water. Do not exceed 4 ppm available chlorine. Routinely check pH and alkalinity with test kit before using this product. Always maintain pH between 7.2 to 7.6, total alkalinity from 80 to 120 ppm. Refer to your pool water care dealer regularly for a detailed water analysis.

**ALGAE CONTROL:**

As a preventative treatment, you should shock treat the pool. Do not use this chlorinating tablet in a floater or feeder. Use Pool Breeze® algaecide product regularly.

**DIRECTIONS FOR USE:**

1. Add one 7 oz. tablet to pool water. Do not dispose in a storm drain.
2. For preventative algae control, use your preferred Pool Breeze® algaecide product regularly.
3. Do not use with other chemicals, other water treatment products, away from this product. • Keep all foreign matter, including other water treatment products, away from this product. • DO NOT use in floaters or feeders. • DO NOT use in a skimmer. • Do not mix this product with a small amount of water. • Only add directly to your pool or spa. Do not remove floater or other dispensing device from water for more than five minutes if it contains a tablet or tablet residue. • DO NOT use in a skimmer. • DO not add water to this product. Add only into water. • DO NOT use in floaters or feeders.
