**ADMINISTRATION**: Do not keep for human or animal use after date indicated on label.

**STORAGE AND DISPOSAL**: Do not keep in feed or bedding storage facilities while this product is inside or by storage or disposal.

**PESTICIDE STORAGE**: Keep this product in a dry, light-resistant place when not in use. Store in cool, dry, well ventilated area away from light or heat. In case of dispersion, isolate container (if possible) and find fresh area with large amounts of water to wash off any spilled pesticide at once before dangerous the container.

**PESTICIDE DISPOSAL**: Pesticide waste may be hazardous. Improper disposal prevents recovery of material and may be a violation of Federal law. If waste is not hazardous can be disposed of by use according to label instructions. Contact State or Federal Environmental Protection Agency, or the Haze Residue Statement at the Regional office for guidance.

**CONTAINER HANDLING AND DISPOSAL**: Inert, resistant, noncorrosive container. Do not puncture or return it into the container. Properly store in a safe location (out of reach of children or pets). Keep out of direct sunlight. Keep tightly closed when not in use.

**DISPOSAL OF CONTAMINATED MATERIALS**: Before using this product, food products and packaging materials should be autoclaved and disposed of according to federal, state, and local regulations. This precleaning may be accomplished with any disinfectant solution including Bru-Clean TbC. This precleaning may be accomplished with any disinfectant solution including Bru-Clean TbC.

**DRY IN A TIGHTLY SEALED CONTAINER WHEN STORAGE OR DISPOSAL**: Keep dry in a tightly sealed container when storage or disposal.

**PESTICIDE DISPOSAL**: Pesticide waste may be hazardous. Improper disposal prevents recovery of material and may be a violation of Federal law; if waste is not hazardous, it can be disposed of by use according to label instructions. Contact State or Federal Environmental Protection Agency, or the Haze Residue Statement at the Regional office for guidance.

**ENVIRONMENTAL HAZARDS**: This product is toxic to fish and aquatic organisms. It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with the precautionary statements and directions. This product is not to be used as a terminal sterilant/high level disinfection.

**PRECAUTIONARY STATEMENTS**: HAZARD: Corrosive, Can cause respiratory damage, Halits, allergic reactions, coughing, if inhaled, if in the eyes, skin or on clothing. Avoid breathing dust. Wear chemical-resistant gloves and protective eyewear (safety glasses or face shield) when making admixture with water. Discard rigid containers, valves, and connectors with care to prevent accidental exposure to the disinfectant. Mucosal damage may contraindicate the use of gastric lavage.

**ALWAYS CONTACT 1-800-633-9236 FOR ENVIRONMENTAL MEDICAL TREATMENT INFORMATION**.

**PRODUCT HAZARDS TO HUMANS AND DOMESTIC ANIMALS**: The following adverse reactions may occur on the skin, or in the eyes, or on the clothing. Avoid breathing dust. Wear chemical-resistant gloves and protective eyewear (safety glasses or face shield) when making admixture with water. Discard rigid containers, valves, and connectors with care to prevent accidental exposure to the disinfectant. This solution should be freshly prepared. Use within one day. Keep unused solution to disinfectant on any surface or instrument that is, (1) is introduced directly into the human body, (2) is introduced into or in contact with the bloodstream or normal sterile areas of the body, or, (3) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normal sterile areas of the body.

**DIRECTIONS FOR USE**: Use a concentration of 937 ppm (mg/Liter) of available chlorine. This solution may be used to decontaminate a high level disinfection._flashdown.

**PREPARATION OF USE SOLUTION**: Add 1 Bru-Clean TbC tablet to 1 gallon of water (25°C/77°F) to obtain a concentration of 937 ppm (mg/Liter) of available chlorine. This solution should be freshly prepared, use within one day. Keep in a properly labeled container to protect against contamination. Unused solution should be discarded.

**Bru-Clean TbC**: is a Hospital Use Disinfectant on 1 tablet per gallon.

**Disinfectant/Virucidal Directions**: Use applications to pre-cleaned, hard, non-porous, inanimate surfaces with brush, spray device, cloth or mop to wet all surfaces thoroughly. Allow to remain for 10 minutes, then remove product by washing, cloth or mop to wet all surfaces, rinse, and wipe dry in a tightly sealed container when storage or disposal.

PESTICIDE DISPOSAL: Discarding the container.

PESTICIDE STORAGE: Do not contaminate food or feed by storage or disposal.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms.

ACTIVE INGREDIENT: Sodium Dichloroisocyanurate...

OTHER INGREDIENTS:........ 51.79%

TOTAL..................................100.00%

Each tablet will produce a 937 ppm disinfectant solution when dissolved in one gallon of water.

Bru-Clean TbC is effective against the following micro-organisms on pre-cleaned, hard, nonporous, inanimate surfaces: Salmonella enterica, Staphylococcus aureus, Pseudomonas aeruginosa, Klebsiella pneumonaeiae, Staphylococcus epidermidis, Escherichia coli 0157:H7, Staphylococcus aureus – MRSA & GRSA, Poliovirus type 1, Herpes simplex virus type 1, Hepatitis A Virus, Human Immunodeficiency Virus type 1 (associated with AIDS), Canine parvovirus, Newcastle disease virus, Pseudorabies, Canine distemper virus, Feline calicivirus, Norovirus, Enterococcus faecalis, Vancomycin Resistant, Trichophyton mentagrophytes.

Bru-Clean TbC is designed to provide effective cleaning, deodorizing and disinfection in areas where it is of prime importance in controlling the hazard of cross contamination on treated pre-cleaned, hard, nonporous, inanimate surfaces.

Bru-Clean TbC is for use in:
- Hospitals, nursing homes, medical and dental offices and clinics, operating rooms, isolation wards, and medical research facilities.
- Veterinary clinics, animal life science laboratories, kennels, breeding and grooming establishments, pet animal quarters, zoos, pet shops, and other animal care facilities.

Bru-Clean TbC is a disinfectant and cleaner that disinfects, cleans and deodorizes pre-cleaned, hard, nonporous, inanimate surfaces. This pre-cleaning may be accomplished with any cleaner solution including Bru-Clean TbC.

Bru-Clean TbC provides effective cleaning strength that will not dull high gloss floor finishes with repeated use.

FIRST AID:
If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or when going for treatment. YOU MAY ALSO CONTACT 1-800-420-9236 FOR EMERGENCY MEDICAL TREATMENT INFORMATION.

NOT TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
Danger: Corrosive. Causes irreversible eye damage. Harmful if swallowed, inhaled or absorbed through skin. Do not get in eyes, on skin or clothing. Avoid breathing dust. Wear rubber gloves and safety glasses or face shield when making up solution. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms.

STORAGE AND DISPOSAL
Do not contaminate food or feed by storage or disposal.

PESTICIDE STORAGE: Keep this product dry in a tightly sealed container when not in use. Store in cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all material before discarding the container.

PESTICIDE DISPOSAL: Pesticide waste may be hazardous. Improper disposal of excess pesticide, spray mixture or rinseate is a violation of Federal law. If the waste cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest Regional Office for guidance.

CONTAINER HANDLING AND DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water and recap. Shake for 5–10 seconds. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Read entire label and use strictly in accordance with precautionary statements and directions.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.

This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

PREPARATION OF USE SOLUTION:
Add 1 Bru-Clean TbC tablet to 1 gallon of water (25°C/77°F) to obtain a concentration of 937 ppm (mg/Liter) of available chlorine. This solution should be freshly prepared. Use within one day. Keep in a properly labeled container to protect against contamination. Unused solution should be discarded.

Bru-Clean TbC is a Hospital Use Disinfectant at 1 tablet per gallon.

Disinfection/Virucidal Directions:
Apply use solution to pre-cleaned, hard, non-porous, inanimate surfaces with brush, spray device, sponge, cloth or mop to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove product by wiping with brush, sponge, or cloth. For sprayer applications use a coarse spray device. Spray 6–8 inches from surface, rub with brush, sponge, or cloth. Do not breathe spray mist.

Before using this product, food products and packaging materials must be removed from the room or carefully protected. After use, all surfaces in the area must be thoroughly rinsed with potable water. Prepare a fresh solution daily or when use dilution becomes diluted or soiled.

Kills HIV-1 on PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/Body FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES/OBJECTS SOILED WITH BLOOD/Body FLUIDS:
PERSONAL PROTECTION: Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks, or eye coverings.

CLEANING PROCEDURE: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of Bru-Clean TbC. This precleaning may be accomplished with any cleaning solution including Bru-Clean TbC.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

CONTACT TIME: Leave surfaces wet for 10 minutes.

ANIMAL PATHOGENS:
When used at one tablet per gallon of water, applied as outlined under Disinfection/Virucidal Directions, Bru-Clean TbC is effective against the following animal pathogens: Feline Calicivirus, Norovirus, Canine distemper virus, Infectious canine hepatitis, Teschen/Talfan disease, Avian influenza, Porcine parvovirus, Bubal Stomatovirus, (tenosynovitis), Actinobacillus pleuropneumoniae, Bordetella bronchiseptica (rhinitis), Brachyspira (Treponema/Serpuline) hydysenteriea (swine dysentery), Gympoburo disease, Streptococcus dysgalactiae, and Clostridium perfringes

USDA with a 10 minute contact time. For Transmissible gastroenteritis (TGE), Swine vesicular disease, African swine fever, Hog cholera/Classical swine fever, and Avipox (fowl pox), a 30 minute contact time is required. Re-apply product as necessary to ensure surface remains wet.

Note: The California DPR has not yet approved the use of Bru-Clean TbC against these animal pathogens.

WARNING: Do not use on food contact surfaces.
