DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. SoftSoak® Sanitizer can be used in both residential and public spas.

TREATING SPAS OR HOT TUBS:

Important – SoftSoak Sanitizer is incompatible with chlorinating and brominating chemical products.

Start Up with SoftSoak Sanitizer:

1. Remove chlorine or bromine source and disconnect feeder. Discontinue use of ionizers and electrochlorinators if present.
2. Drain existing water in spa.
3. Clean spa surface and filter.
4. Fill spa with water.
5. Have your Authorized Dealer of SoftSoak Sanitizer check your water for proper water balance.
6. After water has been balanced, add SoftSoak Sanitizer to give a concentration of 50 ppm (1 oz of product per 150 gallons of spa water). Circulate water 15 minutes, then check SoftSoak Sanitizer concentration with SoftSoak Test Strips and adjust if necessary.

Normal Spa Maintenance:

1. Every week, check SoftSoak Sanitizer concentration and pH. Adjust if necessary.
2. When the level of SoftSoak Sanitizer is 30 ppm or less, add enough SoftSoak Sanitizer to bring the level up to 50 ppm. The spa’s level of SoftSoak Sanitizer should never be allowed to drop below 30 ppm. To raise the SoftSoak Sanitizer level 10 ppm, add 0.2 oz per 150 gallons of spa water.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

WARNING: CAUSES SUBSTANTIAL BUT TEMPORARY EYE INJURY. HARMFUL IF SWALLOWED.

Do not get concentrate in eyes or on clothing. Avoid contact with skin. Avoid breathing vapor or mist. Wash thoroughly with soap and water after handling.
