PEEL HERE FOR ADDITIONAL INFORMATION AND DIRECTIONS FOR USE

PERSONAL PROTECTIVE EQUIPMENT USER SAFETY REQUIREMENTS

Mixers, loaders, applicators and other handlers must wear the following:

• Long-sleeved shirt
• Long pants
• Protective eyewear
• Protective mask
• Protective gloves

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions exist for wash, soak, disinfect and dry, and keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been dried or heavily contaminated with the product’s concentrate. Do not reuse.

USER SAFETY RECOMMENDATIONS

• Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• Users should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.
• Wash the outside of gloves before removing.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic invertebrates. Runoff treated with this product may be harmful to aquatic organisms. Treatment of aquatic weeds and algae can result in oxygen loss from decomposition of dead algae and weeds. This oxygen loss can cause fish and marine life to suffocate. To minimize this hazard, do not treat more than 1/5 of the water body to avoid depletion of oxygen due to decay vegetation. Wait at least 14 days between treatments. Treat again using the product’s recommended rate before applying to public waters to determine if a permit is required. Certain water conditions including low pH (≤ 6.5), low dissolved organic carbon (DOC) levels (3.0 mg/l or lower), and “soft” or “wet” waters (e.g. alkalinity less than 50 mg/l CaCO3). Increases the potential acidity to toxic levels for aquatic organisms. The application rates on this label are appropriate for water with alkalinity greater than 50 mg/l. Do not use these application rates for water with less than 10 ppm CaCO3 (e.g., soft or acid waters) because trout and other fish species may be regulated under such conditions.

Consult your local state fish and game agency before applying this product to public waters. Permits may be required before treating such waters.

For applications in waters destined for use as drinking water, those waters must receive additional and separate potable water treatment. Do not apply more than 1.0 ppm as metallic copper in these waters (background - applied copper).

WARNING

Causes substantial but temporary eye injury. Harmful if swallowed. Harmful if absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. Wear protective eyewear (goggles, face shield or safety glasses), long cleaned shirt, long pants, shoes, socks and chemical-resistant gloves made of any waterproof material. Some materials that are chemically-resistant to this product are polyvinyl chloride, polyethylene and vinyl. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

USAGE INFORMATION

Cleanwater Blue® is used to control algae and to suppress nonpathic health bacteria and bacteria that cause odor problems in residential spas and hot tubs.

Adapted to residential spas and hot tubs to prevent slime forming and algae growth. For use in swimming pools and spas. For pool water only.

READ BEFORE USING

WARNING • AVISO

If you do not understand this label, find someone to explain it to you in detail.

(Si usted no entiende esta etiqueta, busque a alguien para que le explique a usted detalladamente.)

FIRST AID

IF IN EYES: Hold open eye and rinse slowly and gently with water for 20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. Call a poison control center or doctor for treatment.

NOTE TO PHYSICIAN: Prolonged mucosal damage may cause the unabsorption of gastric fluid.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact your local poison control center: EPA (1-800-355-4988) or Contact your state pesticide or environmental control agency, or the hazardous waste disposal representative at the nearest EPA regional office for guidance.

IN CASE OF ACCIDENTAL CONTACT WITH THE EYES, FLUIDS, OR SKIN DISCONTINUE USE AND WASH WITH WATER AND SOAP IMMEDIATELY. IF YOU ARE NOT SURE WHETHER OR NOT A CHEMICAL IS A HAZARDOUS MATERIAL, CALL THE LOCAL HAZARDOUS WASTE DISPOSAL FACILITY OR YOUR STATE ENVIRONMENTAL CONTROL AGENCY TO DETERMINE THE NEED TO REPORT TO THE ENVIRONMENTAL PROTECTION AGENCY. IT IS YOUR DUTY TO REPORT ACCIDENTS TO THE ENVIRONMENTAL PROTECTION AGENCY.
