DIRECTIONS FOR USE

Please refer to the Supplemental Hang Tag for instructions for complete directions for use.

STORAGE & DISPOSAL

DO NOT CONTAMINATE WATER, FEED OR FEED STATION WITH DISINFECTANT.

STORAGE - Store in a cool, dry area inaccessible to children. Do not freeze or allow to exceed 100°F (38°C).

DISPOSAL - In the event of spill, elevate the container to prevent water entering. Clean container promptly after use. Nonrefillable container. Do not reuse or refill this container.

OTHER INGREDIENTS:

- Octyl decyl dimethyl ammonium chloride .......................................................................................................2.25%
- Didecyl dimethyl ammonium chloride ......................................................................................................1.35%
- Dioctyl dimethyl ammonium chloride .......................................................................................................0.90%

ACTIVE INGREDIENTS:

- Alkyl (C14, 50%; C12, 40%; C16, 10%) Dimethyl benzyl ammonium chloride .........................................3.00%

TOTAL:.................................................................................................................................................100.00%

KEEP OUT OF REACH OF CHILDREN

DANGER

See side panels for Precautionary Statements, Storage & Disposal and First Aid instructions.

Dosage: 1 U.S. gal./3.78 L

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WHEN PROPERLY STORED AND HANDLED, THIS PRODUCT IS NON-TOXIC. IT IS A DISINFECTANT WHICH KILLS PATHOGENICgerms, bacteria, viruses, fungi, and yeast, and prevents mold and mildew growth. It is not irritating to most surfaces, even plastic surfaces. This product does not kill all strains of microorganisms and does not provide sanitization. It does not provide a residual.
 virus.

**Quorum Clear V** is effective against: Avian Influenza Virus and Newcastle’s Disease of poultry. **Quorum Clear V** can be used to sanitize hard, non-porous food contact surfaces such as tables, counters, ovens, stoves and food-handling equipment. **Quorum Clear V** is non-corrosive to stainless steel, aluminum, copper, brass, steel or other metal surfaces. Some surfaces such as glass, china, cloth or other fabrics may be bleached, even with **Quorum Clear V** at high dilutions. **Quorum Clear V** is effective against Escherichia coli, Staphylococcus aureus, Listeria monocytogenes, Salmonella enterica, Shigella sonnei, Yersinia enterocolitica, and Staphylococcus aureus. The product is effective against Listeria monocytogenes, Salmonella enterica, Shigella sonnei, Yersinia enterocolitica, and Staphylococcus aureus. The product is effective against Listeria monocytogenes, Salmonella enterica, Shigella sonnei, Yersinia enterocolitica, and Staphylococcus aureus.
