• Kills on Contact
• Controls Mosquitoes That May Cause West Nile Virus
• Also Kills: Box Elder Bugs, Carpenter Ants, Centipedes, Cockroaches, Scorpions, Spiders & More

For Outdoor Household & Domestic Use Only

ACTIVE INGREDIENTS: Deltamethrin . . . . . . . . . . 1.00%
OTHER INGREDIENTS: . . . . . . 99.00%
TOTAL: . . . . . . . . . . . . . . 100.00%

KEEP OUT OF REACH OF CHILDREN
CAUTION
See back panel for additional precautions and first aid.
NET CONTENTS: 16 fl oz (473 mL)
To control ants, avoid contact of shoes and hose with treated area. For sod webworms, delay watering until five days after treatment. For sowbugs and ticks, spray when pests first appear. For mosquitoes, sod webworms, grasshoppers, crickets, cutworms, earwigs, fleas, and other insects, spray when pests are active and before they reproduce. When to spray: Spray grass starting at the edge of the lawn furthest from the faucet. Walk backwards away from spray mist toward faucet. This avoids contact of shoes and hose with treated area.

GENERAL INFORMATION: This product is designed for use in typical spray equipment, such as a hand pump-up sprayer, spray bottle or hose-end sprayer. HOSE-END SPRAYER USE DIRECTIONS: Mixing Instructions: Fill sprayer bottle halfway with water, then add 8 tablespoons of product to spray bottle. Add water to fill bottle. Shake well. Attach to your garden hose and follow these simple instructions.

1. Make sure the hose-end sprayer is firmly connected to the hose.
2. Make sure the sprayer is in the OFF position. Turn water supply on at the faucet. For best results, turn hose faucet to maximum. Water pressure will build in the hose.
3. To apply product, turn the control valve to the ON position. Water and product are mixed. Turn water supply off at the faucet. To relieve water pressure in hose, turn control valve to the ON position before removing from the spray equipment, such as a hand pump-up sprayer, spray bottle or hose-end sprayer.

LAWNS AND TURFGRASS (domestic lawns & recreational areas): To control ants, armyworms, centipedes, chiggers, chinch bugs, crickets, cutworms, earwigs, fleas, grasshoppers, mosquitoes, sod webworms, sowbugs and ticks, spray when pests first appear. For sod webworms, delay watering or mowing the treated area for 12 to 24 hours after treatment. Spray grass starting at the edge of the lawn furthest from the faucet. Walk backwards away from spray mist toward faucet. This avoids contact of shoes and hose with treated area.

Residual Spray: For long-lasting control of ants, cockroaches, fleas, flies and mosquitoes, mix 4.0 fl oz (8 tablespoons) of product with one gallon of water. Apply spray mixture to areas such as porches, patios, garage dumps, garages and cracks and crevices along walkways or other areas where insects may congregate or can gain entrance to the structure.

STORAGE & DISPOSAL: Storage: Store in a cool, dry area away from children. Container Disposal: If Empty: Do not reuse this container. Place in trash or offer for recycling if available. If Partly Filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

IMPORTANT: READ BEFORE USE By using this product, user or buyer accepts the following conditions, warranty, disclaimer of warranties and limitations of liability.

CONDITIONS: The directions for use of this product are believed to be adequate and should be followed carefully. However, because of extreme weather conditions and soil conditions, manner of use and other factors beyond Enforcer Products’s control, it is impossible for Enforcer Products to eliminate all risks associated with the use of this product. As a result, crop injury or
Enforcer® BugMax™
Insect Killer Concentrate

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ ENTIRE LABEL PRIOR TO USING THIS PRODUCT.

Care should be taken at all times to avoid contact with undiluted product. Wear long-sleeved shirt and long pants while applying this product through hose-end sprayer. Food utensils, such as spoons and measuring cups, must not be used for food purposes after use in measuring pesticides. Do not allow children or pets on treated areas until spray has dried.

Non-staining where water alone does not stain.

PRODUCT CODE: EBMIK16

Enforcer Products disclaims any liability whatsoever for incidental or consequential damages, including, but not limited to, liabilities arising out of breach of contract, express or implied warranty (including warranties of merchantability and fitness for a particular purpose), tort, negligence, strict liability or otherwise.

FIRST AID
If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER: Have the product container or label with you when calling a poison control center or doctor or going for treatment. In case of medical emergencies or health and safety inquiries, or in case of fire, leaking or damaged containers, information may be obtained by calling 1-877-541-2016.

PRECAUTIONARY STATEMENTS
Hazards To Humans & Domestic Animals
CAUTION
Harmful if inhaled. Avoid breathing vapor or spray mist. Avoid contact with skin or clothing. Contact with product may result in transient tingling and reddening of the skin which may persist for 24 hours. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove contaminated clothing and wash clothing before reuse.

Environmental Hazards
This product is extremely toxic to fresh water and estuarine fish and invertebrates. Do not apply directly to water. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops and weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

Physical Hazards
Do not use water-based sprays of product in conduits, motor housings, junction boxes, switch boxes or other electrical equipment because of possible shock hazard.
