RE: SLN Voluntary Cancellation
Arysta LifeScience /Everest 70% WDG Herbicide (a.i. flucarbazone-sodium)
EPA Reg. No. 66330-49, EPA SLN No. OR-050027
Site: Perennial Kentucky Bluegrass (establishment year) grown for seed

Oregon Special Local Need registration EPA SLN No. OR-050027, issued under FIFRA Section 24(c), has been cancelled by the registrant.

The federal registration of this SLN was cancelled by EPA on February 6, 2013 (78 FR 8513, FRL-9377-1), due to non-payment of maintenance fees. Unfortunately, the company neglected to notify us directly at the time of cancellation, such that we could formally process the state cancellation in a timely manner. Because of staff changes in the state registration teams of both Arysta and Oregon Department of Agriculture (ODA), it has only recently come to our attention that this SLN is no longer supported by federal registration.

Note: Arysta LifeScience has replaced this SLN with OR-110008 Everest 2.0 Herbicide.

A copy of Arysta LifeScience voluntary cancellation letter is enclosed for your information.

If you have any questions, please do not hesitate to contact me. Thank you.

Sincerely yours,

Ann P. Ketter MS MS
