DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read entire label before using this product. Use strictly in accordance with label precautionary statements and directions.

HOW TO USE THE READY-SPRAY® SYSTEM

Connect
1. Shake well before using.
2. Connect sprayer to hose.
3. Turn on water.

Spray
1. To begin spraying, point nozzle in the direction you want to spray.
2. Bend small yellow plastic tab on side of sprayer back and turn knob clockwise to ON position.
3. Spray evenly over measured area.

Finish
1. To stop spraying, bend small yellow plastic tab back and turn knob counter clockwise to OFF position.
2. Turn off water.
3. Relieve water pressure by bending plastic tab back and turning knob to ON position until water slows to a drip. Then, turn knob back to OFF position.
4. Disconnect sprayer from hose.

BEFORE YOU APPLY

• Do not mow for 1 to 2 days before or after application.
• If soil is dry, water before application.
• Measure lawn. Calculate square footage by multiplying length x width.
• Use the amount indicated for your lawn variety.

AMOUNT TO SPRAY

FOR NORTHERN LAWNS: 8 fl oz (1/4 bottle) treats 2,000 sq ft.
Fescues, Kentucky bluegrass, perennial ryegrass and zoysiasgras

FOR SOUTHERN LAWNS: 8 oz (1/4 bottle) treats 4,000 sq ft.
Bent, bahia and Bermuda- (DO NOT USE on St. Augustine or centipedes lawns)

WHEN TO APPLY

• Spray when weeds are actively growing.
• Spray when temperature is below 90° F.
• Spray when air is calm to avoid drift to vegetables, flowers, ornamental plants, trees, shrubs and other desirable plants.
• Do not apply to newly seeded grasses until well established (they have been mowed 3 times).

Rain-Proof™ rain- or watering 1 hour after application will not wash away effectiveness.
• Reseed no sooner than 3 weeks after application.

ENVIRONMENTAL HAZARDS

- Drift or runoff may adversely affect nontarget plants.
- Do not apply directly to water. When cleaning equipment, do not pour washwater on the ground; spray or drain over a large area away from wells and other water sources. Do not contaminate water when disposing of equipment washwaters.
- Do not apply this product through any type of irrigation system. Do not contaminate water used for irrigation or domestic purposes.
- Most cases of groundwater contamination involving phenoxy herbicides such as MCPA have been associated with mixing/loading and disposal sites. Caution should be exercised when handling these phenoxy pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing and transferring this pesticide will reduce the probability of spills.
- Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

NOTICE: Buyer assumes all risks of use, storage or handling of this product not in accordance with directions.
