PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER
COMMERCIAL USE: CAUSES INVISIBLE EYE DAMAGE. MAY BE FATAL IF INHALED, HARMFUL IF SWALLOWED OR ABSORBED THROUGH SKIN. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wear thoroughly with loose and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS
THIS PESTICIDE IS TOXIC TO FISH AND AQUATIC ORGANISMS. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not disperse effluent containing this product to sewer systems without prior notification to the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of EPA.

PHYSICAL OR CHEMICAL HAZARDS
STINGING OXIDIZING AGENT. Contact with water slowly liberates chlorine and hazardous chlorine-containing gases. Decomposes at temperatures above 64°F with liberation of harmful gases. When ignited, will burn with the evolution of chlorine and equal to toxic gases. NEVER add water to product. Always add product to large quantities of water. Use clean, dry utensils. DO NOT add this product to any dispensing devices containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Combustion with moisture, organic materials, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible fire and explosion.

IN CASE OF FIRE OR SMOKE: Call the fire department. Do not attempt to extinguish the fire without the use of a self-contained breathing apparatus (SCBA). Do not let the fire burn. Flood with copious amounts of water. DO NOT use AHC or other dry chemical extinguishers since there is the potential of a violent reaction.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling. The following contains 56% available chlorine. Kits algae, fast dissolving, stabilized chlorinating granules. When starting up a new spa or hot tub, superchlorinate to satisfy chlorine demand and to establish a distribute free chlorine residual of 1.0 to 2.0 ppm available chlorine. To accomplish this, add 1 oz. of this product every 500 gallons of spa or hot tub water. This product should be added daily as needed at the rate of 1/4 to 1/2 oz. per 500 gallons of spa or hot tub water to maintain chlorine residual at all times. If desired, the pH should be maintained between 7.2 and 7.8.

A shock treatment should be made every week. For the shock treatment, add 1 oz. of this product per 500 gallons of spa or hot tub water. Adders should not be permitted in the spa or hot tub after the shock treatment until the chlorine residual has reached 1.0 to 2.0 ppm. Regent into treated spa or hot tub is prohibited above levels of 3.0 ppm of chlorine. Spa and hot tub water should be changed every 60 days.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Keep this product dry in a tightly sealed container when not in use. Store in a cool, dry, well-ventilated area away from heat or an open flame. In case of decomposition, isolation container (if possible) and flood area with large amounts of water to dissolve all material before discarding the container.

Pesticide Disposal: Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. Triplasm (or equivalent) promptly after emptying.
