This product contains geol base of active ingredient per gallon and weighs 0.08 lbs. per gallon.

NET CONTENTS: 1 5 20 35 55 Gallons

This algaecide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into streams, ponds, lakes, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority. Do not discharge effluent containing this product to water systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

For information on product, usage, etc., call 1-800-766-7102.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into streams, ponds, lakes, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority. Have the product container or label with you when calling a poison control center or doctor. For treatment of a freshly cleaned and filled pool, hot tub or decorative fountain, add initially 4 to 8 ounces per 1,000 gallons of water. Subsequent additions of 1 to 3 fluid ounces should be made every 5 to 7 days after initial treatment for maintenance.

Storage and Disposal
Do not mix with concentrated or liquid chlorine products.

This algaecide is compatible with chemicals normally used to treat pools, spas and decorative fountains, and is effective at both acid and alkaline pH. It can be used in pools, spas and decorative fountains treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix with concentrated dry or liquid chlorine products.
