It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. TO CLEAN TOILET BOWLS AND URINALS: Pour 1 oz. of bowl cleaner on applicator. Clean entire unit, especially under rim at water outlets. TO DISINFECT TOILET BOWLS AND URINALS: A preliminary cleaning is required for the removal of gross filth prior to disinfection. Remove water from bowl by forcing over tap with applicator. Remove excess water from applicator by pressing it against the side of bowl or urinal. Holding applicator over bowl or urinal, pour 1 oz. of toilet bowl cleaner on applicator. Clean entire unit, especially under rim at water outlets. Allow to remain 10 minutes. Flush and rinse out applicator. *KILLS HIV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings (Hospitals, Nursing Homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids, and in which the surfaces/objects likely to be soiled with blood/body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS). SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV OF SURFACES/OBJECTS SOILED WITH BLOOD/ BODY FLUIDS: Personal Protection: Disposable latex gloves, gowns, masks, and splash resistant goggles must be worn when handling items soiled with blood or body fluids. Cleaning Procedures: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant. Contact Time: Leave surface suit for 10 minutes. Disposal of Infectious Materials: Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.
