**MINERALIX FLY TUB WITH IGR**

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION:** This product contains high levels of copper. Consumption of this product by sheep or goats may result in copper toxicity.

**ENVIRONMENTAL HAZARDS**

Do not apply directly to water, or to areas where surface water is present or historical areas below the mean-high-water mark.

**DIRECTIONS FOR USE**

If a violation of federal law to use this product in a manner inconsistent with its labeling.

**FEEDING AND MANAGEMENT INSTRUCTIONS:**

When used as directed, MINERALIX FLY Tub with IGR will provide sufficient (S)-ethemperate insect growth regulator to control the emergence of adult horn flies from manure of treated cattle. Existing adult horn flies will not be affected. Start feeding before horn fly season begins and continue for at least 8 weeks. Remove copper sulfate to encourage integrated control of fly populations. A 1% copper sulfate solution (0.1% copper) should be made daily for a total of 4 ounces per 100 pounds of feed. Reduce the number of feeding locations and change locations, especially as the season progresses.

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Store in a cool, dry place.

**PESTICIDE DISPOSAL:** Wastewater from the use of this product may be disposed of on-site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Nonreturnable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then treat waste from the mixing, application, or disposal of a pesticide and any rinse water, wash water, or Agricultural Equipment used as specified in or pursuant to all federal, state, and local laws and regulations.
