DIRECTIONS FOR USE CONTINUED

SANITIZATION OF NONPOISONOUS FOOD CONTACT SURFACES

RINSE METHOD - A solution of 100 ppm available chlorine may be used in the sanitizing solution if a chlorine test kit is available. Solutions containing an initial concentration of 100 ppm available chlorine must be tested and adjusted periodically to insure that the available chlorine does not drop below 50 ppm. Prepare a 100 ppm sanitizing solution by thoroughly mixing 1 oz. of this product with 10 gallons of water. If no test kit is available, prepare a sanitizing solution by thoroughly mixing 2 oz. of this product with 10 gallons of water to provide approximately 200 ppm available chlorine by weight. Clean equipment surfaces in the normal manner. Prior to use, rinse all surfaces with a 200 ppm available chlorine solution, then give artificial respiration, preferably by mouth-to-mouth. If possible, call a post control center or doctor for further treatment advice. Have the product container or label with you when calling a post control center or doctor. NOTE TO PHYSICIAN: Probable mucosal damage may be indicated by the use of gastric lavage.

STORAGE AND DISPOSAL: PESTICIDE STORAGE: Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration. Do not store on concrete, asphalt or other surfaces that may be affected by gaseous irritating to eyes, lungs, and mucous membranes. STORE AND DISPOSAL: PESTICIDE STORAGE: Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration. Do not store on concrete, asphalt or other surfaces that may be affected by gaseous irritating to eyes, lungs, and mucous membranes.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. May cause severe skin irritation or chemical burns to broken skin. Causes eye damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until your hands have dried.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not apply directly to water or to areas that may be directly washed into streams, rivers, lakes, ponds, oceans, or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit. Use of this product on aquatic plants or vegetation that have been notified in writing prior to discharge. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, beaches, or marine areas. Do not contaminate waterways by improper disposal, drainage areas, away from direct sunlight and heat to avoid deterioration. Do not store on concrete, asphalt or other surfaces that may be affected by gaseous irritating to eyes, lungs, and mucous membranes.

PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT. Mix only with water according to label directions. Mixing this product with gross flammable such as fuels, oils, or with an inordinately high concentration of water may release hazardous gasses irritating to eyes, lungs, and mucous membranes.

SAFETY PRECAUTIONS:

STORAGE AND DISPOSAL: PESTICIDE STORAGE: Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration. Do not store on concrete, asphalt or other surfaces that may be affected by gaseous irritating to eyes, lungs, and mucous membranes.

SAFETY PRECAUTIONS:

FIRST AID: IF ON SKIN OR CLOTHING: take off contaminated clothing; rinse skin immediately with plenty of water for 15-20 minutes; call a poison control center or doctor for treatment advice. IF IN EYES: hold eye open and rinse slowly and gently with water for at least 15 minutes; seek medical advice. IF INCREASED RESPIRATION: allow air to flow freely. IF INHALED: move person to fresh air; if not breathing, call 911 or an ambulance, and give artificial respiration, preferably by mouth-to-mouth. If possible, call a post control center or doctor for further treatment advice. Have the product container or label with you when calling a post control center or doctor. NOTE TO PHYSICIAN: Probable mucosal damage may be indicated by the use of gastric lavage.
