**PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:**

**DANGER:** Corrosive. Causes irreversible eye damage. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Harmful if inhaled. Avoid breathing vapor or spray mist. Prolonged or frequently repeated skin contact may cause an allergic reaction in some individuals. Wear goggles or face shield, long-sleeved shirt and pants, shoes and socks, and chemical-resistant gloves made of any waterproof materials.

**USER SAFETY REQUIREMENTS:**

User should wear suitable water-resistant clothing, head covering, chemical protective goggles, dust mask, and gloves while handling this product. When removing protective clothing and gear, wash immediately after removing it to avoid contamination of clothing and gear. Clean and store protective clothing in a separate room. Use only in well-ventilated areas.

**USER SAFETY RECOMMENDATIONS:**

User should remove PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. User should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. If pesticide gets on clothing or skin, wash thoroughly and change clothing immediately.

**ENVIRONMENTAL HAZARDS:**

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**PHYSICAL AND CHEMICAL HAZARDS:** Do not apply this product in a way that will contact workers or other persons.

**STORAGE AND DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal.

**PESTICIDE STORAGE:** Protect from frost. If frozen, allow to thaw and stir well before use.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA District Office. Empty remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete resolution, for 30 seconds. Store the container on its end and allow to dry out, and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

**CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. Tripel rinses container promptly after emptying. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

**FIRST AID:**

If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a Poison Control Center or doctor for treatment advice. If Ingested: Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person. If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. If on Skin or Clothing: Rinse skin immediately with plenty of water for 20 minutes. Call a Poison Control Center or doctor for further treatment advice. If Inhaled: Call a Poison Control Center or doctor for treatment advice.

**KEEP OUT OF REACH OF CHILDREN**

**For Industrial Use Only As A Preservative For Aqueous Compositions**

**Active Ingredients:**

1.2-benzisothiazolin-3-one .................. 13.5%
2-bromo-2-nitro-1,3-propanediol ................ 6.5%
Other Ingredients ............. 80.0%

**Total .................. 100.0%**

**DIRECTIONS FOR USE:** It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This product is an effective preservative in most aqueous compositions. Typical applications, and the suggested range of concentrations on which trials can be based are:

- Latices: Natural and synthetic latexes (and the processing water used to make these products) based on acrylic, butadine, PVA, styrene and other monomers, for use in various applications, e.g., wax, paint, floor polishes, synthetic rubber latexes. Emulsion paints and stains (and the processing water used to make these products), aqueous finishes, pigments and water-based biocides, add 0.05 – 0.35 gals (0.36 – 0.57 L) of this product per 1000 gallons of preserved product (based on total weight of product).

To preserve adhesives, paper coating compositions such as starch, latex and extending slurries such as kaolin, calcium carbonate and titanium dioxide preparations, and the processing water used to make these products, add 0.5 – 1.5 gals (1.89 – 5.68 L) of this product per 1000 gallons of preserved product (0.50 – 1.51%)

To preserve Pesticide Formulations add 0.5 – 0.8 gals of this product per 1000 gallons of preserved product (0.05 – 0.08%). This product is exempt from tolerance under 40CFR180.910 and 40CFR180.920, materials exempt from the requirements of a tolerance when used in accordance with good agricultural practice as inert (or occasionally active) ingredients in pesticide formulations applied to growing crops only. Based on the current 40CFR180.910 and 40CFR180.920 limits of 0.04% boric acid and 0.1 Bleach in formulations, use levels of up to 0.5% (5000 ppm) of this product are allowed.

For In-can preservation of household, consumer, industrial, institutional and janitorial products, add 0.05 – 0.35 gals of this product per gallon of preserved product. Example applications of these products include air fresheners, laundry products, scans and other precoats, fabric softeners, pre-spotters, spray starch, non-food contact all purpose cleaners, floor cleaners, carpet and fabric care products and automotive care products.

This product may be used to preserve liquid and solid formulations of these products or it may be used to preserve formulations offered as semi-solid gels, pastes, or waxes, or as pre-moistened wipes, mops or sponges. For in-can preservation of aqueous ready-to-use household, consumer, industrial, institutional and janitorial products listed above, add 0.05 – 0.35 gals of this product per gallon of preserved product to be preserved (0.05 – 0.35%).

**MANUFACTURED FOR:**

1200 Bluegrass Lakes Parkway
Alpharetta, GA 30004

**FOR IN CAN USE ONLY**

**MANUFACTURED BY:**

PROXEL® is a registered trademark of Arch UK Biocides, Ltd.

**EPA Reg. No. 1258-1290**

**EPA Est. No. 1258-NY-3**

Net Weight: 440 lbs

**PROXEL® BN PRESERVATIVE**

**Active Ingredients:**
