Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

IF SWALLOWED: Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Have person sip a glass of water if able to remove contaminated clothing. Rinse skin immediately with plenty of water.

Note to Preparers: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DANGERS: Dangers or hazards are inconsistent with its labeling.

DIRECTIONS FOR USE: This product is for spa/hot tub sanitizing. It is easily adapted to many erosion feeders used to automatically treat both commercial and residential spas and hot tubs. When used as directed, Brilliance for spas bromo tabs will disinfect spa and hot tub water, keeping it clean, clear and free of odor. Brilliance for spas bromo tabs give the disinfection of chlorine without the chlorine odor. Proper hardware installations require changing spa water at a calculated frequency to prevent the formation of bacteria, algae and other debris. High bather use and other factors may require a higher dosage. This product is not a form of brominating hydantoin for spas and hot tubs. It is easily adapted to many erosion feeders used to automatically treat both commercial and residential spas and hot tubs. When used as directed, Brilliance for spas bromo tabs will disinfect spa and hot tub water, keeping it clean, clear and free of odor.
