(ECL 1001)

(A.T.C.C. 29544)

FOR MECHANICAL OPERATIONS, prepared use-solutions may not be reused for sanitizing.

DIVOSAN® PLUS may be used as a final sanitizing rinse for plastic, glass or metal returnable and non-returnable bottles/cans.

Sanitizing Hard, Non-Porous Food Contact Surfaces and Equipment

1. Remove remaining eggs and chicks, poultry and feeds from premises, trucks, coops and crates.

2. Remove all litter and droppings from floors, walls and surfaces and other environmental surfaces. For smaller surfaces, use a trigger spray bottle to spray all environmental surfaces. For larger surfaces, scrub environmental surfaces with detergent or cleaning solution and follow with a potable water rinse.

3. Allow containers to drain thoroughly, and then rinse with sterile or potable waters.

4. Wipe surfaces and let air dry.

5. Thoroughly scrub feed racks, troughs, automatic feeders, fountains, and waterers with quality water, until the residual peroxyacetic acid is below 3 ppm.

6. Before starting the treatment ensure that the work area is well ventilated. Do not house hanging eggs, young stock, or re-employ equipment until product has dried.

7. Thoroughly clean the room during fogging unless wearing appropriate eye, skin and respiratory protection.

8. For disinfection of feed racks, troughs, automatic feeders, fountains and watering equipment, inject product into the final rinse water. Allow the solution to remain in contact with the feeders for a period of 2 hours after fogging. Ensure there is no strong odor characteristic of acetic acid present in the building.

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

This product is highly toxic to domestic animals. Do not apply this product to animal housing areas. Do not contaminate water, food, feeds, or feedstuffs during handling and application. Keep out of the reach of children.

Physical and Chemical Hazards

The product is a liquid. The product is not combustible; however, it may cause severe burns when in contact with skin or fabric. The use of proper PPE is mandatory. Protective clothing must be worn when applying this product.

ENVIRONMENTAL CONCERNS

In the event of a spill, shut off sources of ignition. In the event of a spill, shut off sources of ignition. Do not use flammables in the area.

PESTICIDE DISPOSAL

Follow all applicable federal, state and local laws and regulations. This material is hazardous to the environment and should not be disposed of in drains or sewers. This material can be disposed of in landfills or return to a vendor for proper waste disposal. Do not dispose of in surface waters.

Note to professional

Preparation of solutions and application equipment must be handled carefully to avoid exposure to high concentrations of peroxyacetic acid.
