PREMISE INSECTICIDE
(For Agricultural Use Only)
A controlled release premise insecticide for use in and around livestock/poultry housing, pet kennels, rabbit, and litter boxes.
Active ingredient
Gamma-cyhalothrin;
Cyclopropenecarbonyl acid, 3-(2-chloro-3,3,3-trifluoro-1-propenyl)-2,2-dimethyl,
cyano(3-phenoxyphenyl)methyl ether
OTHER INGREDIENTS: 1.0%
TOTAL: 0.5%
Contains petrodatum
Contains petrolatum

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND
DOMESTIC ANIMALS
CAUTION
Causes moderate eye irritation. Harmful if swallowed. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse. Wear safety glasses or goggles, long-sleeved shirt, long pants, shoes and socks, and chemical resistant gloves. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals.
Skin exposure may also result in a sensation described as a tingling, itching, burning or prickly feeling. Onset may occur immediately to 4 hours after exposure and may last 2 to 30 hours, without damage. Wash exposed areas thoroughly with soap and water. Relief from skin sensation may be obtained by applying an oil-based cream.

ENVIROMENTAL HAZARDS
This pesticide is extremely toxic to fish and aquatic organisms, and toxic to wildlife. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Reseeding application equipment over the treated area will help avoid run off to water bodies or drainage systems. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area. Apply this product only as specified on the label.

PHYSICAL AND CHEMICAL HAZARDS
Do not use or store near heat or an open flame. Notice: Shake well before use. Avoid freezing. Keep container closed. Follow directions for use. Before using this product, read Warranty Disclaimer, Inherent Risks of Use, and Limitation of Remedies at the end of the label booklet. If terms are unacceptable, return at once unopened.

FIRST AID
If swallowed: Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unresponsive person.
If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after five minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Note to Physician: Induced vomiting as a first aid for this product may result in increased risk of chemical pneumonitis or pulmonary edema caused by aspiration of the hydrocarbon solvent. Vomiting should only be induced under professional supervision.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-426-4441 for emergency medical treatment information.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal. Notice: Shale well before use. Avoid feathering.

Pesticide: Store in original container, tightly closed, in a secure place.

Storage: Keep out of the reach of children and domestic animals. In case of leak or spill, contain material and stop origin of waste.

Container: Nonrefillable container. Do not reuse or refill this container.

Disposal: Offer for recycling, if available. Clean container promptly after emptying. Triple rinse container as follows: Empty remaining contents into application equipment or a mix tank drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour residue into application equipment or mix tank or store residue for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Wastes resulting from the use of this product must be disposed of at an approved waste disposal facility. Triple rinse empty container. Then dispose of empty plastic container in a sanitary landfill, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

INTEGRATED PEST AND RESISTANCE MANAGEMENT
Flies, beetles, and other insects have demonstrated the ability to develop resistance to insect control products. Continuous exposure of flies and other insects to a single class of insecticide may lead to the development of resistance to that class of insecticide. The following resistance management strategy will help ensure the prolonged usefulness of STANDGUARD insecticide, as well as other conventional insecticides.

- Apply STANDGUARD insecticide and other insect control agents only according to label directions.
- Do not use less than the labeled rate of any insect control product.
- Include multiple control tactics (cultural and/or biological controls) within an Integrated Pest Management Program.
- Rotate STANDGUARD insecticide with other classes of insecticide (carbamates, phenyl pyrazoles, chloronicotinyls, and organophosphates, etc.) during an insect pest season.

For advice concerning integrated pest management practices in relation to local conditions, consult resources in resistance management programs. Your Cooperative Agricultural Extension Service or your Elanco Animal Health representative (1-800-426-4441).
BARRIER TREATMENTS; also see OUTDOOR SURFACE USE.

3. SPIDERS AND CRICKETS: Apply as a coarse, low pressure spray to areas where these pests hide such as corners, storage areas, around water pipes, doors and windows, attics and eaves and baseboards. Pay particular attention to cracks and crevices; also see OUTDOOR SURFACE USE.

4. SOWBUGS AND PILLBUGS: Apply around doors and windows and other places where these pests may be found or where they may enter the premises. Treat storage areas and other locations. Apply barrier treatments to prevent infestations as directed in BARRIER TREATMENTS; also see OUTDOOR SURFACE USE.

5. LITTER BEETLES (Darting, Hide and Carrion Beetles) in Animal Housing (such as Poultry Housing): To control adult litter beetles, apply STANDGUARD insecticide to walls and floors at each grow-out or sanitation procedure, before reintroduction of poultry or other animals. This will suppress beetles that escaped earlier treatment and will also help to delay the onset of further infestations. Pay attention to areas where beetles frequently occur, such as walls, surfaces, stalls and around feeders; also see LIVESTOCK/Poultry HOUSE STRUCTURES.

INHERENT RISKS OF USE

It is impossible to eliminate all risks associated with the use of this product. Lack of performance or other unintended consequences may result because of such factors as use, climate, weather conditions, performance of other materials, the manner of application, or other factors which are beyond the control of Elanco Animal Health or the seller. All such risks are assumed by the buyer.

LIMITATION OF REMEDIES

The exclusive remedy for losses or damages resulting from this product (including claims based on contract, negligence, strict liability, or other legal theories), shall be limited to, at Elanco Animal Health's election, one of the following:
1. Refund of purchase price paid by buyer or user for product bought.
2. Replacement of product used

Elanco Animal Health shall not be liable for losses or damages resulting from the handling or use of this product unless Elanco Animal Health is promptly notified of such loss or damage in writing. To the extent permitted by law, Elanco Animal Health shall not be liable for consequential or incidental damages or losses.

The terms of the Warranty Disclaimer and this Limitation of Remedies cannot be varied by any written or verbal statements or agreements. No employee or sales agent of Elanco Animal Health or the seller is authorized to vary or exceed the terms of Warranty Disclaimer or Limitation of Remedies in any manner.

TERMS AND CONDITIONS OF USE

If terms of the Warranty Disclaimer, Inherent Risks of Use, and Limitation of Remedies are not accepted, return unopened package at once to the seller for a full refund of purchase price paid. Otherwise, use by the buyer or any other user constitutes acceptance of the terms under Warranty Disclaimer, Inherent Risks of Use and Limitations of Remedies.

WARRANTY DISCLAIMER

Elanco warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the inherent risks previously stated. Elanco MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR Any OTHER EXPRESS OR IMPLIED WARRANTY.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to fish and aquatic organisms, and toxic to wildlife. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment after the treated area will help avoid run off to water bodies or drainage systems. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area. Apply this product only as specified on the label.

PHYSICAL AND CHEMICAL HAZARDS

Do not use or store near heat or an open flame. Shake well before use. Avoid breathing. Read entire label. Use only according to label directions. Before using this product, read the Warranty Disclaimer, Inherent Risks of Use, and Limitation of Remedies at the end of the label. If terms of warranty are unacceptable, return at once unopened.
