• One dose lasts up to 2 weeks

• Sanitizes pool water

Active Ingredient:
Trichloro-s-Triazinetrione .......... 99%
Inert Ingredients .................. 1%
Total .................................. 100%

Available Chlorine ............... 90%

KEEP OUT OF REACH OF CHILDREN

DANGER: Contamination or improper use may cause fire or explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not mix this product with a small amount of water. Only add directly to your pool.

Do not remove floater or other dispensing device from water for more than five minutes if it contains a tablet or tablet residue. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Irritating to nose and throat. Harmful if swallowed.

Read all precautionary statements on back label and first aid statements before use.

Net Wt. 3.5 lbs.
Contents: 2 Tablets
DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is designed to dissolve slowly providing a steady source of available chlorine in swimming pools to control the growth of algae, kill bacteria and destroy organic contaminants.

READ THE PRECAUTIONARY STATEMENTS BEFORE USE.

One tablet will provide an effective chlorine residual of 1-3 parts per million (ppm) in 20,000 gallons of pool water for up to 2 weeks under normal use conditions. Use only in feeders made specifically for this size tablet. DO NOT allow this product to get damp or wet before use. DO NOT allow this product to contact other water treatment products.

1. Adjust pH to the ideal range of 7.2 - 7.6
2. Bring chlorine residual to 1 - 3 ppm using appropriate chlorine shock product. Follow label instructions.
3. Stabilize the pool with cyanuric acid. Follow label instructions.
4. Ensure that the feeder is free of any other chemicals, tablets or residue prior to use. DO NOT use in floaters or feeders that have been used with other dry chlorinating products. Place this product in the feeder. If placed in skimmer, run the pump a minimum of eight hours daily. Make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in the skimmer. This product is not recommended for use in vinyl lined pools without an automatic timer on the pool pump. Pump should run a minimum of 8 hours per day, otherwise vinyl liner damage may occur. If chlorine residual goes above 3 ppm, reduce feeder flow rate or daily pump operation time. If chlorine residual goes below 1 ppm, increase feeder flow rate or daily pump operation time. Shock treat weekly or every other week with appropriate shock treatment. Follow label directions. DO NOT reenter pool until chlorine residual is 1 - 3 ppm.
   • DO NOT use with any other tablets or sticks in the same skimmer, floater or feeder.
   • DO NOT permit tablets to contact plastic pool linings or metal objects.
   • DO NOT throw tablets directly into pool.

Take a pool water sample to your authorized Pool Breeze® dealer regularly for a detailed water analysis.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Irritating to nose and...
throat. Harmful if swallowed.
- Open in a well ventilated area. DO NOT breathe dust or fumes.
- DO NOT get in eyes, on skin, or on clothing.
- Wear goggles and rubber gloves when handling this product. For additional protection of skin, wear long sleeves and long pants.
- Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS:
DANGER. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. DO NOT add water to this product. Add only into water.
- DO NOT allow to become wet or damp before use.
- DO NOT remove floater or other dispensing device from water for more than five minutes if it contains a tablet or tablet residue.

Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.
- Keep all foreign matter, including other water treatment products, away from this product.
- DO NOT use this product in a floater or feeder that has been used with any other product.
- DO NOT allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely free of residue from other water treatment products before putting this product in the skimmer.

Strong oxidizing agent. This product can increase fire intensity.
- Keep away from heat and from flame and burning material (like a lighted cigarette).

STORAGE AND DISPOSAL:
Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. DO NOT reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. DO NOT contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING".

EMERGENCY HANDLING: In case of contamination or decomposition, DO NOT reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

For information on spills, call 1-800-654-6911.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.
