HEAVY WEIGHT INDOOR FOGGER

For use in Rooms, Apartments, Homes, Arcades, Business, Campers, Boats, Household Storage Areas, Garages, Pet Sleeping Areas, and Cabins.

INSTRUCTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.

1. Remove pets and birds and cover fish aquariums before spraying.

2. SHAKE WELL BEFORE USE:
   - This product will kill ants, cockroaches, centipedes, earwigs, fleas, houseflies, mosquitos, rats, weevils, saw-toothed grain beetles, small flying moths, sow bugs, spiders (excluding black widow), and brown dog ticks.
   - DO NOT use more than one fogger per room. DO NOT use in small, enclosed spaces such as showers, cabinets or under countertops or toilets. DO NOT use in a room 5 ft. x 5 ft. or smaller, instead, allow fog to enter from other rooms.
   - Turn off all ignition sources such as pilot lights (except gas valves), other open flames or running electrical appliances that could ignite and/or ion (i.e., refrigerators, thermostats, etc.).
   - Call your gas utility or management company if you need assistance with your pilot lights.

3. KEEP CONTAINER UPRIGHT:
   - Cover exposed food, dishes and food handling equipment. Open cabinets and doors to areas to be treated. Shut off fans and air conditioners. Close doors and windows. Pilot valve opening away from face.
   - If lock valve is in open position for automatic discharge, press valve button at the way down, hooking the catch. Then place fogger on stand or table in the center of the room. Pilot valve opening away from face.
   - To lock valve in open position for automatic discharge, press valve button at the way down, hooking the catch. Then place fogger on stand or table in the center of the room with valve locked open. Leave building at once and keep building closed for two hours before going in. Open all doors and windows and allow to sit for 30 minutes. Repeat spraying if necessary, but no sooner than within 2 weeks.

4. To Kill Brown Dog Ticks and Fleas:
   - Discourage pet feeding and replace with clean, fresh bedding after treatment is completed. Use product as above. Pets should be treated with a registered flea and tick control product prior to returning treated premises.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a cool, dry place. Keep container closed.

DISPOSAL: Do not pack or incinerate if Empty. Place in trash or other for recycling if available.

PELLETIZED:

Consult your local solid waste agency for disposal instructions.

FIRST AID:

If swallowed:
   - Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If in Eyes or on Skin:
   - Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove and wash contaminated clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS:

HEAVY WEIGHT INDOOR FOGGER

For Use in Rooms, Apartments, Homes, Attics, Basements, Campers, Boats, Household Storage Areas, Garages, Pet Sleeping Areas, and Cabins.

This product will kill ants, cockroaches, confused flour beetles, crickets, fleas, houseflies, mosquitoes, rice weevils, saw-toothed grain beetles, small flying moths, sow bugs, spiders (including black widow), and brown dog ticks.

DIRECTIONS FOR USE:

- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
- In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.
- Remove pets and birds and cover fish aquariums before spraying.

SHAKE WELL BEFORE USE

This product will kill ants, cockroaches, confused flour beetles, crickets, fleas, houseflies, mosquitoes, rice weevils, saw-toothed grain beetles, small flying moths, sow bugs, spiders (including black widow), and brown dog ticks.

DO NOT use more than one fogger per room. DO NOT use in small, enclosed spaces such as closets, cabinets or under counters or tables. DO NOT use in a room 6 ft. x 6 ft. or smaller; instead, allow fog to enter from other rooms. Turn off ALL ignition sources such as pilot lights (shut off gas valves), other open flames or running electrical appliances that cycle off and on (i.e., refrigerators, thermostats, etc.) Call your gas utility or maintenance company if you need assistance with your pilot lights.

KEEP CONTAINER UPRIGHT

Cover exposed food, dishes and food handling equipment. Open cabinets and doors to areas to be treated. Shut off fans and air conditioners. Close doors and windows. Point valve opening away from face when releasing. Use one unit for each 6,000 cubic feet of unobstructed area. Do not remain in the area during treatment and ventilate thoroughly before re-entry.

TO OPERATE VALVE:

Place several layers of newspaper or pad on stand or on table in the center of the room. Point valve opening away from face. To lock valve in open position for automatic discharge, press valve button all the way down, hooking the catch. Then place fogger on stand or table in the center of the room with valve locked open. Leave building at once and keep building closed for two hours before airing out. Open all doors and windows and allow to air for 20 minutes. Repeat spraying if necessary, but no sooner than within 2 weeks.

Kills: Ants, Cockroaches, Fleas, Spiders, Mosquitoes, Houseflies & Others Listed

For Use in Rooms, Apartments, Homes, Attics, Basements, Campers, Boats, Household Storage Areas, Garages, Pet Sleeping Areas, and Cabins.

To Kill Brown Dog Ticks and Fleas:

Destroy pets’ old bedding and replace with clean, fresh bedding after treatment is completed. Use product as above. Pets should be treated with a registered flea and tick control product prior to restarting treated premises.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool, dry place. Keep container closed.

DISPOSAL: Do Not Puncture or Incinerate!

If Empty: Place in trash or offer for recycling if available.

FIRST AID: If Swallowed: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-740-9712.
