PRECAUTIONARY STATEMENTS

1. Adjust the pool water pH value to between 7.2 to 7.8. Do not allow the pH to go above 7.8 or below 7.2.

2. Stabilize pool water to at least 30 ppm with Quantum® Stabilizer®. This product is a makeup stabilizer.

3. Once you complete 1, 2 and 3 above, use this product to maintain the free residual chlorine at a safe and efficient 1.0 – 1.5 ppm at all times.

4. Using a feeder, floater or skimmer dispenser, immerse one tablet (or as many as required to continuously maintain) a swimming pool sanitizing agent. This product is a stabilizing concentrate.

5. Using a feeder, floater or skimmer dispenser, immerse one tablet (or as many as required to continuously maintain) a swimming pool sanitizing agent. This product is a stabilizing concentrate.

6. Superchlorinate or shock treat your pool water to remove any trace of bacteria, algae and deodorize. This product is a stabilizing concentrate.

7. Keep this product dry in its tightly closed container. Do not contaminate food or feed by storage or refill this container. Rinse empty container and the permitting authority has been notified in writing prior to discharge. Do not discharge this product into lakes, ponds, streams, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit. Store in a cool, dry, well ventilated area away from heat and all other water treatment products. If used in a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products. This product can be used with any chlorination system and can be purchased from any authorized distributor in the same manner as the Quantum® Multi 3® or Quantum® Multi 4®. This product can be used with any chlorination system and can be purchased from any authorized distributor in the same manner as the Quantum® Multi 3® or Quantum® Multi 4®.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

IF SWALLOWED:
• Do not give anything by mouth to an unconscious person.
• Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
• Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give artificial respiration, preferably mouth to mouth, if the unconscious person is breathing. If the person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, at a rate of 10 to 12 breaths per minute. If the unconscious person is breathing and not vomiting, call an ambulance. Use the same procedure for both adults and children. The unconscious person should be taken to a hospital immediately for treatment. Handle with care. If you get eye contact, flush eyes immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice. Have the following information ready: Product name, amount used, time of contact, and any symptoms or effects seen.

IF INHALED:
• Get the person into fresh air immediately. If you cannot get the person into fresh air, call 911 or an ambulance. If the unconscious person is breathing, call a poison control center or doctor for further treatment advice. Have the following information ready: Product name, amount used, time of contact, and any symptoms or effects seen.

IF ON SKIN OR CLOTHING:
• Remove contaminated clothing and wash exposed clothing before reuse.

IF IN EYES:
• Hold eye open and rinse slowly under running water for 15-20 minutes. Call a poison control center or doctor for further treatment advice. Have the following information ready: Product name, amount used, time of contact, and any symptoms or effects seen.

ENVIRONMENTAL HAZARDS:
• Keep away from heat and from flame and burning material (like a lighted cigarette).
• Avoid spilling this product.
• Strong oxidizing agent. This product can produce heat and toxic gas and spatter. Do not mix this product with a small amount of water. Only add this product directly to your pool. It is a violation of Federal law to use this product to treat waste water for disposal. Do not use this product with a small amount of water. Only add this product directly to your pool. It is a violation of Federal law to use this product to treat waste water for disposal.

STORAGE & DISPOSAL:
• Store in a cool, dry, well ventilated area away from heat and from flame and burning material (like a lighted cigarette).
• Avoid spilling this product.

It is a violation of Federal law to use this product to treat waste water for disposal.
Read all precautionary statements and first aid statements on back panel before use.

Harmful if swallowed. Irritating to nose and throat.

Do not allow this product to contact other water treatment products, to cause fire, explosion or the release of toxic gases.

Do not mix this product with a small amount of water.

Do not add water to this product. Add only into a swimming pool sanitizing agent. This product is designed to dissolve slowly and at a uniform rate.

Keep away from heat and from flame and burning material (like a lighted cigarette).

Keep out of reach of children.

WARNING

Environmental hazards:
- This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing the product into lakes, ponds, streams, estuaries, oceans, wetlands, or other bodies of water. Do not contaminate water when applying this product.
- Do not contaminate water by cleaning equipment or disposal of equipment.

Storage & Disposal:
- Store this product in a dry well-ventilated area away from children and pets.
- Do not dispose of this product by burning.

Precautionary Statements:
- Keep out of reach of children.
- Do not get in eyes, on skin or on clothing. Wear protective gloves and clothing when handling this product.
- Do not store this product near fuel or oil storage tank.
- Do not apply this product until 5 minutes after a meal.
- Do not store this product near fuel or oil storage tank.

FIRST AID:
- IF IN EYES: flush open and close eyes and pat eyes with cloth for 15 minutes. Call a poison control center or doctor if irritation persists.
- IF ON SKIN: wash skin with plenty of water for 15-20 minutes. Call a poison control center or doctor if irritation persists.
- IF INHALED: move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth.

Note to physician:
- Probable mucosal damage, perform gastric lavage. Do not induce vomiting. Monitor respiratory status. Do not give anything by mouth to an unconscious person. Call a poison control center or doctor for further treatment advice.
- Do not give artificial respiration, preferably mouth to mouth.
- Do not give gastric lavage.
- Do not give any oral medication.

KEEP OUT OF REACH OF CHILDREN
DANGER

Contamination or improper use may cause fire, explosion or the release of toxic gases. Do not allow this product to contact any foreign matter, including other water treatment products. If product is ingested or exposed to skin, wash with an approved skin cleanser immediately. If eye contact occurs, flush for at least 15 minutes with plenty of water for an extended period of time. If clothing or hair catches fire, smother with a dry chemical extinguishing agent. Do not allow this product with a small amount of water. Dampen down to just cool with water. Do not allow this product in a skimmer. Be sure skimmer is completely clean and free of residue from other water treatment products.

MEASURED SRV.

NET WEIGHT 50 LB. (22.7 kg)

DIRECTIONS FOR USE:

1. Adjust the pool water pH value to between 7.2 and 7.8 as determined by a suitable test kit.

2. Superchlorinate (shock treat) your pool water. Use 20 tablets per 5,000 to 10,000 gallons of pool water.

3. Superchlorinate (shock treat) your pool water. Use 1 tablet per 5,000 to 10,000 gallons of pool water.

4. Stabilize pool water to at least 30 ppm with a Quantum® Stabilizer.

FOR CONTINUOUS DAILY CHLORINATION:

5. Using a feeder, floater or skimmer, dispense this product as determined by the daily or more frequent requirement. The feeder, floater or skimmer will maintain the product at a safe and efficient 1.0 – 1.5 ppm at all times as determined by the daily or more frequent requirement.

6. Superchlorinate or shock treat your pool water. Use 1 tablet per 5,000 to 10,000 gallons of pool water.

7. Keep children away from bucket and drown. Bucket size = 4” / 5.657” (point to point). DOT confirmed: UN2468

PHYSICAL AND CHEMICAL HAZARDS:

IN CASE OF EMERGENCY CALL:

IF IN EYES:

• Do not rub eye, seek medical advice immediately.

IF INHHALED:

• Call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice.

IF SWALLOWED:

• Do not induce vomiting unless told to do so by a poison control center or doctor. Call a poison control center or doctor for treatment advice.

IN CASE OF FIRE:

• Extinguish fire with dry powder, dry chemical, or carbon dioxide extinguishers. Do not use water on fire. Do not try to move product container.

ENVIRONMENTAL HAZARDS:

The product may cause environmental harm if it is not properly contained or treated before disposal. This product may contain chlorine and other water treatment products including cyanuric acid, an inorganic compound.

STORAGE & DISPOSAL:

This pesticide is toxic to fish and aquatic life. Use only as directed. Do not apply to or allow to enter surface waters. Do not deposit in drains, ditches, or bodies of water. Contents must be treated by a Discharge Elimination System (NPDES) permit holder. Do not use in quantities sufficient to cause unreasonable adverse effects. This product is not to be used in waters containing fish. Properly dispose of used product containers in a landfill. Follow all local, state and federal regulations regarding the storage and disposal of this product.

NOTICE TO HANDLER:

This product contains cyanuric acid. This product is not to be used in waters containing fish. Properly dispose of used product containers in a landfill. Follow all local, state and federal regulations regarding the storage and disposal of this product.
