**ACTIVE INGREDIENT:**

QUANTUM GRANULAR STABILIZED CHLORINATING CONCENTRATE GRANULAR

**NET WEIGHT  25 LBS. (11.45 kg)**

**IN CASE OF EMERGENCY CALL:  1-800-654-6911**

Get medical attention. Probable mucosal damage may contraindicate the use of gastric lavage. Do not give anything by mouth to an unconscious person. In case of oral exposure, if person is able to swallow, the person should sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor.

**DIRECTIONS FOR USE:**

1. **Initial Installation (start-up):**
   - To stabilize the water prior to using your pool, add 1 ½ of the appropriate amount of Quantum® Stabilizer to your pool. For each 5,000 gallons of pool water, add 1 ½ oz. of Quantum® Stabilizer. The amount can be increased for high chlorine demand. Quantum® Stabilizer will provide any needed makeup conditioner.

2. **Weekly Maintenance:**
   - Maintain a free available chlorine level between 1.0 to 1.5 ppm (as determined daily by a suitable test kit) at all times. For each 10,000 gallons of pool water, add 2 ½ oz. of Quantum® Stabilizer. For each 5,000 gallons of pool water, add 1 ¼ oz. of Quantum® Stabilizer. When using a test kit, remember to subtract the amount of shock used. If the test kit is calibrated to read total chlorine level, add 1 oz. of Quantum® Stabilizer to your pool. Quantum® Stabilizer is a stabilized concentrated chlorine that will provide effective control of bacteria and algae when used as directed.

3. **Emergency Chlorine Shock Treatment:**
   - For a rapid increase in available chlorine, add 1 oz. of Quantum® Stabilizer to your pool. For each 10,000 gallons of pool water, add 2 ½ oz. of Quantum® Stabilizer. For each 5,000 gallons of pool water, add 1 ¼ oz. of Quantum® Stabilizer. Do not get in the pool for at least 2 hours after shock treatment. Shocking may produce heat and toxic gas and spatter. This product in a manner inconsistent with its labeling.

4. **Maintain a Free Available Chlorine Level:**
   - Maintain a free available chlorine level between 1.0 to 1.5 ppm. (or 1 and a quarter (1¼) ounces daily) or more as needed to maintain the proper bacterial control. For each 10,000 gallons of pool water, add 2 ½ oz. of Quantum® Stabilizer. For each 5,000 gallons of pool water, add 1 ¼ oz. of Quantum® Stabilizer. Remember to subtract the amount of shock used. If the test kit is calibrated to read total chlorine level, add 1 oz. of Quantum® Stabilizer to your pool. Quantum® Stabilizer is a stabilized concentrated chlorine that will provide effective control of bacteria and algae when used as directed.

5. **Shock Treat Your Pool at Least Twice Monthly (More Often in Warmer Climates):**
   - Shock treat your pool at least twice monthly. Additionally, if your demand is high, or you notice a buildup of algae or bacteria, then use Quantum® Stabilizer on a daily basis, otherwise, use weekly. Quantum® Stabilizer provides heat and toxic gas for proper shock treatment. When using a test kit, remember to subtract the amount of shock used. If the test kit is calibrated to read total chlorine level, add 1 oz. of Quantum® Stabilizer to your pool. Quantum® Stabilizer is a stabilized concentrated chlorine that will provide effective control of bacteria and algae when used as directed.

6. **Supplemental Treatment:**
   - Supplemental treatment of Quantum® Stabilizer is recommended if the test results indicate that the chlorine level is not sufficient to provide the proper treatment. Quantum® Stabilizer is a stabilized chlorine that will provide effective control of bacteria and algae when used as directed.

**HARMFUL IF SWALLOWED:**

Do not allow product to contact any foreign matter, including other water treatment products.

**KEEP OUT OF REACH OF CHILDREN**

**ENVIRONMENTAL HAZARDS:**

This pesticide is toxic to fish and aquatic life. Do not contaminate surface waters, drain, or other bodies of water. This product can be very harmful to aquatic life. Do not apply in streams, ditches, or ponds or other bodies of water. This pesticide is toxic to bees and other beneficial insects. Do not apply directly to water or to areas where bees or beneficial insects are known to be present.

**SAFETY PRECAUTIONS:**

- Wash hands after handling and before eating, drinking, chewing gum, using tobacco, or applying any lotions or cosmetics. Do not get in eyes, on skin or on clothing. Do not breathe dust or fumes. Open in a well-ventilated area. Avoid contact with clothing before reuse. Remove contaminated clothing and wash skin thoroughly with soap and water. Avoid contact with clothing. When handling, wear protective clothing, including long-sleeved shirts, long pants, boots, and gloves. Wash the outside of the container and any equipment used to handle the product in a noncorrosive, nonflammable water and soap solution. Do not allow product to contact any foreign matter, including other water treatment products.

**PRECAUTIONARY STATEMENTS:**

**Hazard Category:**

- **Aquatic harmful**
- **Fish lethal**
- **Fish avoidance**
- **Toxic to bees**
- **Toxic to other aquatic life**

**Recommended Safety Equipment:**

- **Personal protective equipment:**
  - Respirator
  - Eye protection
  - Gloves
  - Protective clothing

**Legal Requirements:**

- **Federal:**
  - EPA registration number: EPA REG. No. 40501-A-00054
  - Canadian registration number: 7000149600

- **State:**
  - California (CA) - EPA registration number: EPA REG. No. 40501-A-CA-
  - New Jersey (NJ) - EPA registration number: EPA REG. No. 40501-A-NJ-
  - Oklahoma (OK) - EPA registration number: EPA REG. No. 40501-A-OK-

**Labeling:**

- **Pesticide Storage:**
  - Store in a cool, dry area.
  - Store in the original container.
  - Keep out of reach of children.

- **Pesticide Management:**
  - Apply only to the specific use sites listed on the label.
  - Do not use in or around ground water, lakes, rivers, ponds, or streams.
  - Do not apply to standing water.
  - Do not apply to bodies of water.

- **Disposal:**
  - Do not discharge this product into the atmosphere.
  - Do not use a pressurized equipment orifice to apply this product.
  - Do not use a pressurized equipment orifice to apply this product.

- **Training:**
  - Do not apply this product in a manner inconsistent with its labeling.

- **Other:**
  - This product is not compatible with some water treatment products.
  - Use only as directed.

**Physical or Chemical Hazards:**

- **Flammable**
- **Corrosive**
- **Strong oxidizer**
- **Explosive**

**Health Hazards:**

- **Eye irritation**
- **Skin irritation**
- **Respiratory irritation**
- **Harmful if swallowed**
- **Poisonous**

**First Aid Measures:**

- **In case of contact with eyes:**
  - Rinse eyes immediately with plenty of water for 15 to 20 minutes. Call a poison control center or a doctor for treatment advice.

- **In case of contact with skin:**
  - Wash skin thoroughly with soap and water for 15 to 20 minutes. Call a poison control center or a doctor for treatment advice.

- **In case of contact with clothing:**
  - Remove contaminated clothing and wash skin thoroughly with soap and water.

- **In case of ingestion:**
  - Call a poison control center or a doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor.

- **In case of skin exposure:**
  - Wash skin thoroughly with soap and water for 15 to 20 minutes. Call a poison control center or a doctor for treatment advice.

- **In case of inhalation:**
  - Get fresh air. If not breathing, call 911 or an ambulance, then move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

- **In case of fire:**
  - Water spray may be effective. Fire extinguisher water only. Do not use carbon dioxide, foam, or dry chemical extinguishers.

**Other Monitoring:**

- **Biological:**
  - Monitor the biological activity of the water to ensure proper chlorine usage.

- **Chemical:**
  - Monitor the chemical composition of the water to ensure proper chlorine usage.

**Additional Information:**

- **General:**
  - Use only clean dry utensils to dispense this product. 
  - Use only as directed. 
  - Properly handle all chemicals. 
  - Follow all safety and handling instructions provided by the manufacturer. 

- **Specific:**
  - Use only Quantum® Stabilizer as directed. 
  - Do not mix this product with other chemicals. 
  - Do not use this product in conjunction with other chemicals. 
  - Do not use this product in conjunction with other chemicals. 
  - Use only as directed. 

- **Stability:**
  - This product is stable under normal conditions.

- **Disposal:**
  - Do not dispose of this product in the environment. 
  - Follow all disposal instructions provided by the manufacturer.
ACTIVE INGREDIENT:
Sodium dichloroisocyanurate dihydrate..........99%
OTHER INGREDIENTS
Available Chlorine..………………56%

IN CASE OF EMERGENCY CALL:  1-800-654-6911
Get medical attention.

IF ON SKIN OR CLOTHING:
wash clothing before reuse.

FIRST AID:
Move person to fresh air. If person is not breathing, call 911 or an ambulance, then
for treatment advice.

IF IN EYES:
For additional protection of skin, wear long
Wear goggles and chemical resistant gloves.

HAZARDS TO HUMANS AND DOMESTIC
organisms.

ENVIRONMENTAL HAZARDS:
burning material (like a lighted cigarette).

DIRECTIONS FOR USE:
• Use only clean dry utensils to dispense this
• Do not allow to become wet or damp before
• Do not mix this product with a small
• Do not add water to this product. Add only
• Do not add water to this product. Add only

PART NO. 353557
40501A-A-1113

Quantum® Stabilizer
2. Stabilize the pool water with 30 ppm of stabilized chlorine that will provide effective control of bacteria and algae when used as directed.

1. Adjust the pool water’s pH value to between 7.2 and 7.8 and the total alkalinity to between 80 and 150 ppm as determined by a suitable test kit.

DIRECTIONS FOR USE:

1. Add Quantum® Stabilizer with even a small amount of liquid. This product is a stabilized concentrated phosphate, and it is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

2. Stabilize the pool water with 30 ppm of stabilized chlorine that will provide effective control of bacteria and algae when used as directed.

3. Use Quantum® Stabilizer in the pool skimmer, but do not add water to this product. Add only the amount of water. Only add this product into water.

4. Maintain a free available chlorine level of 1.0 to 1.5 ppm. (or 1 and a quarter (1 ¼) ounces daily) or (2 ½) ounces of this product every other day.

5. Shock treat your pool at least twice (or 1 and a quarter (1 ¼) ounces daily) or (2 ½) ounces of this product every other day according to Step 3 above. During hot weather and peak bather loads, shock treat your pool weekly to prevent water cloudiness and algae growth.

WARNING:

• Do not mix this product with a small amount of water. Only add this product directly to your pool.

• Do not add water to this product. Add only the amount of water. Only add this product into water.

• Do not get in eyes, on skin or on clothing. This pesticide is toxic to fish and aquatic organisms.

ENVIRONMENTAL HAZARDS:

• Keep away from heat and from flame and /fire, explosion, and the release of toxic gases.

Apothecary, Inc.
A potter for guidance.
Sodium dichloroisocyanurate dihydrate..........99%

Available Chlorine..………………56%

Probable mucosal damage may contraindicate the use of gastric lavage. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a doctor for further treatment advice.

IN CASE OF EMERGENCY CALL:  1-800-654-6911

DANGER: If product is exposed to small amount of water, it can react violently to produce large amounts of gas, fire or explosion, and the release of toxic gases. Do not mix this product with a small amount of water. Harmful if swallowed.

PHYSICAL or CHEMICAL HAZARDS:

DANGER: Corrosive. Causes irreversible damage to skin. Avoid contact with skin, eyes, mouth, and clothing. Wash hands after handling. Avoid breathing dust or fumes. Wear goggles and chemical resistant gloves.

ENVIRONMENTAL HAZARDS:

It is a violation of Federal Law to use this product in a manner inconsistent with its registration. Use only in accordance with label directions.

Onsite application. This product is not intended for aerial application. Use only in accordance with label instructions, contact your State or Federal Office for guidance.
