**DIRECTIONS FOR USE:**

1. Adjust the pool water pH value to between 7.2 and 7.8 and total alkalinity to between 80 and 150 ppm as determined by a suitable test kit) at all times. By means of shock to oxidize organic contaminants. Follow the label directions. Before using the pool, be certain the chlorine level returns to 1-4 ppm (as determined daily by a suitable test kit) at all times.

2. Stabilize pool water to at least 30 ppm total chlorine and 4 ppm free available chlorine. Chlorine levels are controlled by using 

3. Shock treat the pool water with a 

4. Maintain a free available chlorine level of 4 ppm or above. Before the first use of this product, be sure additional protection of skin, wear long sleeves and long pants. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Irritating to nose and breathing dust and fumes. Deadly if inhaled or absorbed through skin. DANGER: Corrosive. Causes irreversible eye damage and skin burns.

**ENVIRONMENTAL HAZARDS:**

Avoid spilling this product. Do not allow this product to contact other water treatment products. If used in a water treatment products, away from this product. Use only clean dry utensils to dispense this product. Do not allow this product to contact other materials, including other swimming pool chemicals, or other pool water treatment products. When handling this product, wear rubber gloves and safety glasses. Protective clothing, including rubber gloves, safety glasses, and rubber boots should be worn. Due to possible skin irritation, do not allow contact with the skin. Keep out of reach of children. Do not allow to become wet or damp. Do not mix this product with a small amount of water. Only add this product directly to your pool.

**IN CASE OF EMERGENCY CALL:**

1-800-654-6911

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage.

**FIRST AID:**

IF SWALLOWED:

Do not cause vomiting. If possible, wash out the mouth by placing a stream of water into the mouth and then have the person drink sufficient water to wash it out. Do not give anything by mouth to an unconscious person. Call a poison control center or doctor for further treatment advice.

IF INHALED:

Take off contaminating clothing and move the exposed person to fresh air. If breathing is difficult, administer oxygen. If breathing stops, give artificial respiration. Call a poison control center or doctor.

IF ON SKIN OR CLOTHING:

Wash skin with plentiful amounts of water before removing contaminated clothing. Call a poison control center or doctor for further treatment advice.

IF IN EYES:

Rinse eyes with plenty of water for at least 15 minutes. Do not rub eyes. Call a poison control center or doctor for further treatment advice.

**REENTRY:**

Reentry into treated swimming pools is prohibited above levels of 4 ppm chlorine.

**PRODUCT USE:**

• QuantumCHEMICALS® are designed to dissolve in water. They are designed to dissolve in water and are not intended to create a static deposit on the pool bottom or walls.

• QuantumCHEMICALS® Biochemical® QuantumCHEMICALS® are designed to dissolve in water. They are designed to dissolve in water and are not intended to create a static deposit on the pool bottom or walls.

• QuantumCHEMICALS® are designed to dissolve in water. They are designed to dissolve in water and are not intended to create a static deposit on the pool bottom or walls.

DANGER: Corrosive. Causes irreversible eye damage and skin burns. Do not mix this product with a small amount of water. Only add directly to and spatter. Do not add water to this product. Add only into water. Do not add large amounts of water, it can react violently to produce heat and toxic gases.

In case of emergency call: 1-800-654-6911

Probable mucosal damage may contraindicate the use of gastric lavage. Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induced vomiting unless told to do so by a doctor. Do not use an oral syringe if the person is breathing. Give artificial respiration, if needed. Call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. If product is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING:

• Wash hands after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove contaminated clothing and wash immediately with plenty of water. Remove contaminated body clothing by stripping clothing away from the body and not by pulling over the head. Avoid skin contact with this material. This product may be absorbed through the skin. Avoid contact with skin or eyes. Do not contaminate the skin with this product.

IF IN EYES:

• Do not rub eye. Wash eye out with large amounts of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
**EMERGENCY HANDLING:**

**PHYSICAL AND CHEMICAL HAZARDS:**
- Do not allow the product to contact any foreign matter, including other water treatment products, to cause fire, explosion, and the release of toxic gases.
- Strong oxidizing agent. This product can also react violently with organic materials, producing heat, toxic gases and spatter.

**ENVIRONMENTAL HAZARDS:**
- Keep all foreign matter, including other water treatment products, away from this product.
- Nonrefillable container. Do not add water to this product. Add directly to your pool.

**PRODUCT USE:**

1. Shock treat the pool water with a Quantum Biochemical® shock treatment. These convenient and easy to use sticks are formulated to protect your pool from organic contaminants. Follow the label directions on the container label.
2. Stabilize pool water to at least 30 ppm calcium hypochlorite (as determined by a suitable test kit) at all times. By means of daily chlorination will provide any needed additional protection of skin, wear long sleeves, sand pants, protective goggles, and rubber gloves. For sensitive skin, wear long sleeves, sand pants, rubber gloves, and long hair;
3. Maintain a free available chlorine level of 1-4 ppm (as determined daily by a suitable test kit) at all times.
4. Keep reagent product in a manner consistent with its labeling instructions. It is a violation of Federal law to use this product in a manner inconsistent with its labeling instructions.
5. Shock treat your pool at least twice during hot weather.

**STORAGE & DISPOSAL:**

- Keep out of reach of children.
- Keep reagent product in a manner consistent with its labeling instructions. It is a violation of Federal law to use this product in a manner inconsistent with its labeling instructions.
- Do not allow this product to contact other water treatment products before use.
- May be fatal if inhaled or absorbed through the skin. Harmful if swallowed.

**CONTAINER:**
- KEEP OUT OF REACH OF CHILDREN

**STABILIZING MATERIALS:**
- CONTAINS NO CALCIUM

**ACTIVE INGREDIENT:**
- Trichloro-s-Triazinetrione ..................99%

**PENDING 6/29/17**
**DANGER:** Corrosive.

Do not allow this product to contact other pool products. Do not apply directly to pool water. Do not apply this product in a manner inconsistent with its labeling.

**ENVIRONMENTAL HAZARDS:**

- May be fatal if inhaled or absorbed through skin. Harmful if swallowed.
- Do not add water to this product. Add only into water. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases.
- Do not allow product to contact any foreign matter, including other pool treatment products, away from this product.
- Contamination or improper use may cause fire, explosion or the release of toxic gases.

**PHYSICAL AND CHEMICAL HAZARDS:**

- May cause eye and skin burns. May be fatal if inhaled or absorbed through the skin. Harmful if swallowed.
- May be fatal if inhaled or absorbed through the skin. Harmful if swallowed.
- Do not get in eyes, on skin or on clothing.

**EMERGENCY HANDLING:**

- Do not allow this product to contact other pool products. Do not apply directly to pool water. Do not apply this product in a manner inconsistent with its labeling.
- Contamination or improper use may cause fire, explosion or the release of toxic gases.
- Do not allow product to contact any foreign matter, including other pool treatment products, away from this product.

**NOTE TO PHYSICIAN:**

- Call a poison control center or doctor immediately for treatment advice. Have mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
- If not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

**IF IN EYES:**

- Do not rub eye. Hold eye open and rinse slowly under running water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.
- If contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

**IF INHALED:**

- Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

**PRODUCT SEE "EMERGENCY HANDLING."**

**SAFE HANDLING INSTRUCTIONS:**

- Keep out of reach of children.
- Keep container closed.
- Do not store near any heat source.
- Do not store near open flame.
- Nonrefillable container.
- Do not use in areas with temperatures greater than 120°F (49°C).

**IN CASE OF EMERGENCY CALL:**

- 1-800-654-6911

**STORAGE & DISPOSAL:**

- Keep this product dry in its tightly closed container.
- Store the container in a cool, dry, well-ventilated area.
- Nonrefillable container. Do not repackage.
- Disposal: Do not place empty container in household trash.
- Do not reuse this container.
- Do not contaminate water supplies.

**COMPATIBILITY:**

- Quantum Biochemical® Stabilizer
- Quantum Biochemical® 90% Available Chlorine
- Quantum Biochemical® Stabilizer 90%
- Quantum Biochemical® 90% Available Chlorine 90%

**PRODUCT SPECIFICATIONS:**

- Available Chlorine: 90%
- Total: 100%
- Active Ingredient: Trichloro-s-Triazinetrione: 99%
- Contains No Calcium

**REENTRY INTO TREATED SWIMMING POOLS IS NOT ADVISABLE UNTIL CHLORINE LEVEL IS DETERMINED AND DETERMINED TO BE SAFE FOR SWIMMERS.**

**INSTRUCTIONS FOR USE:**

- Before the first use of this product, be sure the pool water pH value is between 7.2 and 7.8. If the pH value is below 7.0, apply pH plus to increase the pH. Before using this product, test the pool water for available chlorine.

**TO MAINTAIN THE PROPER CHLORINE LEVEL:**

- The proper chlorine level in a swimming pool should be 1-4 ppm (as determined daily by a suitable test kit) at all times. By means of a suitable test kit, daily chlorination will provide any needed chlorine.

**CHLORINATION:**

- 1. Adjust the pool water pH value to between 7.2 and 7.8. If the pH value is below 7.0, apply pH plus to increase the pH.

**MAINTENANCE:**

- 2. Confirm room for Marine Pollutant Diamond

**DIMENSIONS:**

- Diamond size = 4” / 5.657” (point to point)

**5mm measurement from outside solid border to outer edge

**DIAMOND BORDER = 2 mm

**CONFIRMED ROOM FOR MARINE POLLUTANT DIAMOND

**FPO**

**3. Shock treat the pool water with a Quantum Biochemical® shock to oxidize chlorine loss in direct sunlight and water treatment products. If used in a floaters, feeders or skimmers, make sure skimmer is completely clean and free of residue from shock.**

**4. Reentry into treated swimming pools is not advisable until chlorine level is determined and determined to be safe for swimmers.**

**LABELING:**

- All labels and labeling must be in compliance with all federal, state and local regulations.

**RE-ENTRY INTO TREATED SWIMMING POOLS IS NOT ADVISABLE UNTIL CHLORINE LEVEL IS DETERMINED AND DETERMINED TO BE SAFE FOR SWIMMERS.**

**Storage & Disposal:**

- Keep this product dry in its tightly closed container.
- Store the container in a cool, dry, well-ventilated area.
- Nonrefillable container. Do not repackage.
- Do not place empty container in household trash.
- Do not reuse this container.
- Do not contaminate water supplies.
- Do not use in areas with temperatures greater than 120°F (49°C).
- Keep out of reach of children.
- Keep container closed.
- Do not store near any heat source.
- Do not store near open flame.
- Disposal: Do not place empty container in household trash.
- Do not reuse this container.
- Do not contaminate water supplies.
- Do not use in areas with temperatures greater than 120°F (49°C).
- Keep out of reach of children.
- Keep container closed.
- Do not store near any heat source.
- Do not store near open flame.
- Disposal: Do not place empty container in household trash.
- Do not reuse this container.
- Do not contaminate water supplies.
- Do not use in areas with temperatures greater than 120°F (49°C).
