**Hazard Statement: Corrosive. Causes irreversible eye damage and skin burns. May be self-reacting in water. May react with incompatible materials. Avoid contact with skin, eyes, and clothing.**

**Precautionary Statements:**

**DANGER:** Corrosive. Causes irreversible eye damage and skin burns. May be self-reacting in water. May react with incompatible materials. Avoid contact with skin, eyes, and clothing.

**ORAL INGESTION:**
If swallowed, rinse mouth and drink large quantities of water. Do not induce vomiting. Consult a physician or poison control center immediately.

**INHALATION:**
If inhaled, move to fresh air. If not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

**SKIN-contact:**
If contact occurs, remove contaminated clothing and wash skin immediately with plenty of water for 15-20 minutes. Take off contaminating contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**EYES-contact:**
Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. Call a poison control center or doctor for treatment advice.

**FIRST AID:**

- **General:**
  - Keep out of reach of children.
  - Do not allow to become wet or damp before use.
  - Do not remove or other dispensing device from water for an extended period of time if it contains a tablet or tablet residue.

- **Spillage:**
  - Do not add water to this product. Add only into water.

- **Release of Toxic Gases:**
  - Contamination or improper use may cause fire, explosion, and the release of toxic gases.

**Additional Precautions:**

- **Incompatibility:**
  - Do not allow this product to contact other water treatment products, to cause rapid decomposition, leading to fire, explosion, and the release of toxic gases.

- **Fire-Fighting:**
  - Use dry chemical, carbon dioxide, or water fog fire extinguisher.

- **EPA Reg. No.:**
  - 7364-57-58307

- **Storage & Disposal:**
  - Store in a cool, dry, well ventilated area away from heat, flame, or open flame. Nonrefillable container. Do not allow to become wet or damp before use. Do not remove or other dispensing device from water for an extended period of time if it contains a tablet or tablet residue.

**Material Safety Data Sheet:**

- **UN No.:**
  - 2468

- **PART NO.:**
  - 5912579

- **PRINCIPAL INGREDIENTS:**
  - CHLORINATING CONCENTRATE

**Available Chlorine:**

- **90%**

**OTHER INGREDIENT:**

- **1%**

**The Swimming Pool, as discoloration of the pool may occur.**

**For Continuous Daily Chlorination:**

- **Net Weight:**
  - 25 LBS. (11.33 KG)

**DIRECTIONS FOR USE:**

1. Determine the daily amount of chlorine needed to make the pool water safe for bathers. The amount of chlorine needed to maintain the pool at a safe level will depend on the amount of bather load.
2. Add Quantum® CHLORINATING CONCENTRATE to the pool water according to the previous steps. After adding Quantum® to the pool, perform a test to ensure that it contains the correct amount of available chlorine.
3. Superchlorinate (shock treat) the pool water according to the previous steps. After superchlorinating the pool, perform a test to ensure that it contains the correct amount of available chlorine.

**In Case of Emergency Call:**

- **FOR POISONING:**
  - Call a poison control center or doctor immediately for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or store information on a card in the pool area.

Before the first use of this product, be sure to read all precautionary statements on back label and first aid fatal if inhaled or absorbed through skin. Harmful if swallowed. pool.

Do not remove floater or other dispensing device from water for an extended period of time if it contains a tablet or tablet residue. Do not

If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases including other water treatment products. If product is exposed to small

DANGER

KEEP OUT OF REACH OF CHILDREN

WARNING:

This pesticide is toxic to fish and aquatic organisms.

ENVIRONMENTAL HAZARDS:

• Do not allow this product to contact other materials, including other water treatment products. If used in a pool, it may cause the release of toxic gases.

• Do not allow to become wet or damp before storage or disposal or cleaning of equipment.

• Do not contaminate food or feed by material prior to disposal. Offer for recycling if available. Do not contaminate food or feed

PRECAUTIONARY STATEMENTS

• Do not allow this product to contact other materials, including other water treatment products. If used in a pool, it may cause the release of toxic gases.

• Do not allow to become wet or damp before storage or disposal or cleaning of equipment.

• Do not contaminate food or feed by material prior to disposal. Offer for recycling if available. Do not contaminate food or feed

EPA REG. NO. 7364-57-58307

STORAGE & DISPOSAL:

Once the product is in a swimming pool, the following procedures for use and handling are recommended:

• Store in a cool, dry, well ventilated area away from heat and from flame and from open flame.

• Keep away from heat and from flame and from open flame.

• Use only clean dry utensils to dispense this product in the skimmer.

• Open in a well ventilated area. Avoid breathing dust and fumes.

• Obtain and use a suitable test kit to determine the free available chlorine level before adding this product to your pool.

• Do not allow this product to contact other materials, including other water treatment products. If used in a pool, it may cause the release of toxic gases.

• Do not allow to become wet or damp before storage or disposal or cleaning of equipment.

• Do not contaminate food or feed by material prior to disposal. Offer for recycling if available. Do not contaminate food or feed

For continuous daily chlorination:

FOR CONTINUOUS DAILY CHLORINATION:

1. Adjust the pH value of the pool water to between 7.2 and 7.8 as determined by a suitable test kit.

2. Stabilize the pool water to at least 30 ppm of total chlorine as determined by a suitable test kit.

3. Superchlorinate (shock treat) the pool water to at least 50 ppm of total chlorine as determined by a suitable test kit.

4. Once you complete 1, 2, and 3 above, use a feeder, floater or skimmer to distribute Quantum® Biochemical Stabilizer with directed on the container label. Regular use provides any needed makeup stabilizer.

5. Using a feeder, floater or skimmer to distribute Quantum® Biochemical Stabilizer as directed on the container label. Regular use provides any needed makeup stabilizer.

ANIMALS

• Do not allow this product to contact other materials, including other water treatment products. If used in a pool, it may cause the release of toxic gases.

• Do not allow to become wet or damp before storage or disposal or cleaning of equipment.

• Do not contaminate food or feed by material prior to disposal. Offer for recycling if available. Do not contaminate food or feed

The presence of these tablets in a swimming pool can cause the release of toxic gases, leading to fire, explosion, and the release of toxic substances. The release of toxic substances can cause harm to human health and the environment. The release of toxic substances can cause harm to human health and the environment.

The following statements are required by federal law (40 CFR Part 710):

THE POOL LINER OR FINISH MAY OCCUR.

NEVER ADD THESE TABLETS DIRECTLY INTO WATER. If used in a pool, it may cause the release of toxic gases.

NEVER ADD THESE TABLETS DIRECTLY INTO WATER. If used in a pool, it may cause the release of toxic gases.
DIRECTIONS FOR USE:

1. Adjust the pH value of the pool water to a suitable test kit and adjust the Total Alkalinity to 100 ppm.

2. Dilute water and then add the Quantum® tablets to the pool water until the free available chlorine level is as directed on the container label. Regular use will maintain the steady chlorine level.

3. Superchlorinate (shock treat) the pool water at least twice monthly (more often in warmer climates) during hot weather and peak bather loads using a Quantum® feeder, floater or skimmer.

• Use only in water. Only add this product directly to the water. Never add these tablets directly into the pool. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gas and spatter. Do not add water to this product. Add only into water.

• Shake before use.

• Do not mix this product with small amounts of water. If small amounts of water are added, it will produce heat and toxic gas and spatter. Do not mix this product with small amounts of water.

• Do not mix this product with a small amount of water. If a small amount of water is added, it will produce heat and toxic gas and spatter. Do not mix this product with a small amount of water.

• Use in a well-ventilated area. Avoid breathing dust and fumes. Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container with plenty of water and disposable waste should be disposed of in a safe and proper manner.

ENVIRONMENTAL HAZARDS:

Strong oxidizing agent. This product can cause fire, explosion, and the release of toxic gases.

Exposure to heat can cause this product to release toxic gases.

Contamination or improper use may cause fire, explosion or the release of toxic gases.

In Case of Emergency Call: 1-800-654-6911

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage.

IF SWALLOWED:

Call a poison control center or doctor immediately for treatment advice. Have the packaging or label with you.

IF INHALED:

Move person to fresh air. If person is not breathing, give artificial respiration. If breathing is difficult, give oxygen. If in doubt, call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING:

Wash thoroughly with soap and water after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

IF IN EYES:

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

FIRST AID:

Do not induce vomiting unless specifically instructed to do so by a physician.

In case of emergency, call a poison control center or doctor immediately. Do not take the product by mouth unless specifically instructed to do so by a physician.

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed. Irritating to nose and throat.

BEFORE THE FIRST USE OF THIS PRODUCT, BE SURE TO REACH THE MANUFACTURER FOR INSTRUCTIONS. BEFORE USE, READ THE INSTRUCTIONS ON THE CONTAINER. USE WITH APPROVAL OF THE MANUFACTURER.

THE POOL LINER OR FINISH MAY OCCUR.

STORAGE & DISPOSAL:

When used in accordance with the Safety Data Sheet, this product is non hazardous when disposed of in accordance with local, state, and federal regulations.

Do not contaminate food or feed by improper storage or disposal or cleaning of equipment.

• Do not place in freezer since dry ice may form.

• Do not mix with other products, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

• Store in a cool, dry, well ventilated area away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container with plenty of water and disposable waste should be disposed of in a safe and proper manner.

• Keep all foreign matter, including other water treatment products, away from this product.

• Keep all foreign matter, including other water treatment products, away from this product. If used in a swimming pool, away from the pool. If used in a water tank or cistern, away from the tank or cistern.

• Do not come in contact with eyes or mouth. Wash frequently with soap and water after contact.

• Do not apply by air or water spray.

• Do not apply in the vicinity of wildlife.

• Follow good agricultural practices.

• Apply according to label directions. Use of this chemical when not in accordance with label directions may result in noncompliance with the environmental regulations. The use of inadequately labeled or unregistered pesticide is a violation of Federal and State law.

• This product is recommended for use as a chlorinating agent and sanitizer. Do not use this product as a primary oxidizer. This product is a registered trademark of an Arch Chemicals, Inc. business.

• Keep out of reach of children.

• Store in a cool, dry, well ventilated area away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container with plenty of water and disposable waste should be disposed of in a safe and proper manner.

• Open in a well ventilated area. Avoid breathing dust and fumes.

• Wash thoroughly with soap and water after contact, especially before eating, drinking, or smoking.

• Wash thoroughly with soap and water after contact.

A Vermont pesticide stew.

QUANTUM 1" TABLETS

STABILIZING CONCENTRATE

**QUANTUM 1" TABLETS**

**ACTIVE INGREDIENT:** Trichloro-s-Triazinetrione

**Available Chlorine:**

- **90%**

**Other Ingredients:**

- 1%

**Total:**

- 100%

**UN2468**

**Dry**

**CHLORINATING CONCENTRATE**

**STABILIZING CONCENTRATE**

**DIRECTIONS FOR USE:**

1. Adjust the pH value of the pool water to 7.2 and 7.8 as determined by a suitable test kit and adjust the Total Alkalinity to 100 ppm.
2. Stabilize the pool water to at least 30 ppm as directed on the container label. Regular use of Quantum® Biochemical Stabilizer is recommended for daily chlorination.
3. Superchlorinate (shock treat) the pool water to maintain chlorine at a safe and efficient 1.0 – 1.5 ppm at all times as determined by the daily chlorine testing. This will produce a free available chlorine residue of 2 – 3 ppm.
4. Once you complete 1, 2, and 3 above, use 1 tablet per 10,000 gallons of pool water. This will produce a free available chlorine level of 1.0 – 1.5 ppm.

**ENVIRONMENTAL HAZARDS:**

- This pesticide is toxic to fish and aquatic organisms.
- Keep away from heat and from flame and from open flame. Nonrefillable container. Do not leave the area until the container is cool to the touch.
- Do not mix this product with a small amount of water. Add only into water.
- Dangers caused by rapid decomposition, leading to fire, explosion, and the release of toxic gases.

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS:**

- Do not allow this product to contact other water treatment products, to cause damage. Causes eye and skin burns. May be fatal if ingested.
- Do not allow to become wet or damp before use. Do not contaminate food or feed by handling and before eating, drinking, chewing gum or using tobacco.
- DO NOT REUSE OR REFILL THIS CONTAINER. Rinse empty container thoroughly with water to dissolve all residues before discarding.

**STORAGE & DISPOSAL:**

- When the container is empty, discard according to local regulations.
- Use No. 40516A in accordance with the EPA for mixing and storage of this product.
- A special use permit is required to handle, use, store or dispose of this product.

**SPECIAL PRECAUTIONS:**

- Never add these tablets directly into floating products, to cause damage. Causes eye and skin burns. May be fatal if ingested.
- Do not get in eyes, on skin or on clothing. Wash using soap, fresh running water and protective gloves. Do not store with food, beverages, or utensils.
- In case of emergency, call 1-800-654-6911. Call a poison control center or doctor immediately for treatment advice. Have the product container or label with you when calling a poison control center or doctor.

**IN CASE OF EMERGENCY CALL:**

- 1-800-654-6911

**NOTE TO PHYSICIAN:**

- In case of accidental ingestion, vomiting may or may not cause diarrhoea.只有在医生的指导下，才可采取催吐措施。

**PRODUCT DISPOSAL:**

- This product and container are classified as a Class 6, Division 6.1 – Organic Peroxide. The material must be disposed of in a manner consistent with the U.S. DOT, 49 CFR, Title 49, Subtitle B, Chapter 1, Part 172, Subpart M, Subpart O, and other appropriate regulations.

**REGISTRATION ONLY:**

- This product is registered with the U.S. Environmental Protection Agency (EPA) under Registration Number 58401-IL-1[ST].

**DIRECTIONS FOR USE:**

- This product is intended for use in swimming pools and spas. To shock treat the pool water, add 1 tablet per 10,000 gallons of pool water. This will produce a free available chlorine level of 1.0 – 1.5 ppm.

**STORAGE:**

- Do not store in direct sunlight.

**LABELING:**

- This product is not recommended for use in marine environments.

**PLASTIC:**

- This product is not designed for use in plastic swimming pools.
DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be harmful if swallowed. Irritating to nose and throat.

DANGER: Fatal if inhaled or absorbed through skin. Harmful if swallowed.

CHLORINATING STABILIZING

IN CASE OF EMERGENCY CALL: 1-800-654-6911

Probable mucosal damage may contraindicate the use of gastric lavage. 

IF SWALLOWED:
• Take off contaminating clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.

IF INHALED:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses. Call a poison control center or doctor for treatment advice.

FIRST AID:
• Edema of the lips, mouth, or throat: Give 2 to 4 once of water. Do not induce vomiting unless told to do so by a doctor.

• Sip water if able to swallow. Do not induce vomiting unless told to do so by a doctor.

• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

• If person is going for treatment.

• If product is exposed to small amounts of water, it can react violently to produce heat and toxic gas and spatter. Do not add water to this product. Add only into water.

• If product is mixed with any other chemicals, regardless of type, it can cause a violent reaction.

• Do not allow this product to contact any foreign matter, including other water treatment products. If used in a pool system, do not add anything to the pool from which this product is excluded from use.

This pesticide is toxic to fish and aquatic organisms.

ENVIRONMENTAL HAZARDS:
Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases.

• Do not get in eyes, on skin or on clothing.

• Wash thoroughly with soap and water after handling and before eating, drinking, or smoking.

• Do not allow to become wet or damp before use.

• Do not allow this product to contact any foreign matter, including other water treatment products.

• Keep all foreign matter, including other water treatment products, away from this product.

• Do not remove /f_loater or other dispensing device from water for an extended period of time. This will cause rapid decomposition. Discard container when not in use. Store in a cool, dry, dark area.

• Do not mix this product with a small amount of water. Only add directly to your pool.

• Do not add water to this product. Add only into water.

• Do not mix this product with a small amount of water. Only add directly to your pool.
