ACTIVE INGREDIENT:
Sodium dichloro-s-triazinetrione dihydrate................................. 99%
OTHER INGREDIENTS:.............................................................. 1%
TOTAL .................................................................................. 100%
Provides 55% available chlorine.

KEEP OUT OF REACH OF CHILDREN
DANGER
See other precautions and first aid on back panel.
NET WT. 2 LB. (.906 kg)

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling. 
1. Chlorinate: Add 1/2 oz. of this product per 500 gallons of water to the spa. Wait 5 minutes then check chlorine residual. Residual chlorine must read between 2.0 to 3.0 ppm. If not, additional dosages of material should be added until it does. Once the chlorine residual is established in the 2.0 to 3.0 ppm range, the spa or hot tub may be entered.
2. Maintain: This product should be added daily or as necessary to maintain 2.0 to 3.0 ppm residual chlorine. Frequent checks should be made of residual chlorine using a reliable test kit. This product should be broadcast over the surface of the water and allowed at least 5 minutes mix time before sampling. Note: Excessive usage of the product or the use of oils or lotions may increase the chlorine demand of the spa or hot tub resulting in the need for more frequent checks of chlorine residual.
3. Check pH: pH should be monitored with a reliable test kit and maintained at 7.0 to 7.5 range for clear, sparkling water. pH can be decreased by adding a suitable agent such as sodium bisulfate or increased by adding a suitable agent such as sodium bicarbonate.
4. Superchlorination: It is good practice to superchlorinate every 2 to 4 weeks. To superchlorinate, add 1 oz of this product for each 500 gallons of water. Thoroughly clean spa, vacuum and cycle through filter. Resume program when chlorine residual reads 2.0 to 3.0 ppm.

HOW TO CALCULATE SPA CAPACITY
Shape of Spa or Hot Tub
Gallos of Water (Dimensions in ft.)
Rectangular
Average depth x average width x 7.5
Circuilar
Diameter x diameter x average depth x 5.9
Oval with straight sides
With a length x average depth x 6.7
Irregular
Consult spa or hot tub manufacturer

STORAGE AND DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, 100 feet from buildings, food and water. Avoid breathing dust or fumes. Wash thoroughly with soap and water after handling. Do not reuse empty container. Wrap container and put in trash. Do not contaminate water, food or feed by storage or disposal.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: HIGHLY CORROSIVE. Causes irreversible eye damage. Causes burns to skin, irritation to nose and throat. May be fatal if swallowed. Will burn with the evolution of chlorine and equal to toxic gases. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing dust or fumes. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.
ENVIRONMENTAL HAZARD: This product is toxic to fish and aquatic organisms.

FIRST AID
IF SWALLOWED: Call a poison control center immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF IN EYES: Hold eyelids open and rinse slowly with water for 15 to 20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.
