NOTE TO PHYSICIAN:
Probable mucosal damage may contraindicate the use of gastric lavage.
preferably mouth-to-mouth, if possible.
Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration,

IF INHALED:
by mouth to an unconscious person.

IF SWALLOWED:
Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water
after first 5 minutes, then continue rinsing eye.

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present,

you when calling a poison control center or doctor, or going for treatment

INERT INGREDIENTS:
..........................................50.00%
Didecyl dimethyl ammonium chloride....................50.00%

ACTIVE INGREDIENT:
Non-metallic, non-foaming.
Kills and prevents algae. This product efficiently reduces green and blue-green algae growths in pools. It will not harm pool surfaces or equipment and it’s compatible with most other pool chemicals.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SWIMMING POOLS
This product requires no special equipment for treating swimming pool water. The correct use dilution may be added directly to the pool in any spot or added to the water circulation equipment. This product works the best when added by itself directly to pool water.

IMPORTANT NOTES
1. Do not allow swimming in pool for at least 15 minutes after this product has been applied.
2. Always apply this and other pool treatment chemicals separately. Never combine them.
3. Sunlight, rainfall, temperature, number of swimmers and frequency of pool use, all affect the rate at which unsanitary pool water conditions develop. Adjust your pool cleaning and maintenance functions accordingly.

BEFORE YOU BEGIN
1. Make sure all pool equipment is working properly including pump, filter, skimmer and heater. Allow the filter to run for at least 6 hours after adding algicide.
2. Backwash filter, following normal procedure for your pools filter.
3. Check water pH ( acidity/alkalinity balance) with a test kit, following label directions. Desired pH range is between 7.2-7.6. If necessary adjust pH by adding pH decreaser to lower pH or pH increaser to raise pH.
4. Recheck pH and maintain it between 7.2-7.6 for at least 6 hours before adding this product.
5. Add this product directly into pool by pouring around entire outside perimeter of pool.

INITIAL APPLICATION FOR SWIMMING POOLS
1. Vacuum algae debris to waste and thoroughly brush pool.
2. Add 5 ¼ ounces of this product to each 10,000 gallons of water or ratio thereof. Add this product directly into pool by pouring around entire outside perimeter of pool.
3. Vacuum pool after 24 hours to remove dead algae.
4. If algae is still visible repeat dose as necessary until pool is free of visible algae.
5. Once algae is under control, clean filter and return to normal operation.

MAINTENANCE DOSE:
Add 1 ¼ fluid ounces of this product to 10,000 gallons of pool water. Maintenance dose should be added weekly. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

Maintenance dose should be added after a heavy or unusually heavy use, add maintenance dose more frequently.

When swimming season is over, add maintenance dose prior to closing pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season:

DIRECTIONS FOR USE

KEEP OUT OF REACH OF CHILDREN
DANGER
See side panel for additional precautionary statements and first aid statements.

NET CONTENTS: 1 QT. (32 FL. OZ.) (946 ml)

Storage and Disposal:
Do not contaminate water, food, or feed by storage and disposal. Nonrefillable container. Store in original container in areas inaccessible to small children. Keep from freezing.

Do not re-use empty container. Offer for recycling if available or wrap and discard in trash.

When this product is used as directed, it is effective against Chlorella pyrenoidosa (green algae), Phormidium luridum (black algae), and Pleurochloris meiringensis (mustard algae), and other swimming pool alga and slime producing microorganisms. For persistent algae or slime producing microorganisms growth, add 5-7 ¼ ounces of this product into the skimmer with the filter pump running. After one minute, shut off the pump and allow the system to remain off overnight. The following day, re-start the filter pump and add 5-7 ¼ ounces of this product to the pool. Run the filter continuously for 24-48 hours, brushing the sides and bottom of the pool.

Environmental hazards: This product is toxic to fish. Physical or chemical hazards: This product is cationic. Do not use or store near heat or open flame. Do not mix with any other chemicals.

Supersedes: 1-800-654-6911

Stop: Do not mix with other products or dissolve before use.
