**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**
Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

**PERSONAL PROTECTIVE EQUIPMENT (PPE)**
Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category C on an EPA chemical resistance category selection chart.
Applicators and other handlers must wear:
- Long-sleeved shirt and long pants
- Shoes plus socks
- Chemical-resistant gloves, such as barrier laminate; butyl, nitrile or neoprene rubber; polyvinyl chloride; or viton (for apple uses).

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

**USERS SAFETY RECOMMENDATIONS**

**Users Should:**
- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

**FIRST AID**

**IF IN EYES:**
- Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

**HOT LINE NUMBER**
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-877-925-1840 for emergency medical treatment information.

**ENVIRONMENTAL HAZARDS**
Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

**DIRECTIONS FOR USE**
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, contact the State or Tribal agency responsible for pesticide regulation.

**AGRICULTURAL USE**
Use this product only in accordance with its label Part 170. This Standard contains requirements for forests, nurseries, and greenhouses, and handlers for training, decontamination, notification, and instructions and exemptions pertaining to the stat equipment (PPE), and restricted-entry interval. The product that are covered by the Worker Protec Do not enter or allow worker entry into treated at 12 hours.

PPE required for early entry to treated areas that is and that involves contact with anything that has be Covered
- Chemical-resistant gloves, such as barrier lamin chloride; or viton (for apple uses).
- Chemical-resistant gloves (made of any waterpro
- Shoes plus socks

**GENERAL INF**
**IMPORTANT:** Before application, read all directions
This product contains 1.9% (w/w) 6-benzyladenine belonging to the group of growth regulators known as Consult your local Genesis Agri-Products, Inc. Agric the use of this product in your particular orchard(s).

**APPLICATION IN**
**GENERAL**
- Do not apply this product through any type of irrig
- Apply in the morning or evening when conditions higher humidity, in order to ensure adequate abs assure that the leaves are not too wet from dew.
- To minimize foaming of spray solution, reduce agi to 1/2 capacity with water.
- Product performs best at water pH between 5 and 11.6. No surfactant is required.
- Apply in sufficient amount of water to ensure thoro bated spray equipment to ensure uniform coverage on tree size and spacing. In many cases, spray vo been shown to be adequate.
- For apples, do not exceed a total of 308 fluid ounce uses.
AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its label and with the Worker Protection Standard. 40 CFR Part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is:
- Coveralls
- Chemical-resistant gloves, such as barrier laminate; butyl, nitrile or neoprene rubber; polyvinyl chloride; or viton (for apple uses).
- Chemical-resistant gloves (made of any waterproof material) (for pistachio uses).
- Shoes plus socks

GENERAL INFORMATION

IMPORTANT: Before application, read all directions thoroughly. Use this product only as directed. This product contains 1.9% (w/w) 6-benzyladenine (6-BA). 6-BA is a potent plant growth regulator belonging to the group of growth regulators known as cytokinins.

Consult your local Genesis Agri-Products, Inc. Agricultural Specialist for specific information regarding the use of this product in your particular orchard(s).

APPLICATION INSTRUCTIONS

GENERAL
- Do not apply this product through any type of irrigation system.
- Apply in the morning or evening when conditions are best for slow drying (cooler temperatures and higher humidity), in order to ensure adequate absorption of the product. If applied in the morning, assure that the leaves are not too wet from dew.
- To minimize foaming of spray solution, reduce agitation and add the product to the tank after filling to 1/2 capacity with water.
- Product performs best at water pH between 5 and 7; do not exceed pH of 8.5.
- No surfactant is required.
- Apply in sufficient amount of water to assure thorough coverage without excessive runoff. Use calibrated spray equipment to ensure uniform coverage of leaves and fruit. Adjust water volumes based on tree size and spacing. In many cases, spray volumes of approximately 100 gallons per acre have been shown to be adequate.
- For apples, do not exceed a total of 308 fluid ounces (182 grams of 6-BA) per acre per season for all uses.

USE
- For fruit thinning, sizing, and enhanced return bloom. Apply 75 to concentrate the dilution assistance.

Additional Instructions:
- Direct 80% of the spray into
- Applications will be most effective when applied, and the following:
- Use higher rates in orchards be difficult to thin, and in coo
- Do not exceed a total of 10 for all uses.
- Do not apply within 86 da

NOTE: Generally, only one application is desired to obtain additional thinning.
1. Allow 7-10 days to observe
2. Spray the second application within 8 da

USE
- For enhancement of fruit size. Apply 10 to concentrate the dilution assistance.

Additional Instructions:
- Direct 80% of the spray into
- Applications will be most effective when applied, and the following:
- Do not apply within 86 da

NOTE: This use may cause fruit to be unfavorable for thinni

USE
- For fruit thinning, sizing, and enhanced return bloom.
**USE REQUIREMENTS**

- Label and use in accordance with the Worker Protection Standard, 40 CFR Part 195. For the protection of agricultural workers on farms, ranches, and on other locations where plants, soil, or water are treated, as well as on residential lawns, unless otherwise specified, except for cotton. The requirements in this box only apply to uses of
  - Growth regulators, including butyl, nitrile, or neoprene rubber, polyvinyl water-resistant material for parts of the plant.
  - That is permitted under the Worker Protection Standard.

Additional Instructions:
- Apply 75 to 200 ppm spray concentration. (Refer to the dilution table for assistance.)
- Apply sufficient volume to ensure complete tree coverage.
- Do not apply more than twice a season.
- Do not exceed a total of 308 fluid ounces (182 grams of 6-BA) per acre per season for all uses.
- Do not apply within 86 days of harvest.
- Generally, only one application is sufficient for fruit thinning. If a second application is desired to obtain additional thinning:
  1. Allow 7-10 days to observe the effect of the first application.
  2. Spray the second application before the average diameter of the fruit exceeds 20 mm.

**INFORMATION**

- Thoroughly. Use this product only as directed.
- Adenine (6-BA), 6-BA is a potent plant growth regulator known as cytokinins.
- Contact your Agricultural Specialist for specific information regarding your area(s).

**ON INSTRUCTIONS**

- Use agitation and add the amount of irrigation system.
- Direct 80% of the spray into the upper 2/3 of the tree canopy.
- Applications will be most effective when the maximum temperature is above 65°F on the day of application, and the following 2-3 days.
- Use higher rates in orchards that have a history of being difficult to thin, in varieties known to be difficult to thin, and in cool weather situations.
- Do not exceed a total of 308 fluid ounces (182 grams of 6-BA) per acre per season for all uses.
- Do not apply within 86 days of harvest.
- Generally, only one application is sufficient for fruit thinning. If a second application is desired to obtain additional thinning:
  1. Allow 7-10 days to observe the effect of the first application.
  2. Spray the second application before the average diameter of the fruit exceeds 20 mm.

**COMPATIBILITY WITH OTHER AGRICULTURAL PRODUCTS**

Information on tank mix compatibility of this product is limited at this time.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

**PESTICIDE STORAGE:** Store product in a cool and dry place.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**WARRANTY**

To the extent allowed by law: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions or under conditions not reasonably foreseeable to seller and buyer and the limit of liability of any such use. The exclusive remedy of user or buyer and the limit of liability of Genesis Agri-Products, Inc. is the purchase price paid for the quantity of product involved.
