ENVIRONMENTAL HAZARD
This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified and has not objected to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL HAZARD AND CHEMICAL HAZARD
Do not store near heat or open flame. In case of fire, use water, spray, foam, dry chemical or CO₂.

DIRECTIONS FOR USE
Notice to User: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons either directly or through drift. Only protected handlers may be in the area during application.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for Category A on the EPA chemical resistance category selection chart.

Workers must wear:
1. Chemical resistant gloves (such as butyl, neoprene, and/or barrier laminate) while handling potatoes which are wet.
2. Long sleeved shirt and long pants.
3. Socks and shoes.
4. Chemical resistant gloves made of barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, polychloroprene or viton.
5. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

User Safety Recommendations:
Users should:
1. Follow manufacturer's instructions for cleaning/maintaining Personal Protective Equipment (PPE). If there are no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.
2. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
3. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
4. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

STORAGE AND DISPOSAL
PESTICIDE STORAGE:
Avoid storage before freezing temperature. Frozen product may result in gel formation. When temperatures and agitation will restore material to useable conditions, but do not heat above 25°C. Keep container closed. Do not contaminate water, food or feed by storage or disposal.

PESTICIDE DISPOSAL:
Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or residual solution of a residue from application of this material is injurious to wildlife and man. These wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL:
Nonflammable Containers 5 Gallons or Less: Nonflammable container. Do not reuse or refill this container. Offer for recycling if available. Triple rinse container (or equivalent) promptly after emptying. Rinse container 1/4 full with water and recap. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities. Plastic containers are also disposable by incineration, or, if allowed by State and local authorities, by burning. If burned stay out of smoke.

APPLICATION
SHELDD POTATO SPROUT INHIBITOR EC is applied at a 1% active ingredient level on washed and damp potatoes. The diluted solution should be applied using spray nozzles placed evenly across the rolls on which the potatoes are being moved. The diluted solution can also be applied by a foaming system in conjunction with a suitable foaming agent. Do not apply this product using aerostat equipment.

Do not apply more than one application of 0.010 lbs of chlorophenol per 1000 lbs of potatoes.
