**SHOCK CLEAR**

Shock Treatment and Super Chlorinator for Swimming Pools

**Kills Bacteria • Destroys Organic Contaminants • Controls Algae**

**ACTIVE INGREDIENT:**
Calcium Hypochlorite ....................................................... 68%

**OTHER INGREDIENTS:**
ALUMINUM SULFATE .............................................................. 32%

**Minimum 0% Available Chlorine**

**USE ENTIRE BAG IN ONE APPLICATION**

**DIRECTIONS FOR USE**

**SWIMMING POOL USE**

Pool water is subject to build-up of a wide variety of contaminants, including organic wastes such as perspiration, ammonia compounds, and neutral and organic oils and greases. Efficient treatment of this build-up requires a product that is effective against a wide variety of these contaminants. Shock Clear is intended for use in swimming pools to effectively treat a variety of these contaminants. Use Shock Clear whenever swimming pool maintenance requires an increase in available chlorine.

**USE DIRECTIONS**

For the product method you choose, mix at least 4 lbs of Shock Clear product into large quantities of water to fully dissolve. When mixing in the pool, mix at least 4 lbs of this product into the pool. If using to pre-dissolve, mix at least 4 lbs of this product into large quantities of water to fully dissolve. When mixing in the pool, mix at least 4 lbs of this product into the pool. If using to pre-dissolve, mix at least 4 lbs of this product into large quantities of water to fully dissolve. When mixing in the pool, mix at least 4 lbs of this product into the pool. If using to pre-dissolve, mix at least 4 lbs of this product into large quantities of water to fully dissolve. When mixing in the pool, mix at least 4 lbs of this product into the pool. If using to pre-dissolve, mix at least 4 lbs of this product into large quantities of water to fully dissolve.

**KEEP OUT OF REACH OF CHILDREN**

Do not mix with any other chemicals, including any other pool chemicals of any kind. Mixing with other chemicals could cause a fire or explosion. Always add this product into large quantities of water to fully dissolve. Never add water to this product.

**NO USE DIRECTIONS**

Do not add water to Shock Clear. Always add this product directly into the pool. Do not use Shock Clear in a hot tub or spa. To prevent hot tub or spa water from build-ups of organic contaminants, use Shock Clear. Always add this product directly into the pool. Do not use Shock Clear in a hot tub or spa. To prevent hot tub or spa water from build-ups of organic contaminants, use Shock Clear.

**PHYSICAL AND CHEMICAL HAZARDS:**

Strong oxidizing agent. Inhalation of shock products with pool chemicals can lead to the development of noxious odors, irritation of the respiratory tract, and respiratory distress. Shielded inhalation of shock products may cause cardiovascular collapse. Inhalation of chlorinated organic compounds may result in irritation of the respiratory tract, and respiratory distress. Shielded inhalation of shock products may cause cardiovascular collapse. Inhalation of chlorinated organic compounds may result in irritation of the respiratory tract, and respiratory distress. Shielded inhalation of shock products may cause cardiovascular collapse. Inhalation of chlorinated organic compounds may result in irritation of the respiratory tract, and respiratory distress.
