PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER - Keep Out of Reach of Children.
Consume. Causes irreversible eye damage and skin burns. May be fatal if swallowed or inhaled. Harmful if absorbed through skin.
Protective clothing (rubber gloves, rubber apron, long sleeve shirt, and eye protection) should be worn when handling. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash clothing before reuse.
ENVIRONMENTAL HAZARD: This product is toxic to fish.
PHYSICAL OR CHEMICAL HAZARDS: This product is caustic. Do not use on stone near fruit or vegetable. Do not mix with any other chemicals.

This product efficiently reduces much blue-green and square algae growing in pools. It will not harm pool surfaces or equipment and is compatible with most other pool chemicals.

DIRECTIONS FOR USE
IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

SWIMMING POOLS
This product is an algaecide supplement for swimming pool water. It is not intended to be added directly to the pool in any way or as an alternative to the normal cleaning equipment. This product is the best alternative for pool water that has been adjusted properly.

IMPORTANT NOTES
1. Use this coin all pools to control algae in new or existing pools. It is recommended to use it every 4 to 6 weeks, depending on the water conditions.
2. Check the pH and alkalinity of the pool water before adding this product.
3. If necessary, adjust the pH to between 7.2 and 7.6. If the pH is too high, add a pH lowering agent. If the pH is too low, add a pH raising agent.
4. Check the pool and maintain it between 7.2 and 7.6. A pH of 7.2-7.6 is ideal for algae control.
5. Add this product directly into the pool by stirring around the entire perimeter of the pool.

INITIAL APPLICATION FOR SWIMMING POOLS
1. Vacuum algae off of walls and thoroughly brush pool. Apply 1 to 2.5 liters of this product per 10,000 gallons of water or area thereof. Apply this product directly into the pool by stirring around the entire perimeter of the pool.

MAINTENANCE Dose
Add 0.5 to 1.0 liters of this product per 10,000 gallons of pool water. Maintenance dose should be applied weekly or every other week, depending on local conditions and water quality. Maintenance dose should be applied after a heavy rain or after a prolonged rainfall. If the pool is not treated, add half of the recommended dose every week. If the pool is treated, add half of the recommended dose every other week. This dose helps provide a measure of control over algae growth during the warmer months. This treatment will also help reduce the need for the use of pool water before it is returned to use for the following season. When this product is used as directed, it is effective against Chlorella pyrenoidosa (green algae), Pyramimonas (black algae), and other algae that may be present in the pool.

Storage and Disposal
Do not store pool water or food in a container of this product. Keep out of the reach of children. Do not store pool water or food in a container of this product. Keep out of the reach of children.
