**ACTIVE INGREDIENTS:**
- Alkyl (50% C12, 40% C16) Dimethyl Benzyl Ammonium Chloride .......................................................... 3.0%
- Alkyl (50% C12, 10% C16) Dimethyl Benzyl Ammonium Chloride ......................................................... 4.0%
- Diethyl (50% C16) Dimethy1 Ammonium Chloride ............................................................................. 3.0%
- Didecyl (50% C16) Dimethyl Ammonium Chloride .............................................................................. 1.5%
- Octyl Decyl Dimethyl Ammonium Chloride ....................................................................................... 1.5%
- Dimethyl Diethyl (50% C16) Ammonium Chloride ........................................................................... 0.5%
- Octyl Decyl Dimethyl Ammonium Chloride ....................................................................................... 0.5%
- Octyl Decyl (50% C16) Dimethyl Ammonium Chloride ................................................................. 0.5%

**TOTAL:** 100.0%

**KEEP OUT OF REACH OF CHILDREN**

DANGER PELIGRO

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**INHALATION:**
1. Remove victim to fresh air.
2. If conscious, give plenty of water by mouth.
3. If unconscious, give nothing by mouth.

**HAZARDS TO ENVIRONMENT**

**PRODUCT SPECIFICATIONS:**

**For Disinfecting Surfaces:**
- Use the following instructions when using the Lafferty equipment.
- Use a foam generator or similar device, set equipment according to manufacturer's instructions to deliver a dilution of 1:128 of this product with water (1 oz. of this product per gal. of water or equivalent dilution).
- Apply foam solution to hard, non-porous surfaces in an antisymmetric, overlapping pattern, moving from soiled to less soiled areas on the surface. Do not apply to dressings, cloth, or treat areas that are dry or are not wet to touch. Do not use any other foam additives to the disinfecting solution.

**For Use as a Foaming Disinfectant:**
- Use the Lafferty equipment model A-25/A-50 Airless Foamer, set equipment according to the manufacturers' instructions to deliver a 1:128 dilution of this product with water (1 oz. of this product per gal. of water or equivalent dilution).
- Apply foam solution to hard, non-porous surfaces in an antisymmetric, overlapping pattern, moving from soiled to less soiled areas on the surface. Do not apply to dressings, cloth, or treat areas that are dry or are not wet to touch. Do not use any other foam additives to the disinfecting solution.

**For Use as a Doorway Sanitizer in Premises:**
- Use the following instructions when not using Lafferty equipment.
- Use a foam generator or similar device, set equipment according to manufacturer's instructions to deliver a dilution of 1:128 of this product with water (1 oz. of this product per gal. of water or equivalent dilution).
- Apply foam solution to hard, non-porous surfaces in an antisymmetric, overlapping pattern, moving from soiled to less soiled areas on the surface. Do not apply to dressings, cloth, or treat areas that are dry or are not wet to touch. Do not use any other foam additives to the disinfecting solution.
