ACTIVE INGREDIENTS:
1.2-Benzisothiazol-3-one—1.90% 
INERT INGREDIENTS—81.00% 
TOTAL—100.00%

EPA Reg. No. 1528-34
EPA Est. No. 7405S-QA-001

STORAGE AND DISPOSAL
DO NOT CONTAIN WATER, FOOD, OR FEED BY STORAGE AND DISPOSAL

PESTICIDE STORAGE—Protect from frost. If frozen, allow to thaw and stir well before use.

PESTICIDE DISPOSAL—Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinse is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your local State Pesticide or Environmental Protection Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL—[For containers less than or equal to 50 lbs.]
Non-refillable container. Do not reuse or refill this container. Place in a trash receptacle and dispose of in accordance with local regulations. Do not burn.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS
Combustible. Store in a cool place out of the reach of children. Do not open and do not store near heat or open flame. Do not apply this product in a manner which will contact workers or other persons.

DIRECTIONS FOR USE
For containers greater than 50 lbs.
Non-refillable container. Do not reuse or refill this container. Place in a trash receptacle and dispose of in accordance with local regulations. Do not burn.

INFORMATIONAL HAZARDS
A water soluble, liquid organic biocidal (also called an antimicrobial or in-can preservative), recommended for use as an industrial preservative for the protection of caulk, sealants, grouts, spackling, ready-mixed cements*, ready mixed wallboard compounds, aqueous compositions such as emulsion paints, aqueous emulsions, titanium dioxide dioxides, oil in water emulsions, latexes, water-based adhesives, casein/bovine dispersions, textile spin-finish solutions, pesticide formulations, tape joint compound, leather processing solutions, inks, home cleaning products (such as floor cleaners, floor waxes and polishes, sink cleaners, window cleaners and dish detergents), laundry additives (such as liquid laundry detergent, fabric softeners, and stain removers), and car care products (such as washing products, car waxes, and silicone emulsions), and for the preservation of fresh animal hides and skins. Typical use levels for pesticide formulations is 0.05% by weight. For other applications, typical use ranges from 0.03 to 0.25% by weight in the final formulation, but should not exceed 0.5% of the final product for any application.

*This use application is not approved for use in California.
