POOL FROG® PAC

- Destroys bacteria continuously for weeks
- Controls the rate of chlorine delivery
- Never touch the chlorinating tablets

PRODUCT DESCRIPTION:
This port is a part of an advanced chlorination system that uses the POOL FROG Chlorine Cycler. The氯ine Cycler has low levels of chlorine in a pool. The chlorine Cycler continuously releases chlorine into the pool and away from your face to ensure it is not reused. The chlorine Cycler uses a chlorine salt, a level that is low enough to prevent bacteria from forming. The chlorine Cycler is designed to operate in any pool that is below 10 ppm of chlorine.

DIRECTIONS FOR USE:
If you are using a new chlorine feeder, follow the manufacturer’s instructions for installation. If you are using an old chlorine feeder, follow the manufacturer’s instructions for replacement.

1. To inst all pac: Take POOL FROG Chlorine Cycler at the bottom of the pool and place it in the water. DO NOT FORCE. Replace cycler cap and shake the pac over the pool until it is dissolved. The pac will dissolve in about 15-20 minutes. DO NOT RE-USE or RE-CHARGE. The pac will work for about 15 days. When the pac is empty, replace it with a new one.

2. To adjust the chlorine feed: Adjust the control dial per the size and pump operation setting. To decrease the chlorine feed, decrease one setting per day. To increase the chlorine feed, increase one setting per day. To change the chlorine feed, add or remove chlorine tablets. DO NOT FORCE. Replace cycler cap and shake the pac over the pool until it is dissolved. The pac will dissolve in about 15-20 minutes. DO NOT RE-USE or RE-CHARGE. The pac will work for about 15 days. When the pac is empty, replace it with a new one.

3. To check the chlorine feed: Check the chlorine feed daily. DO NOT RE-USE or RE-CHARGE. The pac will work for about 15 days. When the pac is empty, replace it with a new one.

4. To inst all pac: Take POOL FROG Chlorine Cycler at the bottom of the pool and place it in the water. DO NOT FORCE. Replace cycler cap and shake the pac over the pool until it is dissolved. The pac will dissolve in about 15-20 minutes. DO NOT RE-USE or RE-CHARGE. The pac will work for about 15 days. When the pac is empty, replace it with a new one.

5. To adjust the chlorine feed: Adjust the control dial per the size and pump operation setting. To decrease the chlorine feed, decrease one setting per day. To increase the chlorine feed, increase one setting per day. To change the chlorine feed, add or remove chlorine tablets. DO NOT FORCE. Replace cycler cap and shake the pac over the pool until it is dissolved. The pac will dissolve in about 15-20 minutes. DO NOT RE-USE or RE-CHARGE. The pac will work for about 15 days. When the pac is empty, replace it with a new one.

6. To check the chlorine feed: Check the chlorine feed daily. DO NOT RE-USE or RE-CHARGE. The pac will work for about 15 days. When the pac is empty, replace it with a new one.

SEAS ADDITIONAL PRECAUTIONARY STATEMENTS ON BACK PANEL

STORAGE AND DISPOSAL:
- Keep Out of Reach of Children
- Breathe fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
- If on Skin or Clothing: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses and wash affected area with soap and water before disposal in a sanitary landfill, or by other procedures approved by state and local authorities. Do not reuse or refill this pac. Do not attempt to cut off or discard the pac. Do not attempt to cut off or discard the pac.
Note to Physician

• Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

• Call a poison control center or doctor for treatment advice.

• Take off contaminated clothing.

• Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

• Call poison control center or doctor immediately for treatment advice.

• Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

• Do not give anything by mouth to an unconscious person.

• Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

• Move person to fresh air.

• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

• Call a poison control center or doctor for treatment advice.

• Probable mucosal damage may contraindicate the use of gastric lavage.
STORAGE AND DISPOSAL:

- Store in original container away from children. Store in a cool, dry, well-ventilated area away from heat or open flame.
- In case of decomposition, isolate the container and flood the area with large amounts of water or other appropriate diluent.

PRODUCT DESCRIPTION:
This pac is a disinfectant that is part of an advanced pool care system that uses the POOL FROG Mineral Reservoir with low levels of chlorine to destroy bacteria continuously for weeks under normal conditions in a stabilized pool. The conveniently disposable pac lets you control the rate of chlorine delivery to meet changing conditions in your pool by simply adjusting the control dial on the POOL FROG Chlorine Cycler. You never have to change the dial to adjust chlorine delivery or monitor the chlorine level.

DO NOT REUSE.
DO NOT REFILL.

If Swallowed:
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, as the product contains an active ingredient that may require special treatment advice.

If Inhaled:
- Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

FIRST AID:

- If in Eyes: Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Do not rub eye or finger it. Rinse with plenty of water for at least 15 minutes. Do not apply ointments or any other substances, except water, to the eye.
- If on Skin: Wash thoroughly with soap and water after handling and skin burns. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Follow directions for use carefully. Wash thoroughly with soap and water after handling and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. If you believe you or someone else may have ingested this product, call a poison control center or doctor for treatment advice.

STORAGE AND DISPOSAL:

- Keep Out of Reach of Children.
- Do not contaminate food or feed with this product.
- Store pac in original container in a cold, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container and flood area with large amounts of water or other appropriate diluent.

ENVIRONMENTAL HAZARDS:

- Corrosive: Avoid any contact with flaming or burning material such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g., calcium hypochlorite). Such use may cause fire or explosion.
- Corrosive: Avoid any contact with flaming or burning material such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g., calcium hypochlorite). Such use may cause fire or explosion.

PHYSICAL OR CHEMICAL HAZARDS:

- Flammable: Keep out of reach of children. Store in a cool, dry, well-ventilated area away from heat or open flame.
- Irritating to eyes, respiratory system, and skin burns. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Follow directions for use carefully. Wash thoroughly with soap and water after handling and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed.

THE EASIER ALTERNATIVE TO BULK CHLORINE
The No-Hassle Way to a Clean Pool

Reduced Odors and No Touching or Measuring Chlorine.

MODEL #01-03-1413

• Pre-filled
• Lightweight
• Easy to Use
• Less Odors

CYCLER PAC OR REPLACEMENT CHAMBER
AUTOMATIC WATER TREATMENT PAC/CHAMBER
PRE-FILLED WITH CHLORINE

20-44-1023
553041343R6N

What Makes This Pool Care System Better than the Rest?

1. Convenient
   Pre-filled pack/chamber eliminates expensive trips to chlorine for greater safety and convenience.

2. Long Lasting
   Trapped air in pack/chamber keeps chlorine dry to last & keep wearers-per-portion.

3. Reliable
   Reliably releases chlorine through only a small amount of chlorines for more uniform and reliable output.

STORE IN A COOL, DRY PLACE
