BAQUA spa

Sample Kit

Now it's easier than ever to enjoy bromine-free, chlorine-free water in your spa

1 2 3

Step 1: Waterline Control
Step 2: Oxidize
Step 3: Sanitize

This Sample Kit features the core ingredients of the BAQUASpa System in convenient sample sizes. Inside, you'll find enough BAQUASpa products to treat and maintain the average-size spa for approximately 30 days.
Bromine-Free, Chlorine-Free
BAQUASpa®
Sanitizer with Stain & Scale Control

Active Ingredients:
Poly (hexamethylenebiguanide).......................... 20%
Hydrochloride ............................................. 80%

Total .......................................................... 100%

KEEP OUT OF REACH OF CHILDREN
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with skin or clothing. Avoid breathing vapor or mist. Causes no substantial but temporary eye injury. Do not get in eyes. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse. Wear goggles or face shield when handling concentrate. May cause allergic skin reaction.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. BAQUASpa® Sanitizer with Stain & Scale Control is effective for residential and public swimming pools and spas.

Spa and Hot Tub: For best results follow a weekly program with your BAQUASpa System. Take a spa water sample to your Authorized BAQUASpa Dealer regularly for a detailed water analysis.

Treat The Spa And Hot Tub: Important — BAQUASpa® Sanitizer with Stain & Scale Control is incompatible with chlorinating and brominating chemical products.

Start-Up with BAQUASpa Sanitizer with Stain & Scale Control:
1. Remove chlorine or bromine source and disconnect feeder. Discontinue use of oxidizers and electrochlorination if present. 2. Drain existing water in spa and hot tub. 3. Clean spa surface and filter. 4. Fill spa with water. 5. Have your Authorized BAQUASpa Dealer check your water for proper water balance. 6. After water has been balanced, add BAQUASpa Sanitizer with Stain & Scale Control to give a concentration of 50 ppm (1 oz of product per 150 gallons of spa water). 7. Circulate water 15 minutes. Then check BAQUASpa Sanitizer with Stain & Scale Control concentration with BAQUASpa Test Strips and adjust if necessary.

Normal Spa and Hot Tub Maintenance:
1. Every week, check BAQUASpa Sanitizer with Stain & Scale Control concentration and pH. Adjust if necessary. 2. The level of BAQUASpa Sanitizer with Stain & Scale Control should be maintained between 30 and 50 ppm. When the level of BAQUASpa Sanitizer with Stain & Scale Control is 30 ppm or less, add enough BAQUASpa Sanitizer with Stain & Scale Control to bring the level up to 50 ppm. The spa's level of BAQUASpa Sanitizer with Stain & Scale Control level 10 ppm, add 0.2 oz, per 150 gallons of spa water, for further treatment advice.

INTERIOR UNITS ARE NOT FOR INDIVIDUAL SALE. SEE LABELS ON INDIVIDUAL KIT COMPONENTS FOR PRECAUTIONARY STATEMENTS AND FIRST AID TREATMENT.

Spa and Hot Tub: For best results follow a weekly program with your authorized BAQUA® Dealer regularly for a detailed water analysis.

Treating The Spa And Hot Tub: Important - BAQUA® Sanitizer with Stain & Scale Controls is compatible with chlorinating and brominating chemical products.

Start-Up With BAQUA® Sanitizer with Stain & Scale Control: 1. Remove chlorine or bromine sources and disconnect feeder. Discontinue use of boosters and electrochlorinators if present. 2. Drain existing water in spa and hot tub. 3. Clean spa surface and filter. 4. Fill spa with water. 5. Have your authorized BAQUA® Dealer check your water for proper water balance. 6. After water has been balanced, add BAQUA® Sanitizer with Stain & Scale Control to give a concentration of 50 ppm (1 oz. of product per 150 gallons of spa water). 7. Circulate water 15 minutes, then check BAQUA® Sanitizer with Stain & Scale Control concentration with BAQUA® Test Strips and adjust if necessary.

Normal Spa and Hot Tub Maintenance: 1. Every week, check BAQUA® Sanitizer with Stain & Scale Control concentration and pH. Adjust if necessary. 2. The level of BAQUA® Sanitizer with Stain & Scale Control should be maintained between 30 and 50 ppm. When the level of BAQUA® Sanitizer with Stain & Scale Control is 30 ppm or less, add enough BAQUA® Sanitizer with Stain & Scale Control to bring the level up to 50 ppm. The spa's level of BAQUA® Sanitizer with Stain & Scale Control should never be allowed to drop below 30 ppm. To raise the BAQUA® Sanitizer with Stain & Scale Control level 10 ppm, add 0.2 oz. per 150 gallons of spa water. For further treatment advice:

   1. Waterline Control
   2. Codicide
   3. Sanitize

First Aid
If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If On Skin Or Clothing, Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If Swallowed: Call poison control center or doctor immediately. Mix 1% solution of baking soda in a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. In Case of Emergency Call: 1-800-654-6911. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Environmental Hazards: This product is toxic to fish. Do not contaminate water by cleaning of equipment or disposal of wastes.

Storage and Disposal: Keep this product in its tightly closed container when not in use. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. Protect from Freezing.

In Case of a Leak or Spill: Soak up with absorbent, such as sand, earth, or sawdust, and shovel into waste container. Remove waste to chemical waste area and dispose of in accordance with local pollution regulations. For information on spills call 1-800-654-6911.
