POOL breeze® pool care system

start-up kit
For all pools up to 20,000 gallons
Start-Up Kit includes:

- 2 pouches of Pool Breeze® Non-Chlorine Oxidizer
- 2 pouches of Pool Breeze start-up & winterizing algicide
- 2 pouches of Pool Breeze Granular Metal Removing Agent
- Pool Breeze Test Strips
- Step by Step Instructions to properly open a pool
Open your pool with these specially formulated Pool Breeze® products. Follow our step-by-step instructions inside and be sure to follow all of your equipment manufacturers' instructions to achieve a sparkling clear pool.

Start-up & Winterizing Algicide

Active Ingredient:
N-Alkyl (C14 55%, C12 3%, C16 2%) dimethyl benzyl ammonium chloride dihydrate.................................................. 100%

KEEP OUT OF REACH OF CHILDREN
DANGER
See Precautionary Statements and First Aid below.

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL USE DIRECTIONS:
For best results test and adjust water balance before use. Chlorine and clarifying pool water as required. Keep filter systems clean and backwash regularly.

Pool Breeze® pool care system start-up & winterizing algicide should be added to a pool or spa feeding device such as a skimmer, blower, or automatic feeder while filter and pump are in operation. To provide time for even distribution in the pool water, treat at least 4 hours prior to pool use.

INITIAL APPLICATION:
Add 2.7 dry ounces of Pool Breeze® pool care system start-up & winterizing algicide per 10,000 gallons of water to a suitable feeding device to achieve 0.0 ppm active ingredient in pool water.

VISUAL ALGAE:
If algae are visible, brush surfaces and then add 0.27 dry ounces (7.5 grams) of Pool Breeze® pool care system start-up & winterizing algicide per 10,000 gallons of water to a suitable feeding device to achieve 0.0 ppm active ingredient. Vacuum pool and remove dead algae after 24 hours. Repeat treatment as necessary if algae are still present.

MAINTENANCE DOSE:
Add 0.075 dry ounces (2 grams) of Pool Breeze® pool care system start-up & winterizing algicide per 10,000 gallons of water to a suitable feeding device every week to achieve 0.0 ppm active ingredient. For very hot weather or heavy bather loads, use this dosage every 2-5 days.

BOOSTER DOSE:
After heavy rains, severe storms or heavy bather load, add 0.27 dry ounces (7.5 grams) of Pool Breeze® pool care system start-up & winterizing algicide per 10,000 gallons of water to a suitable feeding device to achieve 0.0 ppm active ingredient.

WINTERIZING DOSE;
Pool Breeze® pool care system start-up & winterizing algicide is the prevention of algae in swimming pools during the winter months, when the pool is not in use. Test water for proper balance of minerals, pH and presence of chlorine. Take corrective action immediately.

SUPPLEMENTAL TREATMENTS:
Add 0.75 dry ounces of Pool Breeze® pool care system start-up & winterizing algicide per 10,000 gallons of water to a suitable feeding device to achieve 0.0 ppm active ingredient at post doseup. Run the filter pump for at least 6 hours after application.

Clean pool water line and filter. In areas with severe freezing, drain pool equipment and plumbing. Use an antifreeze recommended for maintaining pool plumbing and equipment. Pools with solar cover/ mesh covers may need a second treatment in mid-winter or just prior to opening.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS – DANGER: Causes irreversible eye damage and skin burns. MAY BE FATAL IF INHALED. SWALLOWED OR ABSORBED THROUGH SKIN. Do not get in eyes, on skin or on clothing. Do not breathe dust. Wear protective eyewear, gloves, protective clothing and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash clothes before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish.

PHYSICAL AND CHEMICAL HAZARDS: This algicide is corrosive. Do not mix with slope of other materials.

STORAGE AND DISPOSAL: Store in original container in area inaccessible to children. Do not leave empty container. Wrap container and put in trash.

FIRST AID:
IF IN EYES: Hold eye open and flush swiftly and gently with water for 15-20 minutes. Remove contact lenses, if present. After the first 5 minutes, then continue rinsing eyes.

IF ON EYES OR CLOTHING: Take off all contaminated clothing. Flush skin immediately with plenty of water for 15-20 minutes.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person gargle a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance. Their unconsciousness is probable. If person capable, respire by mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Check the product container or label with you when calling the Poison Control Center or doctor or going for treatment.

NOTE TO PHYSICIAN: Prolonged exposure may contribute to the use of gastric lavage.
