Corn Weed Blocker is a pre-emergent weed suppressant that inhibits weed seeds from germinating in established lawns, vegetable gardens and flower beds while also acting as a slow release fertilizer due to its 9% Nitrogen content. Corn Weed Blocker is safe to use around new plants with existing root systems like transplants and grass sod, and unlike chemical herbicides, is also harmless to people, pets and ground water.

**APPLICATION RATES**

**Lawns:** Apply 5 lbs per 250 square feet in the early Spring before broadleaf weeds emerge and again in late Summer. Water deeply after application and then allow soil to dry before watering again. Corn Weed Blocker must be applied before weeds germinate.

**Perennial Beds:** Apply 2-3 lbs per 100 square feet and thoroughly mix into soil. Corn Weed Blocker can also be blended with mulch to further suppress weeds.

**WHAT IS "N-P-K"?**

**NITROGEN (N):** Nitrogen is necessary for lush, green, leafy growth. An excess, however, will promote vegetative growth at the expense of fruit or flowers. Nitrogen is generally applied at higher concentrations in early growth stages. Use Down To Earth Bat Guano, Blood Meal or Feather Meal.

**PHOSPHORUS (P):** Phosphorus will promote big, bright blooms and enhanced fruit production. Phosphorus is essential for fruiting, flowering, strong root growth and quality seed development. Use Down To Earth Fish Bone Meal or Seabird Guano.

**POTASSIUM (K):** Potassium, or Potash, helps produce strong sturdy plants and quality fruit. Potassium naturally increases a plant's resistance to all types of stress and is vital for cell growth and carbohydrate metabolism. Use Down To Earth Acid Mix or Kelp Meal.

**TOTAL NITROGEN (N) 9.0%**

9.0% Water Insoluble Nitrogen*  
AVAILABLE PHOSPHATE (P2O5) 1.0%

Derived from: Corn Gluten Meal  
*9.0% Slow Release Nitrogen from Corn Gluten Meal

**Active Ingredients:** 100% Corn Gluten Meal  
**Inert Ingredients:** None

**ABOUT DOWN TO EARTH**

Down To Earth has been active in supplying high quality naturally occurring soil amendments and fertilizers to dealers, nurseries, farmers and manufacturers for over 25 years. Down To Earth has a complete selection of all natural fertilizers. Just ask your retailer!
