Elanco US Inc. shall not be liable for losses or damages resulting from the handling or use of this product unless Elanco US Inc. is promptly notified of such loss or damage in writing. To the extent permitted by law, Elanco US Inc. shall not be liable for consequential or incidental damages or losses.

The terms of the Warranty Disclaimer above and this Limitation of Remedies cannot be varied by any written or verbal statements or agreements. No employee or sales agent of Elanco US Inc. or the seller is authorized to vary or exceed the terms of Warranty Disclaimer of this Limitation of Remedies in any manner. StandGuard, Elanco and the diagonal bar logo are trademarks of Eli Lilly and Company or its affiliates.

Elanco US Inc. shall not be liable for losses or damages resulting from the use of this product (including claims based on contract, negligence, strict liability, or other legal theories), shall be limited to, at Elanco US Inc.'s election, one of the following:

1. Refund of purchase price paid by the buyer or user of the product bought, or
2. Replacement of the amount of product used (but in no event shall the amount of such product exceed the purchase price paid by the buyer or user of the product bought). No employee or sales agent of Elanco US Inc. or the seller is authorized to vary or exceed the terms of Warranty Disclaimer of this Limitation of Remedies in any manner.

The exclusive remedy for losses or damages resulting from this product (including claims based on contract, negligence, strict liability, or other legal theories), shall be limited to, at Elanco US Inc.'s election, one of the following: (1) Refund of purchase price paid by the buyer or user of the product bought, or (2) Replacement of the amount of product used.

DIRECTIONS FOR USE

For horn flies, repeat treatment as needed, (1) Refund of purchase price paid by the buyer or user of the product bought, or (2) Replacement of the amount of product used. StandGuard pour-on Insecticide should be used in an integrated pest management system which may involve repeat treatments and the use of other pest control practices. Continual exposure of horn flies to a single class of insecticide (e.g., pyrethroids or organophosphates) may lead to the development of resistance to that class of insecticide. In order to reduce the possibility of horn flies developing resistance, it is important to rotate, on a seasonal basis, the class of insecticide used and/or the method of horn fly control. For advice concerning current control practices with relation to specific local conditions, consult resources in resistance management programs, your Cooperative Agricultural Extension agent or your Elanco US Inc. representative at 1-800-428-4441.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Notice: (Shake well before use. Avoid freezing.

DIRECTIONS FOR USE

For control of horn fly and lice on beef cattle and calves in the United States, the class of insecticide used and/or the method of application can be rotated, on a seasonal basis, to help prevent the development of resistance. It is important to rotate, on a seasonal basis, the class of insecticide. In order to reduce the possibility of horn fly resistance, StandGuard Pour-On Insecticide is recommended for use on all classes of cattle on a rotating basis. In order to reduce the possibility of lice resistance, StandGuard Pour-On Insecticide should be used in an integrated resistance management program. Use the resistance management program that is appropriate for the class of insecticide used. 

SPECIAL NOTE:

- For lice, repeat treatment as needed, however do not apply more than twice within any 14-day period.
- For horn flies, repeat treatment as needed, however do not apply more than three times within any 14-day period.

For horn flies, repeat treatment as needed, however do not apply more than three times within any 14-day period.
