For flies, gnats, mosquitoes, fleas, ants, sawdust, and brown flies. IMPORTANT: Applicator must wear an approved respirator when using this product indoors and must vacate the area after treatment. See Hazards to Humans and Domestic Animals paragraph.

Rinse skin immediately with plenty of water for 15-20 minutes.

If you do not understand the label, find someone to explain it to you in detail.

**EMERGENCY INFORMATION**

Wear the product container or label with you until calling a poison control center or doctor for treatment advice.

**PROBABLE MUCOSAL DAMAGE May be complicated by the use of gastric lavage.**

**POISONING SYMPTOMS:** Symptoms include weakness, headache, light-headedness, nausea, vomiting, diarrhea, non-reactive pinpoint pupils, salivation, sweating, nervous, convulsions, and death. TREATMENT: Atropine is the specific Cholinesterase inhibitor. Take sodium nitrite (1.0 ml/10 kg body weight) in 5% saline solution orally. If there are signs of paralytic ileus, atropine sulfate should be injected at 0.10-0.15 mg/10 kg body weight to 1.0 mg/10 kg body weight. If any signs of paralytic ileus are noted, take sodium nitrite (1.0 ml/10 kg body weight) in 5% saline solution orally. If there are signs of paralytic ileus, atropine sulfate should be injected at 0.10-0.15 mg/10 kg body weight to 1.0 mg/10 kg body weight. If any signs of paralytic ileus are noted, take sodium nitrite (1.0 ml/10 kg body weight) in 5% saline solution orally.

**LIMITED WARRANTY AND DISCLAIMER**

The manufacturer warrants that this product conforms to the chemical description on the label, but that the product is reasonably fit for the purposes set forth in the directions for use, subject to the inherent risk inherent in all animal health care products. It is a condition precedent to the interpretation and enforcement of this warranty that the user has treated all animals and in the presence of an exposed animal. If you do not understand the label, find someone to explain it to you in detail.
USER SAFETY RECOMMENDATIONS
Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
• Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

PHYSICAL OR CHEMICAL HAZARDS
Combustible. Do not use or store the product near heat or open flame.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.
PESTICIDE STORAGE: Store product in original container in a cool, dry, locked place out of reach of children.
PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA regional office for guidance.
CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling, if available, or reconditioning, if appropriate, or puncture and dispose of in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
