**Odor Control PLUS Flea Control**

- Kills fleas, ticks, flea eggs, and flea larvae
- Controls reinfestation for up to 210 days
- Pet odor eliminator

**Kills Flea Eggs**

Spray in a well-ventilated area, keeping the product container out of reach of children and pets. Apply thoroughly to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along baseboards, window and door sills, and localized areas of floor and floor covering where fleas, ticks and lice may be present. Old pet bedding should be removed and replaced with fresh bedding after treatment of pet areas. Do not spray surfaces where spotting, staining or discoloration would be objectionable.

**HOUSEHOLD TREATMENT:**

Thoroughly vacuum all carpeting, upholstered furniture, along baseboards, under furniture and in closets. Seal vacuum bag and dispose of in trash outdoors. Mop hard surface floors. Using a smooth back and forth motion, spray SENTRYHOME Home & Carpet Spray to treated area and allow to air dry. To improve the effectiveness of Odor Control PLUS Flea Control, wait 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.

**If on skin:**

Wash thoroughly with soap and water after handling. Prolonged or frequently repeated exposure may cause allergic reactions in some individuals. Remove contaminated clothing and wash before reuse.

**Causes skin irritation and substantial but temporary eye injury. Do not get in eyes, on skin, or on clothing. Wear face shield or goggles.**

**First Aid Measures:**

• For eye contact: Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison center or doctor. • Do not give anything by mouth to an unconscious person.

**If in eyes:**

• Call a poison control center or doctor for treatment advice. • If on skin:**

• Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15 - 20 minutes.

**Inhalation:**

• Remove victim to fresh air. If the victim is not breathing, perform artificial respiration. If breathing is difficult, give oxygen. If breathing stops, use cardiac massage. • Call a poison control center or doctor for treatment advice.

**If swallowed:**

• Call a poison control center or doctor for treatment advice. • Do not give anything by mouth to an unconscious person.

**If on clothing:**

• Wash clothing before reuse. • Call a poison control center or doctor for treatment advice.

**Ingestion:**

• Do not induce vomiting unless told to do so by the poison center or doctor. • Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the National Poison Prevention Line at 1-800-222-1222. • Rinse mouth with plenty of water. • Call a poison control center or doctor for treatment advice. • If vomiting occurs, do not induce vomiting unless told to do so by the poison center or doctor.

**Prevent further exposure:**

• Remove victim to fresh air. If breathing is difficult, give oxygen. If breathing stops, use cardiac massage. • Call a poison control center or doctor for treatment advice.

**FIRST AID FOR SPECIAL CIRCUMSTANCES:**

• For pets: Remove pets, birds and cover fish aquariums before spraying. Apply thoroughly to infested areas. If reinfestation occurs, repeat treatment. If fleas reappear, you should either repeat treatment or allow the product’s residual effect to kill the newly emerged fleas.
